MESSAGE FROM THE PRESIDENT

"It is time for the second education to appear in all schools and universities, and give new directions to the world about economics and financial power. The second education believes that all comes from within - all that you see and touch, right or wrong, good or evil, is just a projection of an invisible, powerful world, although neglected, that abides right inside you.

We have to bet and invest on visionaries, on dreamers, on people who love their work, and not on money making schemes. People motivated by money are untrustful and limited. People guided by their dream, led by their inner intuition will be able to project at will a world of abundance and fortunes.

When you have learnt how to be in prosperity consciousness, money and good ideas, financial power and love will come to you naturally. Don't expect to be rewarded by the money system. Nothing coming from "out there" can make you whole, happy or wealthy. Your real personal prosperity can only come from within."

ESE Founder & President, Elio D'Anna

ABOUT ESE

The European School of Economics (ESE) is an International Business School offering programmes leading to Bachelor (BSc) degrees, Master (MSc or MBA) degrees and short Certificate Programmes at its centers in London, Rome, Milan, Florence, Madrid and New York as well as distance learning and blended delivery courses.

ESE graduates are among the most competitive business professionals on the market, prepared for leadership roles in international marketing, finance, communication and management. With the ability to individually tailor their course of study, ESE students:

- **Study abroad** with ESE centres worldwide;
- **Specialize in cutting-edge business sectors**, such as fashion, events, music, sport, art, media and human resources among others;
- **Complete internships**, selecting from more than 1500 leading organizations around the world.

A School without borders, the European School of Economics is a new concept in higher education. Combining academic excellence, internationality and pragmatism, the ESE's degree and certificate programmes are designed to prepare a new generation of leaders and entrepreneurs.

This is achieved through the unique ESE educational philosophy:

“The Dream is the most real thing there is” - students develop a unique academic and professional pathway through their selected course specialization, internship placements, and final dissertation.

Pragmatism - hands-on experience in contemporary business practices through the comprehensive internship programme as well as workshops, company visits and guest lectures organized on Campus.

Internationality - student body originating from more than 60 nations, ESE centres around the world, and internships with global organizations.

*“Behind every human achievement,
at the origin of every intuition,
of every scientific or social conquest,
behind the world’s largest financial
and industrial corporations,
and all that is beautiful, useful,
wealthy, there is invariably one man,
an individual and his Dream.”*

*Elio D’Anna
ESE Founder & President*

MISSION STATEMENT

Only individuals can transform society. Only individuals can dream.

ESE’s mission is to create a new generation of young entrepreneurs and corporate leaders, visionaries, pragmatic dreamers. Achieving such an aim requires more than good programmes and excellent teachers. ESE is a system of vital ideas and prepares its students to be the new cells of a healed humanity, free from conflictual thinking, superstitions, prejudices and obsolete ideas, cultivating in themselves an indomitable passion for greatness.

The life of an organization, the future of a nation, of an entire civilization depends on the existence of these men and women. The heads of future organizations will be philosophers of action. These people are more precious than gold mines and oil fields. They will bring success and longevity to the enterprises of the world.

We embrace the idea that to forge them, academic excellence has to keep up with developing their individual human potential, and that developing intellectual capacities has to go along with creating a true internationality and sound operative skills, both gained on Campus as well as in the field, within leading companies of the world.

ESE aspires to:

- Be a learning environment that transports students from where they are to where they want to be.
- Provide a welcoming, engaging, and stimulating environment where students are encouraged to consider their intellectual and affective perspectives and how they led to success.
- Conduct programmes that enable students to gain in-depth knowledge through relevant and interrelated studies and projects that seek to broaden their learning experiences.
- Offer a progressive, dynamic atmosphere that prepares students to thrive in an unfolding future.
- Attract people who are passionate about living their dream and creating an optimal learning environment.

Our Mission is to develop business leaders with active and creative minds, a sense of understanding of global issues and the global environment of business, and the courage to act on their dreams and beliefs.

STUDYING AT ESE

Challenging learning environment

Learning takes place in a truly international environment embracing students from 60 different countries, fostering tolerance and understanding through healthy competition.

Flexible locations

The academic space has no limits at ESE as students can select from six different campuses at which to study for a semester or for an entire academic year. London, New York, Madrid, Milan, Rome and Florence are world centres in which the campuses are located.

