

Digital Product Specialists.

We craft stunning mobile-first products through on point strategy and unrivaled technical expertise.

Trusted technical allies for bold companies.

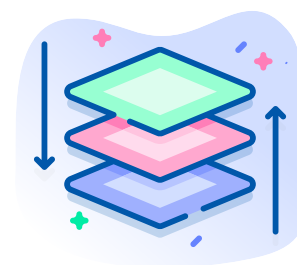

With offices in Los Angeles and Montevideo, Uruguay, Hattrick brings a world-class team of experts to tackle your company's digital needs from product design to development.

WHAT WE DO

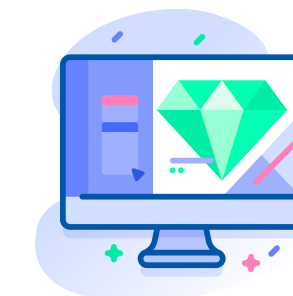

Hattrick designs and builds digital products for forward-looking companies by leveraging advanced technologies and frameworks.

Whether you're looking to build a product from scratch or need help from a team of experts, we're here for you.

Product Ideation & Strategy

We carefully analyze your business model and ask strategic questions to help you shape your idea into the right product for your market.

UX/UI Design

By thoroughly exploring your end users' journeys we create the perfect user experience for your product that's optimized for growth.

Mobile & Web Development

We build and maintain superb mobile and web apps that engage users and meet business needs.

Wearables & IoT

From wearables to IoT devices, whatever the platform you want to build for, we can help.

**We help companies scale
by building world-class
digital products through
unrivaed technical
expertise and impeccable
strategic execution.**

HOW WE WORK

Our Process

We've developed a process that streamlines the entire undertaking by prioritizing what will have the most impact. This process scales and adapts to each projects unique needs.

03.
Development

After you've approved the Product Roadmap and estimation of time and cost for what'll be required to build your product, we're ready to kick-off development. Everything gets broken down into sprints where we plan to attack whatever items have the highest priority at any given time.

01.
Discovery

Together we explore the key concept of your product and define the outline of what we'll build. This is all about big picture thinking, understanding the user, wireframing and rapid-prototyping.

04.
Launch

We believe shipping sooner and more often is usually the best approach. That way you're able to validate and refine the solutions faster which increases your product's chances of success.

02.
Design

Design isn't just how your product looks, it's also about how it works. Here we shape the optimal user experience (UX) as well as hone the visual design (UI) details of your product

05.
Support

Launching your product is not the end of the journey, it's just the beginning. We'll be there with you along the way so you can grow your product, keeping users satisfied and engaged.

WHAT WE DO

How we can help

Leveraging our team's expertise we enable your company to grow steadily by minimizing the risks that come with building a digital product.

Whether you're bootstrapping your way through building your product, iterating on an existing one, or looking for some expert help to give your team a boost, we're here for you!

End-to-end product development

From napkin sketch to fully functioning application, we partner with you to bring your product to life. Following our curated development process, we will guide you through each step toward a successful product launch.

Dedicated Team

Building a capable in-house product development team is hard and can take a lot of time. If you want to lower the risks of developing your product, or don't want to lose precious time, we can put together a high-performing team that will work and feel as a part of your company.

Staff augmentation

Our highly-skilled engineers seamlessly integrate with your team, bringing all of our expertise to the table to ensure your project's success.

OUR WORK

Case Studies

A selection of the products we've
helped build.

