Coal production business

Who we are

Valesteel is a company that operates with international negotiation, with Brazilian license for import and export of products. Some coal customers: Sidermim Siderúrgica, Gerdau Siderúrgica and large supermarket chains.

History of the coal business

The manufacture Carvão do Didi was founded in 1978 by Mr. Oladir Martins Godoy, better known as didi do Carvão, and is considered one of the pioneer companies in the commercialization of charcoal in the Minas Gerais Steel Valley region of Brazil.

In the year of its foundation, Mr Didi sellers with the steel mills in the region with the sale of coal in bulk. Over time, he began to see an opportunity to sell coal for domestic use, the famous and traditional bbq charcoal. A new business was born, now in addition to sell to the steel mills, sells had also bagged coal and with this scenario the product became popular gaining prominence in the market.

Sustainability

The company COAL works within the standards required by the competent environmental agencies in Brazil (IBAMA, IEF, SEMAD) and develops several actions in the environmental area. These actions seek to optimize and improve the quality of each package marketed, with the supervision of raw materials, from monitoring during the production and transportation process to the distribution site.