Internship in global corporations

ESE offers one of the most extensive and comprehensive internship programmes available today. The quality of the placement service is owed to the long established relationships that ESE has been fostering with global companies for years. This means that students are given excellent opportunities to enter the job market and gain exposure.

Unique blend of theory and practice

Unlike traditional masters programmes which concentrate on academic knowledge and research, ESE's Master degree programmes perfectly blend theory and practice in order to achieve the ultimate goal of producing truly employable graduates at the end of their course of study.

A winning philosophy

Love what you do – do only what you love. This statement truly embodies the winning philosophy of the School where new ideas thrive and contribute to teaching each student the importance of being an individual visionary capable of nurturing a dream of global proportion, thus contributing to changing the destiny of the planet and reconciling differences.

Young people become entrepreneurs and managers; acquiring the moral standing, ethical principles, visionary leadership and global culture required to fulfill their professional future roles.

Small classes

Learning at ESE is an individual and exciting experience due to the small class size and the excellent student/teacher ratio, offering students a personal and tailored learning experience.

The Faculty

Dedicated and professional academic staff guide the students throughout their studies, individual attention and academic and professional guidance. Faithful to the practical vocation of the School, the ESE faculty combines excellent academic skills with everyday business practice. The students therefore enjoy the benefits of academic knowledge and state-of-the-art business practice in the various areas of business.

Visiting Professors and Guest Lecturers

Continuing the ESE tradition, the centres regularly invite prominent personalities from the world of business and culture to visit and lecture. Many Nobel Prize winners and renowned business leaders have enriched ESE students' knowledge and perspectives.

Admission procedure and Starting dates

With three intakes per year (autumn, winter and spring) ESE offers flexible starting dates for its degree programmes. The intakes are distributed over the campuses, allowing students the possibility to start wherever and whenever they prefer. Students can check the exact starting dates for their preferred course at the ESE centre of their choice.

ESE Foundation Scholarship Programme

The Foundation helps deserving students whose merits are undisputed and who need additional financial support. Partial scholarships are granted on a need-and-merit basis to encourage academic excellence and sustain ESE's ambition to foster a global community of scholars.

6 ESE CENTRES

STUDY, TRAVEL & WORK IN THE WORLD'S MAJOR CAPITALS

The high standards exemplified by our academic programmes are also reflected in our choice of ESE centre locations.

The European School of Economics' centres are situated in some of the most beautiful settings that Europe and the United States have to offer: an ultra modern building in a desirable and sought after district of Milan; an amazing 19th century building with private gardens in the very heart of imperial Rome with an impressive view of the Caracalla Baths and close to the Colosseum; the Renaissance Palazzo Rosselli Del Turco in central Florence which is just steps away from the famous Ponte Vecchio; the picturesque campus building in Madrid located in the prestigious Alonso Martinez, in the heart of the capital and in New York is located in Trump Tower on Fifth Avenue, one of the most powerful buildings in the world.

These settings complement the cosmopolitan atmosphere of our ESE centres and offer students a rich and stimulating environment in which to pursue their studies.

LONDON

NEW YORK

ROME

MILAN

FLORENCE

MADRID

LONDON

The European School of Economics in London has its location in the very heart of the city and offers the double benefit of an intimate and highly personal classroom atmosphere amid a cosmopolitan backdrop featuring great diversity. Undergraduate and postgraduate students and faculty of ESE London centre operate on a first name basis while taking advantage of one of the most multicultural educational settings.

ESE London classes typically include students from European countries, as well as from Asia, South America and the United States. Young people from all corners of the globe converge here to learn, to socialise, and to exchange cultures and ideas in an environment that promotes individual growth. At the same time, forming a complete and successful individual is the principal and ultimate objective of every ESE degree in London.

Our London faculty boasts professors with outstanding experience in both the academic and professional worlds; several ESE London's lecturers also work at some of the city's most prominent corporations or own and operate their own companies. The city's nightlife offers equally exciting opportunities with its vast selection of theatres, art galleries, nightclubs, and a litany of other cultural institutions to round off your London experience.

