GUCHEN THERMO TR-450 REFRIGERATION UNIT FOR 16-22M³ TRUCK BOX

Best Selling Truck Reefer / Refrigeration Unit - [Guchen Thermo TR-450 Unit for 16-22m³ Truck Box](#)

Guchen Thermo TR-450 Reefer units are designed to meet the refrigeration needs of light truck and ute operators in the world. The TR series offers multiple options to suit your every need comprising two piece units designed for FRESH, FROZEN and DEEP FROZEN applications with the off engine drive compressor or electric stand-by operations 240 volt. Designed for performance, Guchen Thermo TR-450 Units can be run off the vehicle engine and can be integrated with existing air conditioning.

Why Choose Guchen Thermo TR-450 Truck Refrigeration Unit:

- ◆ TRUCK REFRIGERATION BELTS: These main drive belts for [truck refrigeration units](#) are especially designed for long life on mule drives and backside idler drives.
- ◆ Guchen Thermo has an unmatched, extensive knowledge and experience of the transport refrigeration industry that has been relied upon for 20 years.
- ◆ Evaporator: This is the part of the refrigeration system that is doing the actual cooling.
- ◆ Transport refrigeration is one of the most challenging refrigeration applications, and therefore transport refrigeration systems require components capable of addressing a range of critical parameters, such as: truck & van refrigeration products. With over 20 years of providing quality HVAC systems to all the major manufacturers of recreational vehicles, only Guchen Thermo has the innovation, expertise and strict quality control to produce the best [transport refrigeration systems](#) on the market.
