# ESTIVO

YOUTH... A STATE OF MIND

Estivo is a Colombian swimwear and women's beachwear brand, born eleven years ago under the premise of going "beyond bodies", aiming until today to cross the purely physical appearance border, to focus on the human, expressing to the market its bet to show and value the woman the way it is. "you are beautiful just the way you are".

## OUR VALUES ARE:

### INCLUSION

One of our great purposes, is that each Estivo woman reflects its authenticity and naturalness through designs and silhouettes that make them feel comfortable and safe while allowing them to remain themselves in all their essence.

### SOPHISTICATION

We love you the way you are, authentic, natural, confident and empowered, enjoying being yourself in each scenario you could be.

### ECO FRIENDLY

Looking to reduce our Environmental impact, most Estivo garments are made with recycled PET bottle fabrics, collected by Colombian families, and then finished carefully through less pollutant processes, saving as much water as energy, and reducing CO2 emissions.

*You inspire us!*

Estivo wants its customers to dare and show off their styles and discover a Multi-segment brand, with diversity in silhouettes, colors and prints inspired by each life philosophy and in each body type. That's why, in addition to the women and girls collection presented in this catalog, you can also find men and boys items on its website: [www.myestivo.com](http://www.myestivo.com), thus complementing the product portfolio under the slogan "Youth ... a state of mind "and projecting itself as a global, cheerful, conscious, refined and natural brand.

*We love you just the way you are!*

# Amazon Midnight

Cautious and opportunist, In the Colombian Amazon rainforest, lives the beautiful amazon jaguar or butterfly tiger, considered the third largest feline species of the world.

This beautiful creature, present in our country, delights us with the intense colors of its fur, that contrast perfectly with the deep greens of the jungle.

Unfortunately, the vast area where the jaguar once lived, has been reduced to its half in the past hundred years due to deforestation and agricultural activities, reducing the population and even completely vanishing it in some other countries. Our invitation is to encourage as much its protection as its environment, supporting tree planting and participating in campaigns against deforestation. It is in our hands to save this beautiful specimen.

# Secret Garden

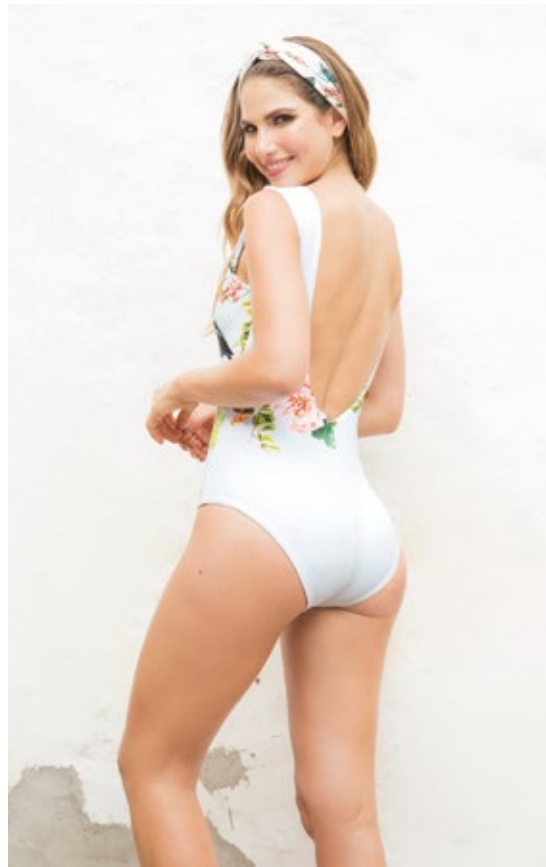

France, England and many countries from the old continent, are full of romantic secret gardens, with different kinds of flowers and birds, keeping these wonderful spaces full of life and color.

These gardens are places where the colors of the flowers make stunning contrast and highlight the spring blue sky, favorite season for the roses to bloom and decorate the place with its beautiful petals.

# Caravan — Girl —

We are inspired by a caravan trip in which our Estivo girl travels freely through wonderful landscapes, where the Paisleys or Kashmir type fabric present in the Print of this collection once originated. This drop-shaped design has its origin in ancient Babylon, where it represented the date palm bud or "tree of life" which provided food, drink, fibers for dressing and other basic necessities. Then continues its journey to Persia and India where the design became popular.

Marveled by its organic and repetitive forms, continues the quest to Scotland, where it was mass produced in its looms, that's where it took its name from in English, Paisleys, because of the town where it was Cherished the most after that, the journey takes place all around the world, where these fabrics and prints are used with innovation and creativity to surprise us every time. Their organic forms transmit us an air of sophistication and peace.

In our collection, we use these organic forms in different shades of blue, a color that transmits tranquility, confidence and sympathy, highlighted with ivory backgrounds that gives sobriety and elegance.

# Paradise Birds

Legend has it, that in the paradise of Cherry trees in Japan inhabits the crane. An elegant bird over a meter tall, owner of a beautiful white and black plumage that highlights her from its other feathered sisters.

Being an inspiration over hundreds of years for paint, Literature and poetry artists. This bird represents peace, happiness, good luck, protection for the family and protection for the weak. In Japanese culture it is associated with the loyalty and honor, as well as with strength.

According to a legend, this bird protects the weak with its large wings and transports people to the highest spiritual lands. Origami cranes are given in Japan to wish to a person health, happiness, welfare and prosperity.

# A Palm Tree Story

Palm trees, much more than beautiful trees adorning the beaches, have an amazing history full of meanings. In ancient times, palm trees appeared in Egyptian iconography, drawing attention for its height, slender trunk, its top with large leaves and resistance to high temperatures, therefore, it related to concepts of durability, rebirth and heaven, since it was considered that its top formed the celestial vault.

The palm was related to the god of sun, since the arrangement of its branches and the trunk height reminds us the rays of the star and the majesty of this god who was the axis of the cosmos.

More than trees, they are divine beings, formidable, which dance to the rhythm of the wind and the waves.