NEW YORK

LEGACY is a private business school in New York, offering certificate programmes, operating in the candidacy framework regulated by Bureau of Proprietary School Supervision. Upon completion of the programme, students will be awarded with a certificate from Legacy Business School. LEGACY's classrooms are world-class and provide intimate settings offering optimal individual attention for each student. The institute's facilities located in New York's Trump Tower are designed as an incubator for innovation and extraordinary achievements. Extending beyond the classroom, LEGACY offers premiere amenities; dining and shopping options, as well as prime student services. By delivering elite personalized treatment to students, LEGACY blurs the line between school and leisure in order to captivate minds in an impactful way.

LEGACY is the most exclusive, private business school in the US. With exclusivity come unique opportunities to intern at prime companies offered only to students at LEGACY, which are the cornerstone of students' career developments and future successes. At LEGACY, students play a large role in defining who we are - the innovators and trendsetters redefining education. We value you for who you are; unique, passionate and courageous. Let's redefine education together, because our goal is the same as yours: to make you one of tomorrow's entrepreneurial game-changers.

MADRID

Located in one of the most prestigious areas of the Spanish capital, European School of Economics' centre in Madrid is located in one of the most upscale neighbourhoods and within walking distance from the city's financial center.

Surrounded by offices and shopping centers, ESE Madrid offers its students an ideal environment to take training courses that will lead them to the achievement of their individual dream. Thanks to a training method that favors the formation of small classes, ESE Madrid provides a tailor-made learning experience.

Lecturers from around the world support programmes that will exceed the needs of the students making them aware of the noblest interests, and provide them with the insights needed to become the next generation of business leaders. The largest Spanish and European firms collaborate regularly with ESE Madrid for the realisation of a unique internship programme.

The hospitality and tolerance are the distinctive features of the warm and sunny people of Spain, capable to make every tourist feel like a "Madrileno".

Known for its restaurants and the movida, Madrid has meaningful cultural experiences to offer during the day such as visits to world famous museums as 'El Prado' and 'Queen Sofia'. Madrid, cheerful and vital, is the perfect setting for students looking for experience, and cultural life, exciting and constantly evolving.

MILAN

There is a quintessential reason for our presence in this metropolis and one that relates closely to the synergies that have made ESE so popular: the city of Milan dreams. As the symbol of the Italian dream, Milan has traditionally been a city of opportunity, a place where Italians and other Europeans 'make it'. As a world centre for fashion and commerce, Milan exudes creativity, hard work and fun - a reflection of ESE's philosophy toward education and personal development.

The ESE centre in Milan is located in a ultra modern structure in the heart of zona Tortona. Our school grounds are easily accessible by both public transportation and metro. We are located directly on the Green Metro Line (M3) at the "Porta Genova" metro stop, just a few stops from Milan's Duomo and 3 stops from Cadorna station.

Zona Tortona remains Milan's most exciting part of the city and at least once or twice a year during the Salone del Mobile and Design and Milano Fashion weeks, even the most exciting part of the world. The area of Via Tortona has been totally redeveloped, with former industrial buildings being bought and converted into studios by fashion and design people: this has produced an upgrading of the area into a desirable, sought-after district and has also led to a new nightlife.

After the requalification of Zona Tortona, important companies started to populate this area, such as Deloitte, Armani, Zegna, Hugo Boss, Kenzo, Gucci, Diesel and Della Valle. Moreover several valorization projects have been realized by great architecture studios, such as Tadao Ando, David Chipperfield, Antonio Citterio, Mario Cucinella, and Matteo Thun.

FLORENCE

The Florence centre lies in the very heart of the city, just steps away from the famous Ponte Vecchio, a five-minute walk from the Duomo and Piazza della Signoria, and a ten-minute walk from the railway station, Santa Maria Novella.

Students can enrich their studies with the opportunities made available by greatly dynamic, important historical and international environment. The ESE centre lies in the 16th century Renaissance Palazzo Roselli Del Turco in the very centre of the city.

Florence is significant not only for its revolutionary contribution to arts, but also as one of the birthplaces of the modern western trade system and a historic centre of commerce, finance and banking. As the birthplace of the Italian Renaissance, people have traveled from all over the world to celebrate Florentine art and culture for centuries.

ESE classes typically include students from from all around the world. Young people from all corners of the globe converge here to learn, socialise and exchange ideas in an environment that promotes individual growth. At the same time, forming a complete and successful individual is the principal and ultimate objective of every ESE programme.

