You're the Artist

There are hands of an artist which create something unimaginable.

When the hands of the artist do for people's sake, it could be more valuable.

You are the artist, not only dentist when you take care of people.

SPIDENT will be your partner with passion.

I feel that there is nothing more truly artistic than to love people.

- Vincent van Gogh

About SPIDENT CO., LTD.

SPIDENT CO., LTD. was founded in 1997 as manufacturers of the finest quality Gutta Percha Points and Absorbent Paper Points sold around the world.

In Nov. of 2004, the establishment of the research institute for dental chemicals launched its full operation of manufacturing and marketing its dental material lines certified by the CE (MDD), FDA, JPAL, and the ISO.

SPIDENT CO., LTD. independently operates all the processes of R&D,

Quality Control, Product Design & Marketing, and the finest Customer Service, all aimed at your 100% satisfaction guaranteed.

A Statement from the CEO

Hello,

I am Jemo Ahn, the President of SPIDENT CO., LTD. and I would like to share with you the vision and goals of our company. Our highest aim is to provide you with the best products and services with the best products and services to make your daily practice as pleasurable and effortless as possible.

Our team members are competent, qualified, and always open to your inputs as we consider communication and teamwork to be the underlying foundation for success. And as such, we have been steadily achieving higher customer satisfaction through centering our research, production, and marketing processes around your needs.

SPIDENT CO., LTD. continually builds on its history to expand its presence in the global dental industry. Our focus will always remain the close attention to the human factor in making the highest quality oral health available to all.

We will always strive to become your partner in creating one perfect smile after another.

Thank you for your continued support,

JEMO AHN, CEO

Needles

NOP® Needles

- Ultra-sharp, tri-bevel lancet offers smooth entry into tissue, enhancing patient comfort
- Silicone coating significantly reduces pain and tissue damage
- Triangle bevel indicator for needle tip orientation
- EO Sterilized

Box of 100 needles

Specify :

- #6127SH 27G/Short (0.4x21mm) (blue)
- #6127LG 27G/Long (0.4x30mm) (navy)
- #6127GL 27G/Long (0.4x35mm) (brown)

CEMENTS & LINERS

Cavity Liner & Base

Base • it®

Light-cured base/liner containing calcium hydroxyapatite in urethane methacrylate oligomer

- Simulates secondary dentin formation with excellent cariostatic properties
- Superior strength compared to GI based products
- Low polymerization shrinkage

#115200 Standard pkg

Contains : 4 x 2g syringe, 8 dispensing tips
2 x 2g syringe, 8 dispensing tips

Bent Dispensing Tips

Pkg of 5,000 or 10,000

#911120 20 ga. (black)

Contains : 20 ga. dispensing tips

Temporary Filling

Temp • it®

Light-cured, single-component, provisional filling material for temporary restorations

- Use for all types of protective temporary fillings for inlay and onlay techniques
- Cures to a highly elastic state making it suitable for deep inlay preparations with parallel walls
- Suitable for sealing of implant screw access canals
- Can be easily removed in one piece

Standard pkg

Contains : 3 x 3g syringe

Specify :

#1141YL yellow (natural)

#1141BL blue

Temp • it Flow®

Light-cured, flowable temporary filling material

- For temporary restorations of class I cavities (inlay)

Standard pkg

Contains : 4 x 1.2ml syringe, 6 tips

Specify :

#1142YL yellow (natural)

#1142BL blue

Bent Dispensing Tips

Pkg of 5,000 or 10,000

#911118 18 ga. (black)

Contains : 20 ga. dispensing tips

Temporary Cements

EsTemp® Implant Cement

Non-eugenol radiopaque resin cement in an automix syringe.

