Essentially TASTY

Tropical Jams

Traditional Jams

The jams line is 100% produced with organic sugar and 60% fresh or frozen fruits. There are more than 20 flavors, all produced with strict quality standard. We use green bananas biomass as a natural thickener, on average the content used in the formulation is 4%, except for brazilian grape tree, açaí, blackberry and red fruit jams, which have up to 8% biomass, due to the color of these fruits. Essência do Vale was the first company to use green banana biomass as a total natural thickener in the jams production process since 2005 in partnership with dear Mrs. Heloísa de Freitas Valle. The exclusive labels were painted in watercolors by the 73-year-old plastic artist Cibele Leonetti.

Gourmet Jams

Tasty and healthy, made with apples base and low sugar content. It goes perfectly with cheese or grilled and roast meat.

Flavors: Ginger, Pepper, Cachaça (Brazilian rum)

Green Bananas Products

Produced in small batches, with organic bananas grown on the farm where the plant is installed and by small local producers, without addition of colorings, flavorings and chemical preservatives.

Chutneys

Sweet and sour preserve, originally from India, it goes perfectly with grilled and roast meat. It is a healthy condiment, with no chemical additive added. They are enriched with Green Banana Biomass and Zero Sodium ... how about replacing the traditional ketchup for a delicious Chutney?

Flavors: Pineapple, Mangos, Apricot and Passion Fruit

Pestos Sauce

Huge sales success, handmade, with totally natural ingredients and different flavors:

- Basil with Brazilian nut
- Arugula with Dried Tomatoes
- Dried Tomatoes with Chestnuts (Brazilian nut and cashew)
- and the traditional Basil, which could not be left out...

Caponata

Antipasto produced with boiled and chopped green banana peels, olive oil and natural spices. It can be used in salads or as an accompaniment to meat.

Biomass

Functional and fiber-rich food made with green banana. It can be used to enrich everyday recipes and to replace thickeners, wheat flour and dairy products, without affecting the flavor of the recipes.

Antipasti and Preserves

Developed based on old and traditional recipes, elaborated only with natural seasonings and low salt content, enhancing the natural flavor of the products. Most spices are grown on the farm, where the factory is located.

Flavors: Alichella, Eggplant with garlic dip, Spring Eggplant, lack olive dip, Sweet and sour cucumber, Sardella, Dried Tomatoes and Trutella.

Cocoa Cream

With low energy, made with 25% of green banana biomass, coconut milk, cocoa butter and vanilla cachaça (Brazilian run). Cocoa butter gives the product a creamy texture and enhances the cocoa taste.

Flavors: Orange, Gojiberry, Brazilian nut and Semisweet.

Linha Pâtés

They have an average of 44 to 50% of green banana biomass and natural spices in their composition, with totally exclusive and healthy formulation that do not require refrigeration.

Flavors: Dried tomatoes, Funghi, Mustard and herbs, Brazilian nut Smoked trout and Smoked salmon
