

Mestre  
dos  
mares

## Mestre dos Mares Fish

Mestre dos Mares is a 100% Brazilian export-oriented company specialised in premium quality fish. The company operates in all the stages of the production chain, through direct partnerships with suppliers, quality control standards, internal logistics, advanced industrial processes and export procedures.

## Products

We work with a great range of products, which undergo high quality control and reach the most important international markets.

All our products come from ships that are registered and monitored by the national fishing department.

All products are registered by capture certificates, which guarantees a 100% legal and sustainable fishing origin.

Through our total traceability program, we track fishes from our exclusive fleet of fishing boats to their final industrial process.

Amazonian Fish

## Mestre dos Mares and Sustainable Amazonian Fishes

With this partnership we are able to guarantee the supply of Tambaqui and Pirarucu fish.

Our new Fishing Technology Industrial Unit - expertise in providing services, developing customized solutions and an innovative product line.

## "ATM Product"

In partnership with the multinational company Air Liquide.

We are meeting the growing demand for fresh and naturally conserved products, without chemical additions or freezing, but still increasing the expiration period over various days, whilst maintaining flavour, texture, and appearance, increasing production and distribution efficiency, and reducing costs.

## "Breaded Line"

Fully automated line

Some of our products:

- Shrimp
- Squid rings
- Fish fillet
- Tambaqui ribs

## "Sous Vide"

### Product Mix

Fish and seafood with varied sauces, ready to serve, with fresh product quality.

No conservatives added, preserving organoleptic characteristics and nutritional juices.

Scaled production, portioning and innovative potential.