- Semi-permanent / Dual-Cure
- Designed for long term temporaries and high-strength restorations on implant abutments
- Can be removed easily when needed

#112100 Standard pkg

Contains : 1 x 8g syringe & 12 mixing tips, 1 Eco tip

Mixing Tips

Pkg of 50

#112200 Automix cement tips (brown)

EsTemp® NE

Zinc oxide/non-eugenol temporary cement

- Ideal for cementing of temporary crowns and bridges
- Easy to mix, manipulate and remove
- Will not interfere with later permanent cementation

#111200 Standard pkg

Contains : 2 x 10g syringe & 2 Eco tips

Mixing Tips

Pkg of 50

#112200 Automix cement tips (brown)

EsTemp® Eugenol

Zinc oxide /eugenol formula self-curing temporary cement

- Indicated for temporary crowns
- Flows easily, allowing complete seating of the restoration

#111100 Standard pkg

Contains : 2 x 10g syringe & 2 Eco tips

Mixing Tips

Pkg of 50

#112200 Automix cement tips (brown)

Desensitizers

DeSen®

Desen is a non-glutaraldehyde desensitizing agent

- Seals dentinal tubules, preventing the fluid-shifting recognized as the primary cause of localized hypersensitivity
- Excellent hydrophilicity and biocompatible

#116100 5ml bottle

CORE MATERIALS

Core Bulid-Up

Core · it® Dual

Radiopaque, dual-cured composite core build-up material.

- Medium viscosity allows maximum control and stackability for easy application
- Sets hard, cuts and carves like dentin
- High bonding strength to dentin, enamel, and posts
- For use with dual-cure compatible bonding systems

Syringe Type

Syringe pkg

Contains : 2 x 10g syringe, 2 Eco tips, 12 Core Mixing tips, 12 Intraoral tips, Mixing pad

Specify :

- #2111YL Yellow (natural)
- #2111BL Blue
- #2111WH White

Mixing Tips

Pkg of 50

- #212100 Automix core tips (brown)

Contains : 50 Mixing tips & 50 Intraoral tips

Syringe Dispensing Gun

Dispensing Gun

- #212200 Dispensing Gun - DS 24
- Ratio : 1:1

Cartridge Type

Cartridge pkg

Contains : 1 x 50g Cartridge

Specify :

- #2112YL Yellow (natural)
- #2112BL Blue

Mixing Tips

- #7311YL Small mixing tips, pkg of 50

Mixing tips have yellow hub

- #7312IN Intraoral tips, pkg of 50

Yellow tips fit into small (4.2mm) mixing tips

System Kit

#211300 Core · it System Kit

Contains : 2 x 10g Syringe (yellow), 2 Eco Tips, 12 Core Mixing Tips, 12 Intraoral Tips, EsBond 5ml Bottle x1, Activator 5ml Bottle x1, Dispensing Dish, 1 Application Tool, 34 Micro Brush Tips, FineEtch 5ml Syringe x1, 4 Etchant Tips

EsBond Refill

- #313100 EsBond Refill

Activator Refill

- #313100 Activator Refill

COSMETIC DENTISTRY FILLING MATERIALS

Tooth Whitening Accessories

FineDam™

FineDam is a passively adhesive (sealing) methacrylate-based resin barrier used for isolating tissue adjacent to teeth being whitened.

- For single-tooth bleaching, FineDam may be used to protect adjacent teeth
- FineDam reflects light to minimize heat and tissue sensitivity during curing
- FineDam ensures a safe, unmistakable barrier every time

#315100 Standard pkg

Contains : 4 x 1.2ml syringe, 8 tips

Bent Dispensing Tips

Pkg of 5,000 or 10,000

#911118 18 ga. (black)

Contains : 18 ga. dispensing tips

Block-Out Resin™

Block-Out Resin is a viscous, light-cured, methacrylate-based, syringe delivered blue pigmented utility resin. It is designed for laboratory use such as for bleaching reservoirs on plaster models, for lab procedures requiring spacing or undercut block out, and to repair small fractures or voids in laboratory models.

#316100 Standard pkg

Contains : 4 x 2 g syringe, 8 tips

Bent Dispensing Tips

Pkg of 5,000 or 10,000

#911118 18 ga. (black)

Contains : 18 ga. dispensing tips

Etching Products

FineEtch®

37% phosphoric acid with a semi-gel consistency for controlled contact.