The cultural and educational opportunities made available to students by this city are enumerable, including destinations such as the famous Uffizi Gallery, Ponte Vecchio, and Duomo Cathedral, not to mention the limitless social and cultural activities open to students through the city's theatres, events and fairs, nightclubs, art galleries, and the beautiful Tuscan countryside close by.

ROME

Why study in Rome? With an unparalleled history dating back to ancient times, Rome today continues to represent the pinnacle of European beauty and culture, as well as a modern continental centre for communications, events, hospitality, music and film.

ESE students in Rome take advantage from a range of different European university degrees and MSc & MBA courses offered by our school of international studies. The Rome centre is located at Via della Cordonata, immersed in the very heart of imperial Rome with an impressive view of the Venezia square and a step away from the Colosseum and Fori Imperiali. The cultural and educational opportunities outside of classroom are equally exciting and nearly unlimited.

The cobblestoned streets and majestic piazzas are architectural masterpieces in themselves, and the city is home to no less than 12 UNESCO World Heritage sites. Rome's magnificent Colosseum stands as one of the finest examples of Roman architecture and engineering, while the Pantheon is considered one of the ancient builders' greatest achievements. Rome holds some of the world's most extraordinary artistic masterpieces ever realized, including Michelangelo's ceiling in the Sistine Chapel and Raphael's frescoes in the Vatican Museums and Villa Farnesina.

Beyond its historical and artistic value, modern-day Rome is a major European capital with many important embassies, international organizations, governmental agencies, and multinational companies, and serves as a full of life hub for business, politics and research. The city is constantly welcoming international celebrities, groundbreaking scientists, and world-famous businesspeople; creating an inspiring atmosphere for students as they prepare for their futures.

Studying abroad is one of the most important decisions a student and his family can make. The experience is truly life-changing: not only will it change the way that you see the world from which you came, it will also inspire you to think differently about the rest of the world that you have yet to discover. Where better to begin that journey than the Eternal City?

INTERNSHIP PLACEMENTS FOR 2010-2018 ESE STUDENTS

SECTOR OF EMPLOYMENT FOR ESE GRADUATES

INTERNSHIPS TRAINING

In today's competitive job market, it is becoming increasingly important to help students clarify their own life goals and show them the way toward building their unique and personal dream. **We believe that anyone can realize their dreams and have the ability to do what they really love.**

From the very first year of study, our students have the concrete opportunity to proactively move towards their goals and target their objectives, through a combination of **extra curricular activities and in-company training** which – at the end of the programme – amount to a bona fide mini-career.

While developing a range of marketable skills and competencies, internship will allow students to:

- apply course knowledge in practical situations within the work environment
- bridge the gap between study and work
- develop inner qualities and gain a practical understanding of the concept of individual responsibility, according to which external events are projections of one's own inner states
- test individual career plans by obtaining experience in a chosen field, and thus helping one to better understand what it is that they really love to do
- develop a professional network and assess internship providers for future employment opportunities

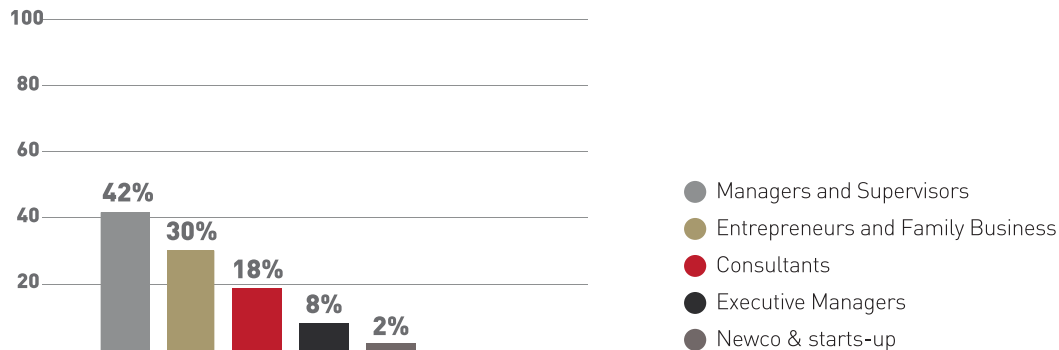

Working in collaboration with more than fifteen hundred leading international companies, including some of FORTUNE'S 100 Best Companies to Work For, the European School of Economics offers one of the most competitive university internship programmes available today. **Many students are offered jobs even before graduation.**

The Internship Department plays a crucial role in assisting students to identify their objectives and learn how to exert their full potential. It provides each student, in all the campuses worldwide, with individual and active support aimed at building up a strong professional profile with particular emphasis on internship experiences.