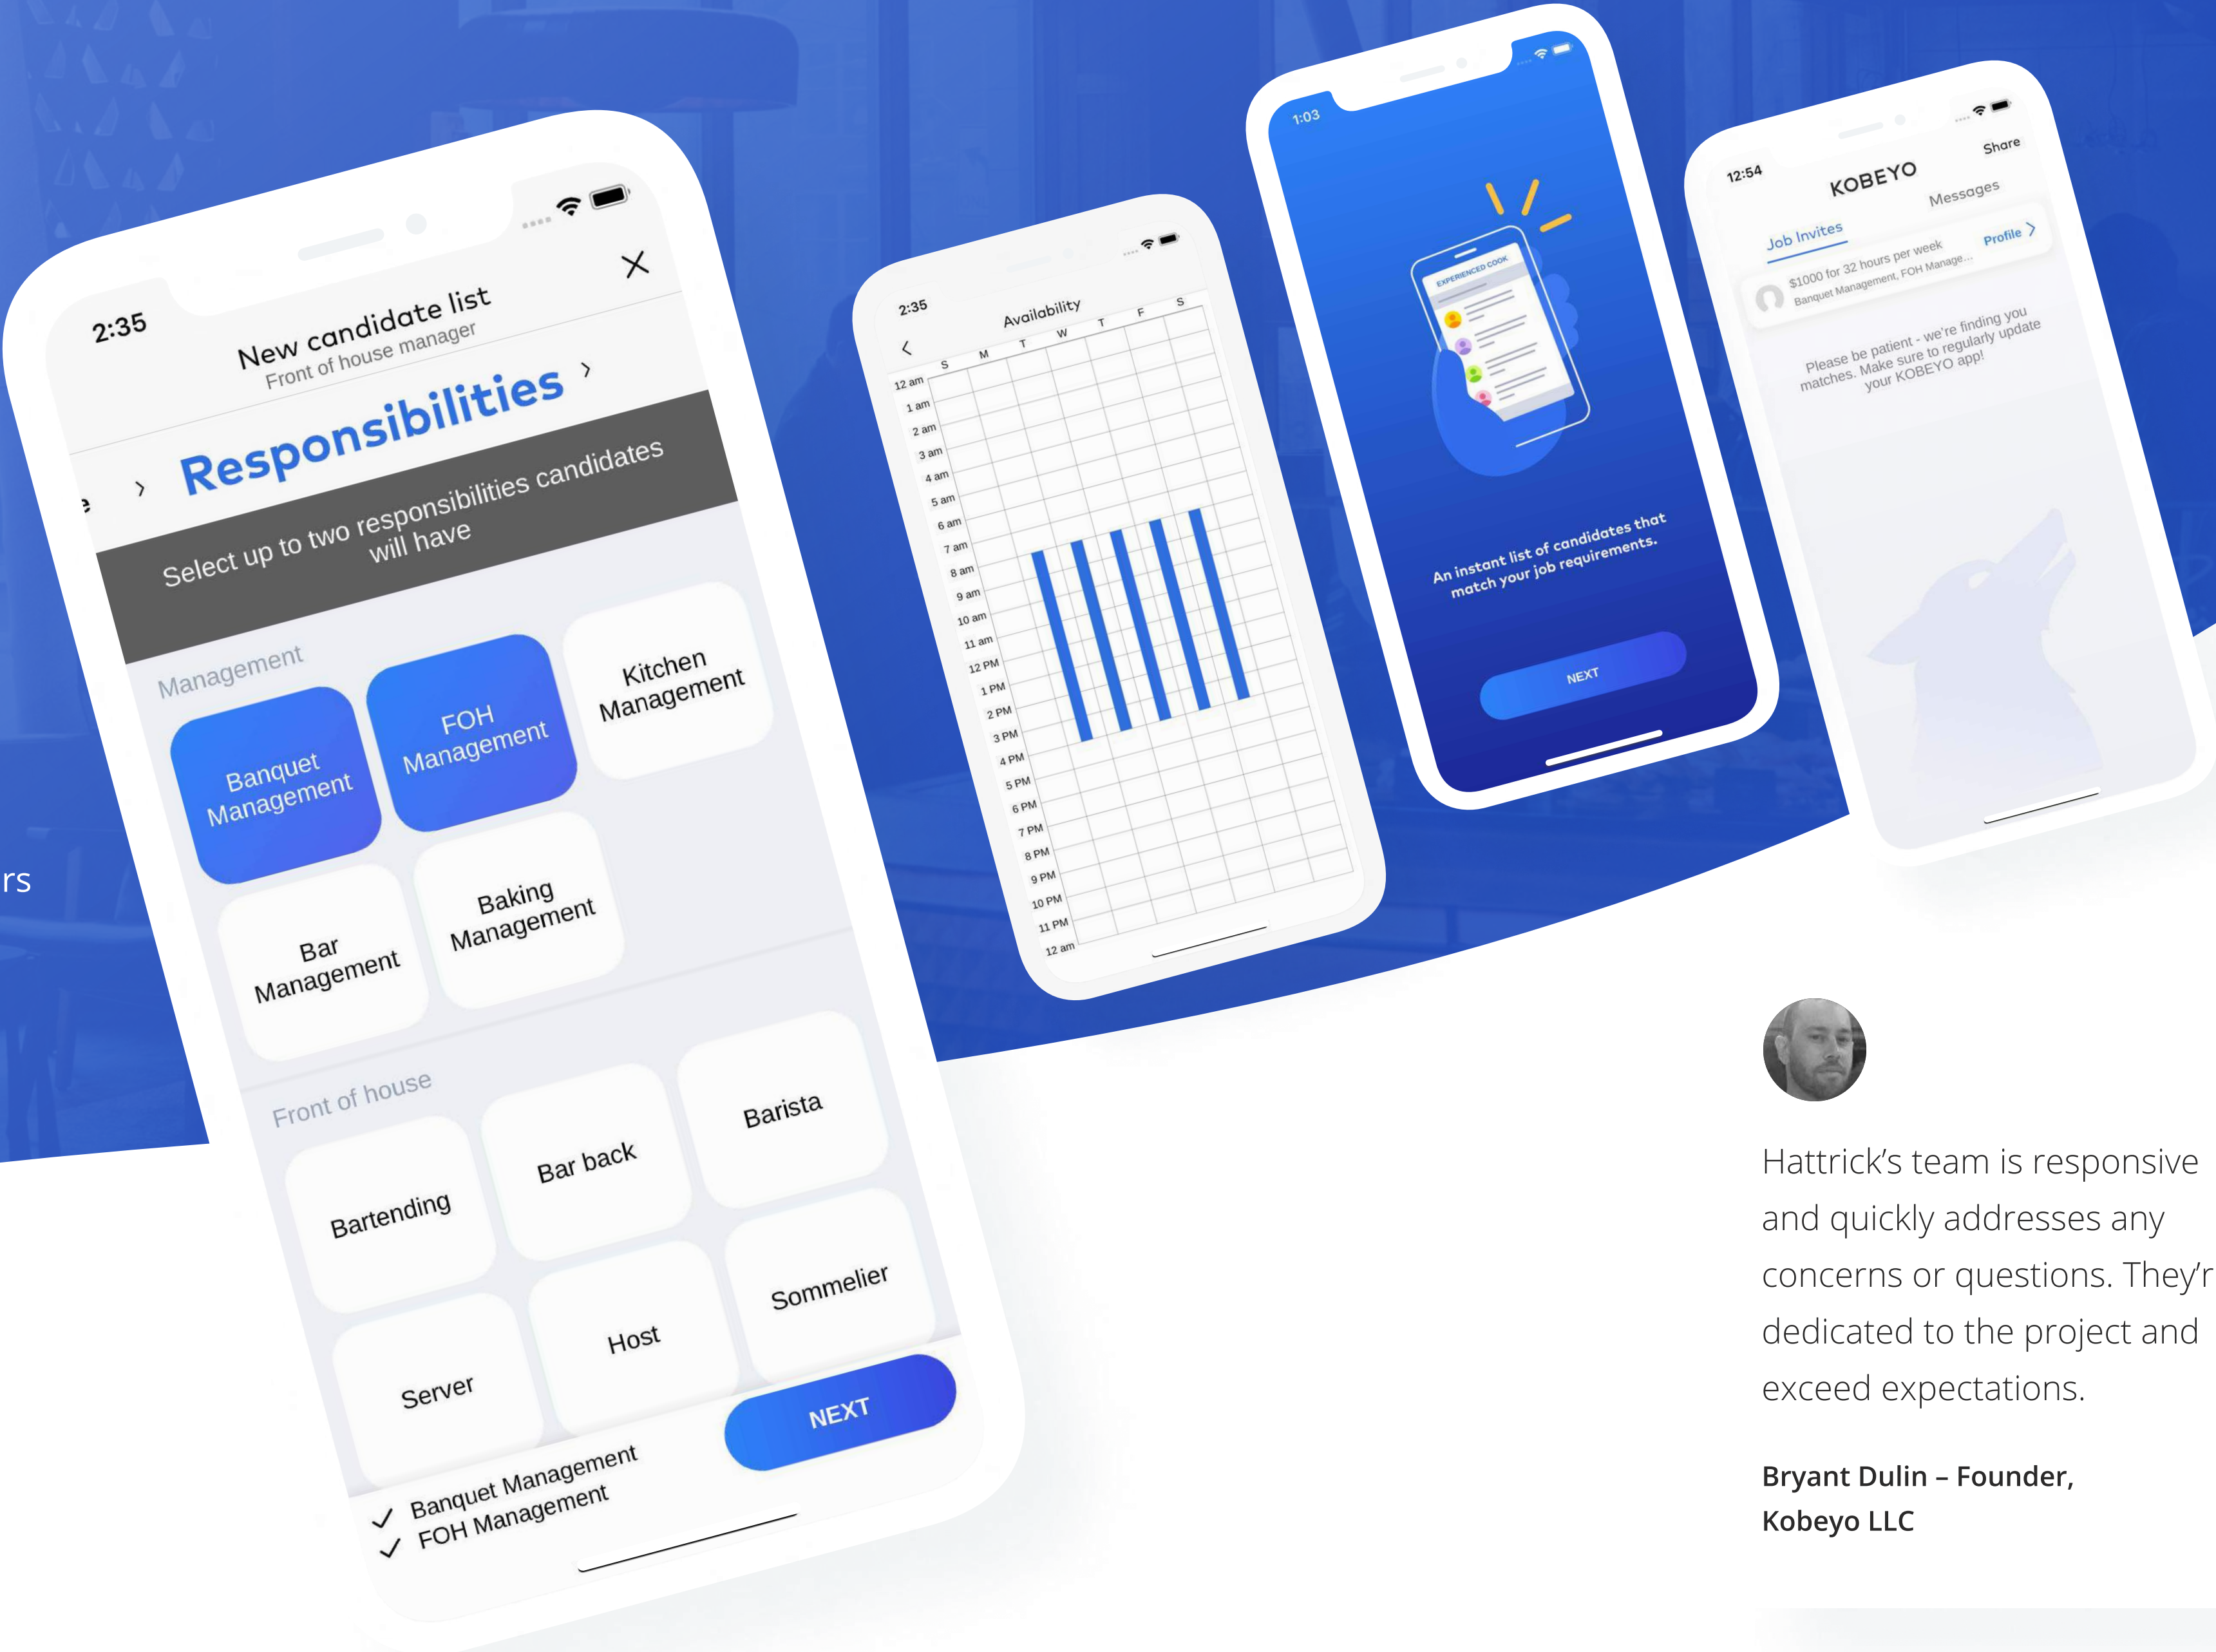

CASE STUDY

KOBEYO

Hiring made simple

A game-changing job search platform that matches job seekers with employers in the food and beverage service industry.

Hattrick's team is responsive and quickly addresses any concerns or questions. They're dedicated to the project and exceed expectations.

Bryant Dulin – Founder,
Kobeyo LLC

CASE STUDY

Beditations

Sleep and wake with meditations

An industry leading meditation app with a unique focus on meditations for sleeping and waking up.