- Effectively removes smear layers
- Creates the ideal bonding surfaces on dentin, enamel, and dental posts

#314100 Standard pkg

Contains : 3 x 5ml Syringe, 8 Etchant Tips

Bent Dispensing Tips

Pkg of 5,000 or 10,000

#911125BL 25 ga. (blue)

Contains : 25 ga. dispensing tips

Bonding Systems

EsBond®

5th generation, light-cured, single-bottle application bonding system.

- High bonding strength compatible with all classes of direct composite restoration to dentin and enamel, as well as treated porcelain and set amalgam

#313200 EsBond Kit

Contains : EsBond 5ml Bottle, Dispensing Dish, 1 Applicator, 30 Micro Brush Tips

#313100 EsBond Refill

Contains : EsBond 5ml Bottle

EsBond® Activator

EsBond Activator activates the dual-curing mechanism of EsBond bonding systems. When mixed with EsBond they become dual-cure, and adhere securely with dual-cure restoration materials.

#313300 EsBond Activator Refill

Contains : EsBond Activator 5ml Bottle

Flowable Composites

EsFlow®

Highly aesthetic, nanohybrid flowable composite. Medium viscosity allows gentle flow for easy handling and precision application.

- Contains high molecular weighted urethane methacrylate monomer for superior compressive strength
- Light-cured to a hardness equivalent to natural enamel
- Highly radiopaque

Syringe pkg

Contains : 2 x 2g Syringe, 8 Dispensing Tips

Specify :

#3121A1	(A1)	#3121B1	(B1)
#3121A2	(A2)	#3121B2	(B2)
#3121A3	(A3)	#3121BL	(Blue)
#3121A35	(A3.5)		

Bent Dispensing Tips

Pkg of 5,000 or 10,000

#911120 20 ga. (black)

Contains : 20 ga. dispensing tips

EsFlow® LV (Low Viscosity)

Low Viscosity Light Cure Flowable Composite Resin.

- Lower viscosity compared to EsFlow
- Suitable for multiple applications such as base-liner and sealant

Syringe pkg

Contains : 2 x 2g Syringe, 8 Dispensing Tips

Specify

#3121LA1	(A1)
#3121LA2	(A2)
#3121LA3	(A3)

Bent Dispensing Tips

Pkg of 5,000 or 10,000

#911120 20 ga. (black)

Contains : 20 ga. dispensing tips

COSMETIC DENTISTRY / FILLING MATERIALS

Universal Composites

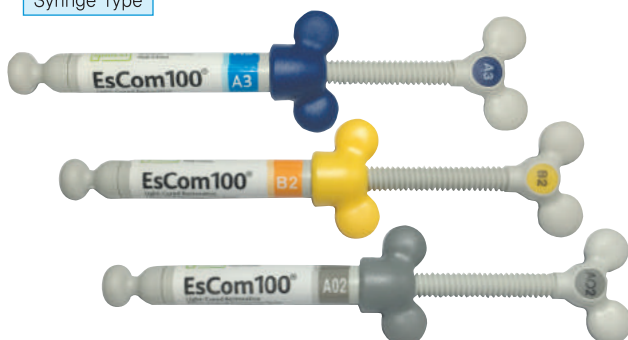

EsCom100®

Universal composite resin designed for posterior and anterior restorations.

- Easy polishability
- Exceptional wear resistance,
- Low polymerization shrinkage
- Superior compressive strength
- Radiopaque

Syringe Type

Syringe pkg
Contains : 1 x 4g Syringe

Dental Composite Carpule Applicator

EsCom100[®]

CE
0120

Light-Cured Restorative Composite Resin

Escom100 is a light-cured restorative Nano-Hybrid composite resin for posterior and anterior restorations.

