Austin Products

WHO WE ARE

We are a company formed by an experienced team in the sectors of Foreign Trade, Logistics, Administration and Commercial. We focus on small, medium or large domestic or foreign manufacturers of which we generate synergy to generate employment, innovation in products and incentivize the national and international economy.

Austin Products

ORIGIN

A group of professionals, experts in different areas, concluded that the market could collaborate Mexico with National and International brands with the purpose of encouraging the economy through employment and support to small manufacturing companies with the intention of growing in other international markets.

MISION

To satisfy the requirements of the Global market through the commercialization and promotion of the brands with the greatest opportunity for the Micro, Small and Medium companies National and International, as well as serving each market and the local challenges that arise from them. Strive to calculate your products with the most appropriate strategy to achieve the desired success.