Hattrick's attention to detail, communication, and capacity for tackling issues without compromising deadlines makes them a great long-term partner.

Eric Toffey – CEO,
Highly Meditated LLC

CASE STUDY

STORYFIRE

Different narratives

StoryFire is a group storytelling platform. Users can write their own tales, vote on how existing stories continue, and co-write stories with other users.

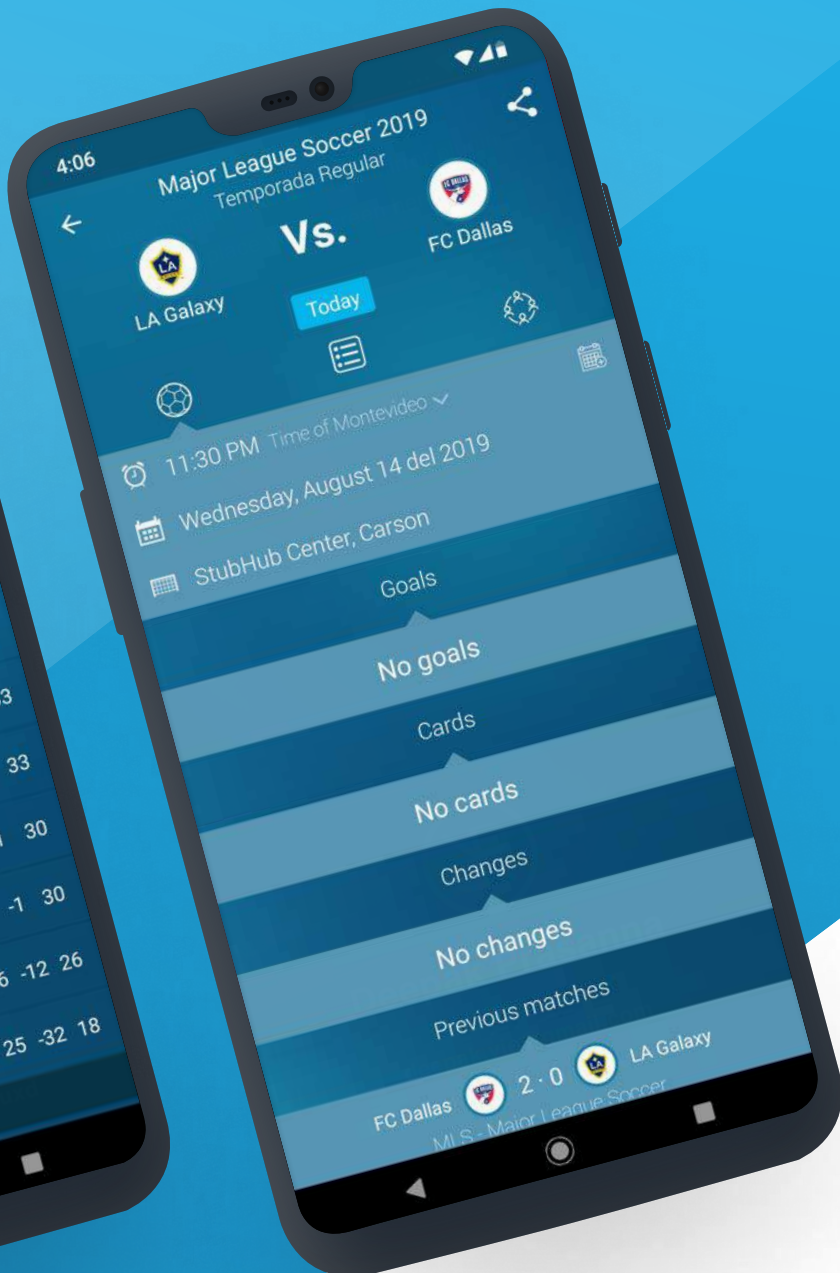