Advantages

- High compressive strength and polishability
- Low polymerization shrinkage
- Easy to handle, non-sticky, excellent ability to hold shape
- Radiopaque
- Extend working time (90 seconds)
- Long-term durability
- Excellent matching with natural tooth (11 shades) :
A1, A2, A3, A3.5, A4, B1, B2, C2, A02, A03, TW

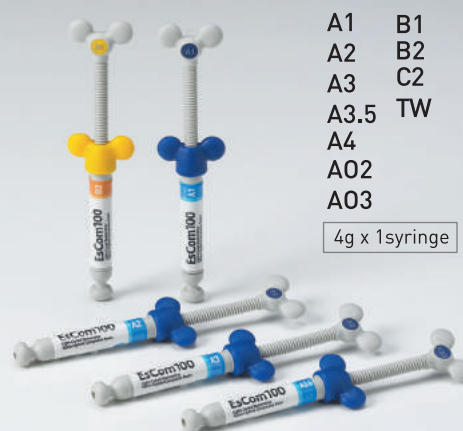

Contents

EsCom100 System Kit

Gutta percha Points

Spident Gutta Percha Points™

- Hand-rolled to the highest standards
- Color-coded tips for easy identification of ISO(.02) specifications
- Made with 90% premium quality natural gutta percha
- Inspected four times to guarantee flawless consistency in size, taper and uniformity
- Cadmium-free, radiopaque
- Gamma irradiation sterilized

Standardized ISO sizes
120 x .02 points in a spill-proof slide box

Canal Prep Solutions

SoftPrep™

- 17% aqueous EDTA solution.
- Provides rapid cleansing and enlarging of canals
- Chelating agent assists in instrumentation of root canal lubricates to minimize binding and breaking of files

- #441100 Standard pkg
Contains : 2 x 6g syringe, 6tips
4 x 1.5g syringe, 6tips

Bent Dispensing Tips
Pkg of 5,000 or 10,000

- #911118WH 18 ga. (white)
Contains : 18 ga. dispensing tips

PREVENTIVES

Pit & Fissure Sealants

Seal • it™

- Light-cured sealant designed for enamel pits and fissures.
- Effectively restores occlusal cavities
- Low polymerization shrinkage
- High abrasion resistance

- #1311100 Standard pkg
Contains : 2 x 1.2ml Syringe, 8 Dispensing Tips

Bent Dispensing Tips
Pkg of 5,000 or 10,000

- #911125 25 ga. (black)
Contains : 25 ga. dispensing tips

Temporary Root Canal Filling Materials

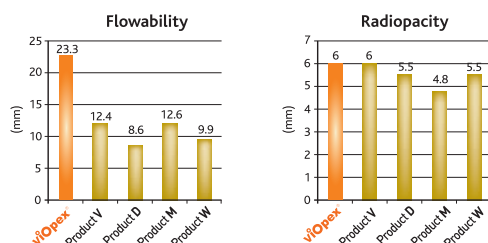

viOpex®

NEW

Premixed Calcium Hydroxide Paste with Iodoform

- Excellent antibacterial effect
- Superior radiopacity
- Biocompatibility
- High flowability
- Easy to handle (syringe type)
- Designed tips allow no blocking

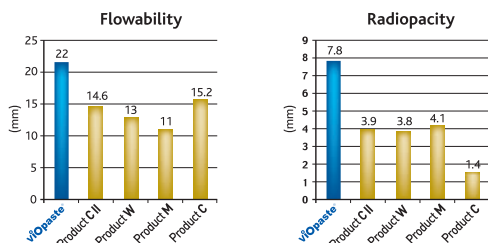

viOpaste®

NEW

Premixed Calcium Hydroxide Paste with Barium Sulfate

- Easy to remove with good water solubility
- Excellent antibacterial effect
- Superior radiopacity
- Strong bactericidal effect
- High flowability
- Excellent biocompatibility
- Easy to handle (syringe paste type)

Temporary Root Canal Filling

Viopex®

A Temporary root canal filling material with excellent radiopacity. Viopex is an antibacterial, premixed paste composed of Calcium Hydroxide with Iodoform.

#441110 Standard pkg

Contains : 1 X 2.2g syringe, Disposable Tip 20ea
Holder 1ea, Endo Stop 2ea

Viopaste®

Viopaste is a water-soluble temporary root canal filling material composed of Calcium Hydroxide with Barium Sulfate. This antibacterial, premixed paste offers excellent radiopacity. It is easy to clean and remove.

