Mani King brand launch.

2013

First export of Mani King brand products.

2016

First export of the private brand retail.

Start up of a Power Generation Plant based on peanut shell.

First container transport to the port by train.

SAP software incorporation: a software used for the organization of information and resource management of the entire company.

2017

2019

# PRIMARY PRODUCTION

We generate peanut from our own production. This is based on an associated work with a large number of farm producers under the supervision of an advisory team of **20** technical specialists in peanut crop.

We supply our producers with the seeds to guarantee quality. Seeds are manufactured and analyzed in our own company ensuring its germination power and its high oleic feature, becoming this way, more resistant to oxidative processes and giving as a result a longer life shelf peanut.

Air transport allows us a **100%** panoramic vision of the fields, leaving behind terrestrial controls which only showed representative samples. An aerial vision by helicopter helps to detect early any disease in crops or weed attacks.

---

We own a crop duster fleet **3** great benefits from it:

- **30%** less fuel usage.
- **70%** less air pollution.
- Avoiding soil compaction and crop damage.

# TEAM AND FACILITIES

Employees from town and the region are part of our team work. It is one of the main source of employment for the city and the area as well.

Hectares include the industrial plant.

Square meters covered.

Raw Peanut Plants.

Blanched Peanut Plant.

1

1 Final Product Plant.

1 Warehouse for Storage of Supplies.

6 Cold Warehouses for Final Product.

6 Storage Cells for Raw Material.

1 Workshop for Maintenance.

1 Microbiology Lab.

2 Gas/Chromatography Labs.

1 Power Generation Plant based on peanut Shell.

We count on more than **30** trucks fleet to move our products complying with all market demands, both domestic and international as well.

We have been transporting our products by train since **2019** loading an average of **60** containers of **25** tons each per week.

In our Industrial plants:

■ 2011

We obtained certification for

■ 2013

We are members of **Sedex**<sup>®</sup>  
SEDEX, complying with SMETA  
as well. (ETI Base Code).

■ 2018

We have obtained

(Registration N°: 14000-905)

■ We own certified products:

In our Agricultural tasks:

■ We implemented Good Agricultural Practices (GAP) regulations.

# A SUSTAINABLE COMPANY

- A Plant for electric power generation based on peanut-shelled biomass has been working since **2017**.
- In **2019** we achieved the certification of the ISO 140001 standard (Registration N°: 14000-1020) that allows us to implement a management environmental system which enables measurement and improvement our environmental performance.
- It produces **10** megawatts per hour. This means that it can supply approximately **18.000** homes a year.
- **240** tons of peanut shell are needed to make it work.
- It Works **24** hours a day, **330** days a year. The energy obtained from the transformation of biomass is incorporated into the National Interconnected Energy System.

# OUR PRODUCTS

We reach our clients by **2** distribution ways: bulk production and mass consumption.

IN BULK: We offer a wide variety of products:

RAW PEANUT

BLANCHED  
PEANUT

ROASTED PEANUT  
IN-SHELL

ROASTED  
PEANUT

FRIED  
PEANUT

SUGAR COATED  
PEANUT

CHOCOLATE  
COATED PEANUT

PEANUT OIL

CRUNCHY  
FLAVORED  
PEANUT

ROASTED  
CHOPPED  
PEANUT

PEANUT  
PASTE

We export to more than **40** countries, including: Holland, Poland, China, Algeria, Chile, Colombia, Russia, Australia, South Africa, Philipines and UK.

## MASS CONSUMPTION:

Mani King brand products:

SALTED PEANUT  
WITHOUT SKIN

SALTED PEANUT  
WITH SKIN

UNSALTED ROASTED  
PEANUT

ROASTED PEANUT  
IN-SHELL

SUGAR COATED  
PEANUT

CHOCOLATE COATED  
PEANUT

HEALTHY SNACKS

CRUNCHY FLAVORED PEANUT

PEANUT PASTE AND BUTTER

## PRODEMAN, line of legumes:

CHICKPEAS

LENTILS

WHITE HOMINY  
CORN

POP CORN

ALUBIA BEANS

OTHER BRANDS: We can pack products for a generic brand and label them in any language:

- According to the specifications required by the client.
- In addition, we develop products based on the customer's needs and requests.