This table shows the diverse company sectors where our students have interned.

COLLABORATIONS

Georgian School of Management GEORGIA, TIBLISI

The Georgian School of Management was founded in 2014. The School collaborates with several of the world's leading educational centres.

One of its main partners is the European School of Economics, which operates in four countries: UK, USA, Italy, Spain and now also in Georgia. A student is allowed to remain in their homeland in order to obtain international recognition of the diplomas received in Georgia.

Additionally ESE collaborates with the world's leading universities and offers Georgian students an opportunity to receive an education abroad.

The dedicated staff of the school will strive to support those who wish to finance their education through educational private loans and/or various financial foundations.

ESE collaborates with the University of Chichester for the delivery of validated British degree programmes in all of its European Centers, and in New York as study abroad centre.

ASIC

European School of Economics' UK campus is accredited by Accreditation Service for International Schools, Colleges and Universities (ASIC) which is an independent body providing accreditation services for independent, further and higher education colleges. ASIC accreditation helps students and parents make a more informed choice and will also help a school, college, university, training provider or distance education provider, demonstrate to the international student body that they are a high quality institution.

University of Central Europe

ESE collaborates with the University of Central Europe for the delivery of validated European degree programmes in all of its European Centers, and in New York as study abroad centre.

GUEST SPEAKERS

Distinguished speakers are also frequent guests at ESE centers, invited to address students for guest lecturers, seminars, and academic ceremonies. Among the names of some of these visiting lecturers appear those of great economics and political experts.

Nobel Prize Laureate in Economic Sciences,
Prof. Sir James Mirrlees
Graduation Ceremony 2016, Florence.

Four-Time National Road Cycling Champion

Diana Bianchedi
Two-Time Fencing Olympic Gold Medalist

Roberto di Matteo
Former Soccer Player & Trainer

Marcos Cafu
Two-Time Soccer World Champion

TESTIMONIALS

WE HAVE COLLECTED SOME OF OUR STUDENTS TESTIMONIALS REGARDING THEIR INTERNSHIP AND THEIR LATTER WORK EXPERIENCE

Bartolomeo Sessa
BSc in Marketing
BMW – Sales Development

“Thanks to ESE’s internship department, as a first internship experience I worked for MV Agusta, as a multitasking member of this organisation.

MV Agusta is a **motorcycle-leading producer in the sport luxury sector.**

My duties mainly involved cooperating in the activities of the post sales department, including improvement of the dealer’s network efficiency, problem solving of dealer’s issues, and customer service. However, I have also participated at several quality councils in order to make evaluations on the ratio between; quality perceived by the customers and the real

value of the products. Part of the good work I carried out during these 3 months was due to the several skills I learnt in class at ESE, by giving me a general idea of the business environment.

This experience led me to live my dream of working in the automotive-motorcycle sector and it was an amazing first step for my career.

I have also been keeping in touch with the company and for the “EICMA motor show 2013” **I went back to work with them as customer care crewmember, and assistant of the sales department.** I hope every student will have the same opportunity! Good luck!”

Matteo Ceci
BSc in International Business
Music Industry – Label Founder

The years spent in ESE only mean beautiful memories and life experience to me... Those were the days! I really got the message of the ESE because at a certain point of my life I decided to make a big turn to follow my dream. It took a few years since I could see my rock songs getting involved in great projects and

the first achievements gave me the strength to continue in what I was doing.

The last movie I did, “La Corrispondenza” (2016) is the most important achievement because of the presence of Tornatore as director, Ennio Morricone (instrumental soundtrack) and Jeremy Irons, 3 Oscar prizes, 3 great artists. I have 200 songs and I keep on writing and recording.

Today I’m very happy of my decision, I keep on dreaming and trying to do my best in what I love.

I renew my choice every day and I thank the ESE for teaching me that nothing is impossible if we really believe in you dreams.
