Transformar y Consultar Datos

Paso 1: Relacionar Tablas

Ej: Une la tabla de ventas con la de clientes usando el id del cliente.

Crear Tabla Combinada

Paso 2: Aplicar Transformaciones

Crea una nueva columna llamada ID Cliente combinando los valores de la columna ID_Transaccion utilizando solo valor numerico.

Aplicar Transformaciones

Desahcer

Rehacer

Tablas y Vista Previa Original

base_clientes.xlsx

balances_financieros.xlsx

| ID_Transaccion | Fecha | Descripcion | Cuenta_Contable | Ingreso_USD | Gasto_USD | Balance | Centro_Costo | Responsable |
|----------------|-------|---------------|-----------------|-------------|-----------|----------|--------------|-------------|
| TRX-1 | 2024- | Transaccion 1 | Capital | 16014.27 | 18382.59 | -2368.32 | IT | Contador |
