

EXTRA *AÇAÍ*

Flavor, Health and Energy

OUR HISTORY:

Founded in 2009 in the city of Apucarana, state of Paraná, ExtraAçaí entered the competitive market for the production of açaí mix with the desire to bring a 100% Brazilian product to everyone.

Our commitment is to prepare a tasty, refreshing food, respecting the opinions of consumers and without changing the natural characteristics of the fruit.

From the choice of pulp, preparation of artisanal syrup and packaging, we have created several and varied ways of selling in the retail and wholesale markets.

Today Extraçai has brand stores with a menu developed with the well-being of consumers in mind in the cities of Apucarana, Arapongas, Matinhos, Caiobá, Guaratuba, Curitiba and Praia de Leste.

We honor our origins and choose everything carefully to create a mix of Açaí with quality and creaminess.

MISSION:

Provide satisfaction and well-being to all people with quality products, adequate costs, and profitability.

VISION:

Have the Açaí Mix recognized in Brazil and worldwide for its quality and flavor.

VALUES:

Transparency, commitment, and constant search for excellence.

GETTING TO KNOW Açaí

The Organic Pulp of Açaí, is 100% natural, vegan, without transgenic materials and free of: gluten, dairy products, sugar, allergens, soy, trans fats, additives, preservatives. Source of fiber, protein, antioxidants, vitamins and minerals, omega 3-6-9. This is a complete fruit, justifying it being called Amazon's Black Gold.

Our Organic Açaí Pulp offers a handful of easy-to-make recipes, from savory to sweet, such as: Detox Smoothie, Açaí Bowls, Drinks, Cakes, Pasta and others.

PROTEINS

It assists in the formation of muscle mass which generates strength and definition of the body and guarantee a good functioning of the immune system.

LIPIDS

Responsible for transporting metabolic fuel, increasing immunity, and making the body work better, with more energy and disposition.

ANTHOCYANINS

Substance responsible for the purple color of the açaí fruit, with antioxidant properties that help fight free radicals, aids in the proper functioning of the heart and reduces bad cholesterol for the body.

FIBERS

It provides a good functioning of the digestive system and avoids many cardiovascular risk factors.

Omega 6

It favors the production of good cholesterol, combating hypertension and works to prevent osteoporosis.

CALCIUM

It works to prevent osteoporosis, improves dental health, and bones.

AMINO ACIDS

It collaborates with the reduction of muscle, helps in the quick definition of muscles, and promotes an aid in sports performance.
