## *Just About the Brand Roses and Offices Conception*

**The Chemical Cosmetics Industry is one of the most important Plastics uses, for cosmetics cream or liquid raw-material contents filling in. It is easy uses and, in most cases, cheaper, for sure. But once some of this Plastics can not be recycled or reused, its denying is necessary to change this route.**

*Roses and Offices Natural Cosmetics is a transient small size Brazilian company, that has born in order to introduce this new cosmetics major goal, for Plastics denying use, once the Cosmetics in Bar format does not use any Plastics for packing, being a good option for the Nature on it preventing, and also to us. We know some plastics packages can not be replaced, but it is important to keep in mind this reducing collective proposal.*

**By this way, Roses and Offices Natural Cosmetics, believes that it is our own responsibility to convert this last practices of cosmetics lines production, changing this route of nature devastation based on ambition and complexity needs, producing these high quality Products, with just simple packages, however, that does not lose in anything on beauty regarding to the chemicals.**

**Join us on this!!!**
