

# INTERNATIONAL FOOD COMPANY SAS

## Exportable offer

### Fruit pulp

They are obtained by the extraction and sieving of the edible fraction of fresh, healthy and mature fruits. We offer pulps of all the fruits that are grown in our country in frozen presentation with sugar or without sugar.

### Flavors

Mango, blackberry, passion fruit, guava, strawberry, lulo, pineapple, papaya, tamarillo, orange, lemon, tangerine, tamarind.

### IQF Chopped fruit

#### The IQF (Individual Quick Freezing):

This process guarantees that after thawing the product, it retains all the texture, nutritive value and the same flavor as the product just harvested.

### Frozen vegetables

100% natural yucca with no peel, which is brought to a process of chopping in thin chips and then is passed to a process of pre-frying and then freezing at a temperature of -18° C.

#### Yucca croquettes and French

100% Colombian criolla potatoes of the best selection.

They are characterized by fine skin and intense yellow flesh, soft, fluffy interior and pleasant taste. Less time or frying and / or cooking.

#### Criolla potatoes frozen

The patacon is Green banana, being a product 100% natural, free of foreign particles, precooked and subjected to a freezing process to guarantee the quality of the product.

#### Frozen patacon
