INTERNATIONAL TRADE

# Freitas International Business Consulting and Advisory,

also known as Freitas International Trade is a business management and international logistics advisory company, dedicated consultant for planning, shipment coordination, national and international supplier development, structuring and outsourcing of the Import and export through teams with knowledge in various areas such as projects, international logistics, customs tariff and tax.

Our goal is the pursuit of increased productivity, agility, safety and the lowest operating cost. Thus, Freitas International Trade operates in the development and coordination of imports and exports, while the customer keeps devoting all his attention to the main activity of his company.

Founded by experienced professionals in the field of foreign trade, we guide and advise micro, small and medium enterprises to increase their competitiveness through imports and exports.

We operate in Brazil and have partners abroad, in the most different segments of the products and services markets, ensuring the continuous growth of your company, with quality and profitability.

We advise Brazilian companies that wish to expand their business through the internationalization of their companies, in the planning, structuring and execution of actions in import and export processes.

We operate seamlessly in consulting, management, market intelligence and competitor analysis to increase our customers' competitiveness.

## **Advisory and Consulting in International Trade**

- Consulting and advising in the area of foreign trade and international logistics.

## **Outsourcing**

- Management of the entire logistics chain, international trade activities and procedures, so that allows our customers focus on the most important functions of their business. In periods of rapid growth, the back-end operations of a business expand and require a high expenditure of resources.

## **Internationalization of Companies**

- Planning and preparation for expansion to the international market.

## **Shipment Management and Coordination**

- Management and monitoring of shipments to the final destination.

## **Market Management**

- Prospecting foreign clients for Brazilian exporters and prospecting domestically for foreign exporters.
- Identification and qualification of suppliers and partners.
- Development of international suppliers and monitoring of the international supply chain.
- Development and monitoring of product delivery logistics to the customer.

**We  
collaborate  
to get  
your business  
across  
borders.**

We operate seamlessly  
in consulting,  
management, market  
intelligence and  
competitor analysis to  
increase our customers'  
competitiveness.