#441120 Standard pkg

Contains : 1 X 2g syringe, Disposable Tip 20ea
Holder 1ea, Endo Stop 2ea

Root Canal Sealer

Vioseal®

Vioseal is an epoxy resin based root canal sealer which is a paste-paste type of dual syringe. It has outstanding chemical and physical properties, including extremely excellent sealing property and biocompatibility.

#441130 Standard pkg

Contains : 1 X 10g Dual Syringe, Mixing Tip 2ea,
Mixing Joint 5ea, Mixing Pad 1ea

viOseal[®]

Resin Based Sealer / Root Canal Sealing Material

Sealing accomplished

Applications

- Permanent obturation of root canals in combination with obturation points

Compositions

- Base
 - Epoxy oligomer resin
 - Ethylene glycol salicylate
 - Others
- Catalyst
 - Poly(1,4-butanediol) bis(4-aminobenzoate)
 - Calcium phosphate
 - Others

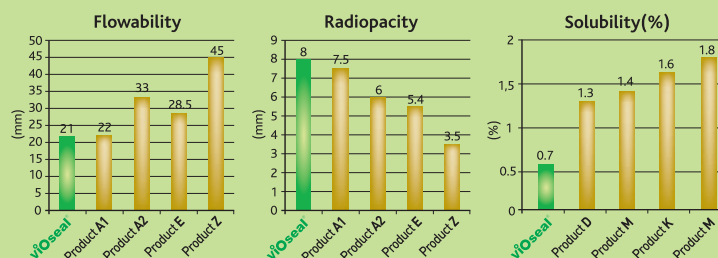

Characteristics

- Excellent biocompatibility
- Superior radiopacity
- Tight sealing
- Easy to mix paste-paste(1:1)
- Insoluble in tissue fluids
- Excellent antibacterial effect
- Lubricant during inserting of GP point

Components

- 10 g Dual syringe x 1(Base 5 g, Catalyst 5 g)
- Mixing tip
- Mixing pad
- Eco tip

Physical Properties

- Working time : 70 min (23°C, 55%)
- Setting time : 120 min (37°C, 98%)
- Film thickness : 10 μ m

IMPRESSION PRODUCTS

Vinyl Polysiloxane

I-SiL™ Premium Regular Set

I-SiL Premium is a VPS material.

- Superior hydrophilicity to minimize voids and bubbles
- Improved handling during work time to minimize pulls and drags
- High tear strength to maintain impression integrity upon removal
- Resistant to permanent deformation.
- Snap-set technology

1' 30" working time
4' 00" setting time

2 x 50ml Cartridge

Specify :

- #7111RG Light body (pink)
- #7112RG Regular Body (light blue)
- #7113RG Heavy body (blue)

Mixing Tips

- # 7181YL Small mixing tips, pkg of 50
Mixing tips have yellow hub
- # 7181GR Large mixing tips, pkg of 50
Mixing tips have green hub
- # 7181IN Intraoral tips, pkg of 50
Yellow tips fits into small (4.2mm) mixing tips

I-SiL™ Premium Fast Set

Faster setting VPS impression materials with the same advantages of I-SiL Premium.

- Designed to increase efficiency by significantly reduced chair time

0' 40" working time
2' 00" setting time

2 x 50ml Cartridge

Specify :

- #7211FS Light body (yellow)
- #7213FS Heavy body (purple)

Mixing Tips

- # 7181YL Small mixing tips, pkg of 50
Mixing tips have yellow hub
- # 7181GR Large mixing tips, pkg of 50
Mixing tips have green hub
- # 7181IN Intraoral tips, pkg of 50
Yellow tips fits into small (4.2mm) mixing tips