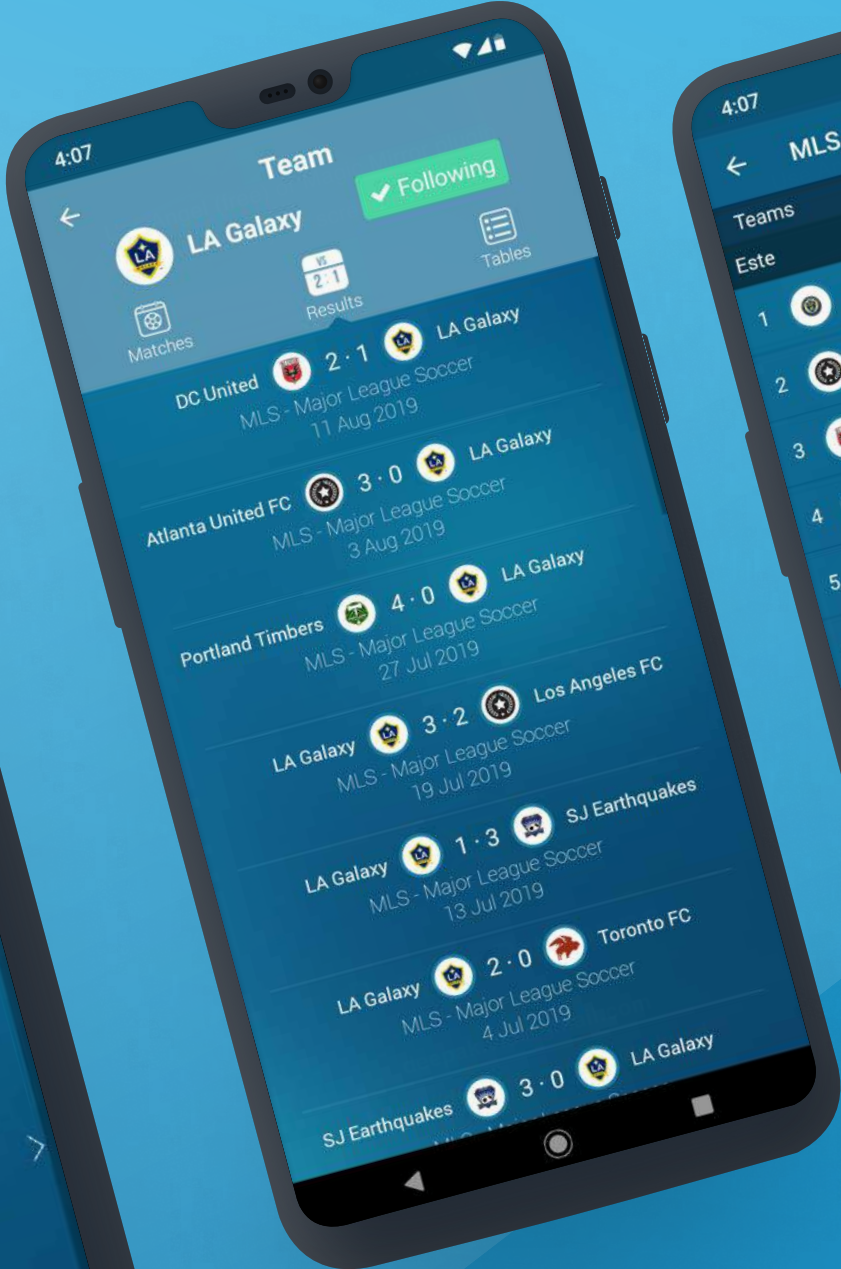

CASE STUDY

LITE SCORES

Soccer... scores!

Lite Scores is the place where soccer fans can find all the information they need, be it match results, formations, competition tables or all match related events; the second they happen, with no need to look elsewhere.

Hatrick-it provided immense value throughout the development process of our mobile platforms.

Ricardo Buitrago – Lite Scores
