# HISTORY

---

**Natura Bio Foods** is born from the vision of its founder to offer natural products, with added value and nutritional characteristics, to position itself in the market of the processed food industry.

In February 2009, we became as a Mexican company, dedicated to the manufacture and distribution of functional products that favor a healthy lifestyle.

---

We are manufacturers and bottlers of our own brands and private labels of **organic agave syrup, flavored organic agave syrup, mexican honey, functional jams, oils, inulin and nopal (cactus) powder.**

In 2012, we started operations of our manufacturing plant located in El Salto, Jalisco, which currently produces agave syrup and agave inulin. In 2017 we started the production of **Avocado Oil.**

# MISSION

Promote a **healthy lifestyle** by offering our national and international clients a variety of **products with added value**.

Complying with strict quality standards and providing an excellent service. Meet the specific needs of final consumer and our business partners.

# VISION

To become a company with the capacity to develop and offer a wide range of food products as healthy alternative for the national and international market, with an ecological focus and **excellent quality**.

# VALUES

Teamwork  
Leadership  
Honesty  
Responsibility  
Quality

# PRODUCERS

---

The relationship with each of our producers is very strong since we have structured agreements, taking as reference the supply requested, delivery time, price and quality products.

As a result of the correlation and quality that we have with the producers, we obtained certifications such as **HACCP**, **KOSHER** and **USDA Organic**.

Certificado Orgánico por:  
KIWA BCS OKO GARANTIE GmbH

# PRODUCTS NATURA BIO FOODS

**Natura Bio Foods®** is a manufacturer and food co-packer, we have also developed product lines based on strong and emerging trends, to respond to the evolution of consumption.