Dispensing Gun

- # 493100 Dispensing Gun DS 50
Ratio : 1 :1

Impression Products

I-SiL™ Premium Jumbo

7191VM Vacu-mixer mixing tip, pkg of 50

Vacu-Mixer®

by Dr. Philip Ho
Vacu-Mixer®

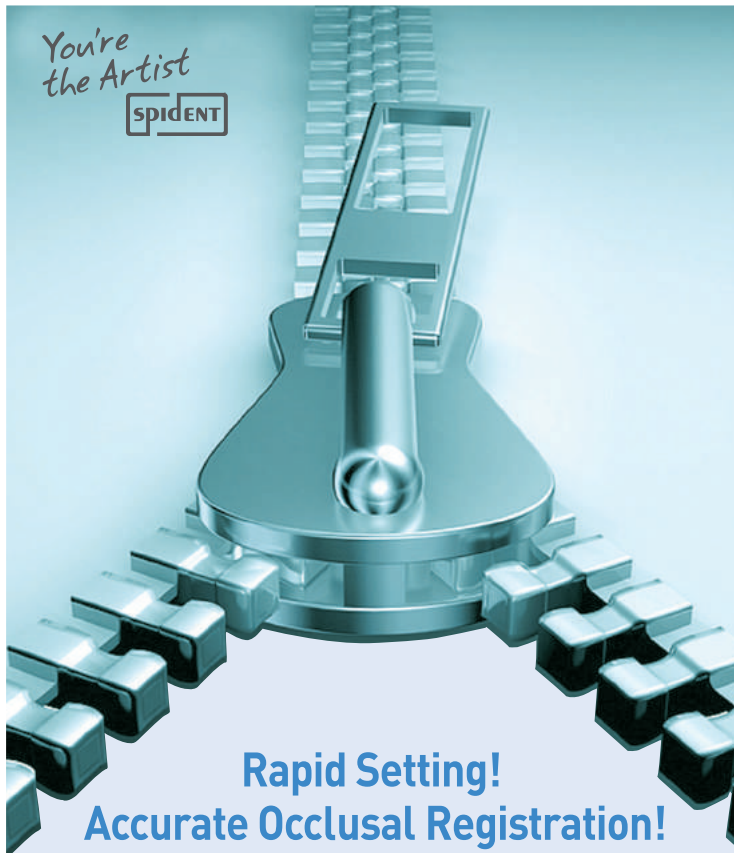

NEW

Vacu-Mixer is world's first portable impression auto-mixer. With a touch of the button, it brings you flawless auto mixing without voids. Fully automatic, it can reduce the chair time. Cordless, it can be moved from chair to chair with ease.

Specify :

#611100 Vacu-Mixer

**Rapid Setting!
Accurate Occlusal Registration!**

I-SiL BITE

Vinyl Polysiloxane Bite Registration Material

- Superior Final Hardness(shore A85)
- Rapid Setting
(Working Time : 30 sec / Intraoral Setting Time 60 sec)
- Ideal Viscosity for Precise Placement
- Easy to Cut and Trim

Technical Data

Mixing Time	Working Time	Intraoral Setting Time	Total Setting Time	Final Hardness	Linear Dimensional Change (ISO4823)
Automatic	≤ 0:30 min	≤ 60 sec	≤ 90 sec	A85	0.1%

Bite Registration

I-SiL™ Premium Bite-Registration

Used for bite-registration, copying transfers, and primary impression with bite-trays.

- Mousse-like, fluffy, superfast-setting VPS material
- Violet thixotropic material has an excellent shore A hardness of 85 and flows easily, yet will not sag or run
- Achieves a rock hard rigid set while maintaining resistance to fracture

0' 20" working time
0' 60" setting time

2 x 50ml Cartridge

#7241BR Bite-Registration

Mixing Tips

#7181GR Large mixing tips, pkg of 50
Mixing tips have green hub

I-SiL™ Premium Putty

- Softer consistency blends quickly and easily
- Excellent detail reproduction
- High tear strength
- Ideal for the putty/wash technique
- Suitable for patients with periodontal issues
- Resists pressure : pushes light body material into sulcus

Regular set

1' 40" working time
4' 00" setting time

Fast set

0' 40" working time
2' 00" setting time

Contains : 290ml base, 290ml catalyst, 2 scoops

Specify :

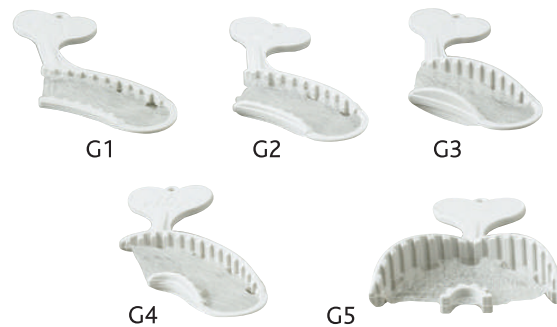

#7121RG Regular set (purple)

