DOMPAL, FOR MANY
PEOPLE THE BEST HAM
IN THE WORLD

QUALITY UNITES US

Each Dompal Iberico ham is the result
of a controlled artisan production
process from start to finish. The
anticipation of an amazing journey to
discover all of its exceptional value.
The aroma, texture and flavour make
all the difference with this authentic
Spanish gastronomic gem.

DOMPAL BELLOTA GEMS. FOR MANY, THE BEST HAMS IN THE WORLD

ON THE PATH TOWARDS EXCELLENCE SINCE 1962

With his extensive experience as well as that of various generations before him, Mr Francisco Martín Moreno decided it was time to accomplish his exciting objective: to make the best Iberico ham in the world. In order to do so, he chose the ideal place where natural factors come together with the ideal conditions needed:

Jabugo, Sierra de Aracena (Huelva),

And that's how the history of the company Domingo del Palacio and its now legendary "Dompal Bellota Gems" began.

Relying on a committed and highly-qualified team was essential to making this success story come true.

Dompal Iberico hams are now valued by great chefs and gastronomy critics in addition to being acknowledged with important national and international awards.

Dompal Bellota Gems are Spain's greatest gastronomic treasure and one of the most refined products in the world. Enjoying one is a unique and unforgettable experience as well as a constant desire for gastronomy enthusiasts.

They are present in the best restaurants and luxury gastronomy shops in the world.

The company has become a strong sector leader looking towards the future with an all-new IFS and BRC-certified Production Centre in Jabugo to meet the most demanding requirements all while moving forward with the company's internationalization.