#7221FS Fast set (blue)

Bite Trays

Bitetray™

- Disposable impression trays for crown, bridge & bite registration
- Thin occlusal webbing provides superb accuracy
- Metal stamped Bitetrays add rigidity to the frame eliminating distortion

Box of 50 trays
(35 trays for Quadrant, Anterior and Fullarch)

Specify :

#7311GG G-1 sideless

#7322GG G-2 half side

#7333GG G-3 full side

#7344GG G-4 quadrant

#7355PGG G-5 anterior

Bitetray™ Metal Frame

Box of 35 trays
(35 trays for Quadrant)

Specify :

#7322MG MG-2 metal-stamped half sid

#7344MG MG-4 metal-stamped quadrant

#7377MG MG-7 metal-stamped full side

SMALL EQUIPMENTS

Apex Locator

Viometer®

The Viometer is an electronic device used for apex localization and working-length determination during root canal treatment.

It is indicated for patients who need to undergo root canal treatment which requires precise determination of position of the dental file in the canal relative to the root apex.

- Compact size
- Rechargeable battery
- Color OLED screen
- Works with smart device(option)
- W.L.S. function (Working Length Select) function

#518100 Viometer
Contains : Wireless Apex locator,
File hook, 3 Lip hook, Probe cord

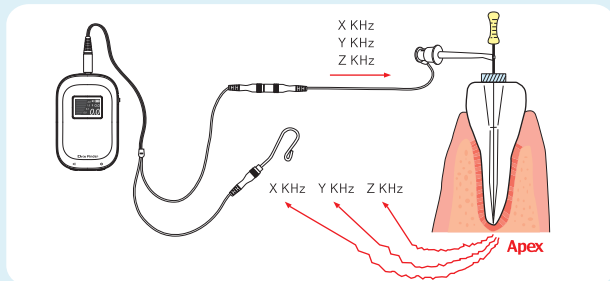

> Wireless bluetooth function(Optional)

Wireless bluetooth connect function with smart phone or smart pad show bigger display.
(Support android device only)

> Accuracy

- Makes best accuracy with using 3 frequencies for exact accuracy.
- Using latest signal IC makes improved accuracy and measuring quality.

LED Curing Lights

FOCUS PLUS™

Ultra-light(130g), Cordless, Sleek, OLED screen, Handpiece LED curing light that features a digital display and 1-touch functionality.
Consistent output of 1,800mW/cm² (high-mode)
4modes to choose from including soft-start mode to reduce polymerization shrinkage.
Made in Korea. 1-year warranty.

#511400 Focus Plus
Contains : Cordless curing light,
charging dock, 3 focusing lens caps, rechargeable battery, adapter and power cord

RETRACTION MATERIALS

Retraction Cords

Atria Pack™ Knitted Retraction Cord

100% cotton, knitted gingival retraction cord.
Contains numerous interlocking points within the cord.
After soaking in hemostatic solution, the cord carries greater quantities of liquid, compared to twisted or braided cord.

100 inches per bottle

Specify :

- #1411110 #000
- #1411120 #00
- #1411130 #0
- #1411141 #1
- #1411152 #2
- #1411163 #3

Atria Pack™ Knitted Retraction Cord with Aluminum Sulfate

100% cotton, impregnated, knitted gingival retraction cord.
Knitted cord helps carry more hemostatic agent to the tooth preparation and stays in place, even when touched by a bur or diamond. Conforms to secular anatomy with a gentle outward force. Places easily-no fraying or memory.

100 inches per bottle

Specify :

- #1412210 #000
- #1412220 #00
- #1412230 #0
- #1412241 #1
- #1412252 #2
- #1412263 #3

TIPS

Impression Mixing Tips

For use with vinyl polysiloxane impression material cartridges.
Homogeneous mixing results with reduced waste.
Universal fit.

#7181YL Yellow mixing tips, pkg of 50
