

INTERPORT LOGISTICS

2023

Profile

-  A team of seasoned logistics experts with a collective industry experience of over **100 years** established Interport in **2000** in Miami, Florida
-  We are a fully **licensed Ocean, Air Forwarder** and a **US Customs Broker** with a National Customs permit.
-  Additionally, we operate a **US Foreign Trade Zone, US Customs Bonded Warehouse** and **CFS Station** to support the management of “in-transit” cargo via Miami.

Mission

Interport Logistics is committed to become the leading logistics provider by offering world-class personalized customer service along with state-of-the-art technology for faster and more reliable delivery.

Our pledge is to establish lasting relationships with our customers by exceeding their expectations and gaining their trust through exceptional performance by every member of the team.

- 01 Because the customer has a **NEED**, we have a job to do.
- 02 Because the customer has a **CHOICE**, we must be the better choice.
- 03 Because the customer has **SENSIBILITIES**, we must be considerate

- 04 Because the customer has a **URGENCY**, we must be flexible
- 05 Because the customer has high **EXPECTATIONS**, we must excel.
- 06 Because the customer has **INFLUENCE**, we have the hope of MORE customers.
- 07 Because of the customer we exist!

Operations in **China, Guatemala, El Salvador, Nicaragua, Costa Rica, Dominican Republic, Panama.**

Our Associations/Licenses

Our services

Warehousing

As commerce booms more than ever, the need for a third-party warehousing and storage becomes ever so important. Interport provides you with the most convenient locations to outsource your storage needs.

Temperature Control

Interport Refrigerated Cargo, with its specialized containers, trucks, equipment, and process makes sure that your temperature sensitive cargo gets to its destination in top condition. That's our promise. Our specialized reefer trailers and vessels ensure safe delivery of your goods. In addition, our new facility is equipped with 10k sqft of warehouse space under Air Conditioning.

Our services

Freight forwarding

As a freight forwarder with more than half a century of experience, we ensure safe and seamless movement of your goods across the American, Asian, and European continents, as well as everything in between.

Customs brokerage

When it comes to export-import, delays in customs clearance can often cause trouble. At Interport, our custom brokers understand the importance of timely customs clearance to minimizing costs and maximizing profits.

Distribution

With the rise of ecommerce, today most businesses need a reliable service for outsourcing their distribution functions with ease. Interport's Distribution Services put at your disposal our 375,000 sq. ft. distribution center, which is equipped with the latest developments in modern tools and technologies.

Our services

Consulting

Our collective experience of more than 100 years gives us the advantage of essential practical knowledge about global trade and worldwide logistics. Our international consulting services make this expertise available to you to give you that crucial edge you need to succeed in the always-on supply chain.

Information System

Our cutting-edge Information Systems provide you the hardware and software necessary to achieve continuous supply chain visibility. Interport's information technology systems offer a combination of software/applications and a Supply Chain Visibility Portal System to let you track orders throughout the process.

- Our distribution capabilities allow you to store inventory and fulfill any order, regardless of the size directly from our warehouses.
- Distribution Centers in the USA of 375,000 square feet, Bonded and FTZ.
- FTZ Process (Free Zone), allows us to issue a request for the transfer of ports before the arrival of ships. This facilitates the movement of the load at the time of arrival in Puerto, in all Distribution Centers.

Our programs

ASIA - MIAMI Consolidation Program

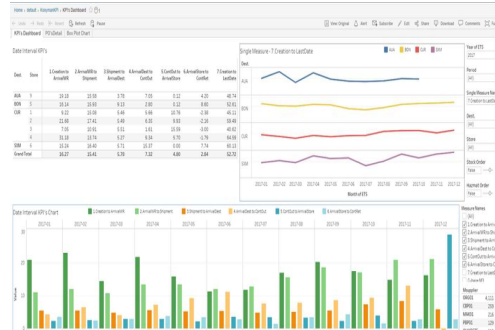

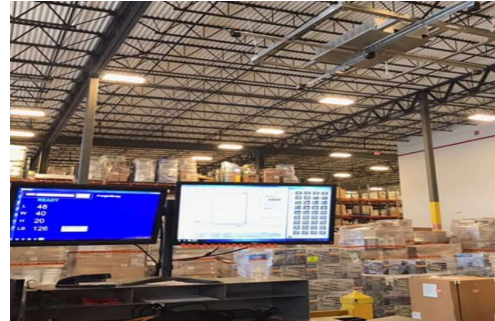

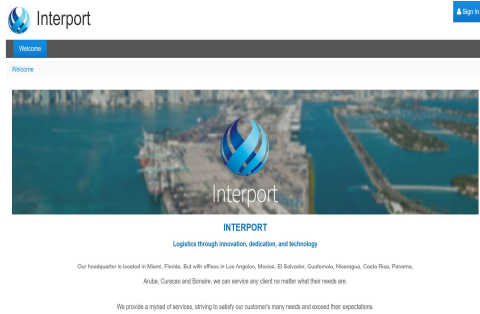

From Ningbo, Shanghai, Shenzhen, Hong Kong and Taiwan to Miami/USA includes:

- Receiving at Interport China warehouse
- Transferring to Interport Miami CFS or FTZ. No payment of US duties and taxes
- Visibility and tracking of purchase shipments
- Outer package inspection
- Special ALL-IN pricing
- Buyers Consolidation also available

Weekly Service

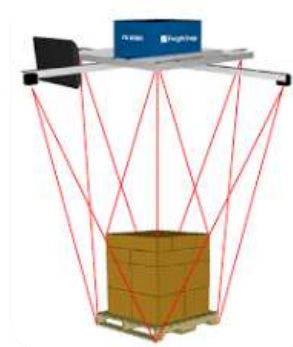

All Inclusive

INTERtechnology

The process of receiving goods considers the visual review, as well as the validation of all documents based on the cardboards/ pallets received physically. Additionally, the various controls of load validation, cargo status, others.

Through the pallet measurement system, weight, measurement, and photographs are obtained in an automated way entering data to the warehouse receipt, then images of the cargo:

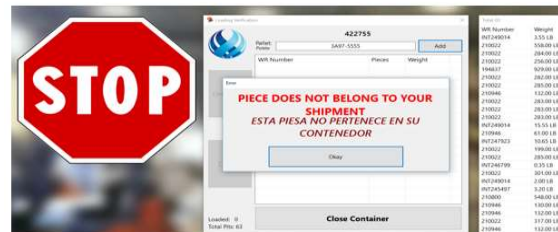

Different areas of the company have been working closely to develop better options to maximize productivity and to reduce errors.

As a result, we have new tools that will help employees during their daily operations.

VALIDATION MESSAGE

As they scan into the container, the Warehouse Receipt (WR) will move from the left window into the Loading Verification Window to show that it was loaded. A big green GO sign will appear if the WR is good to load.

ERROR MESSAGE

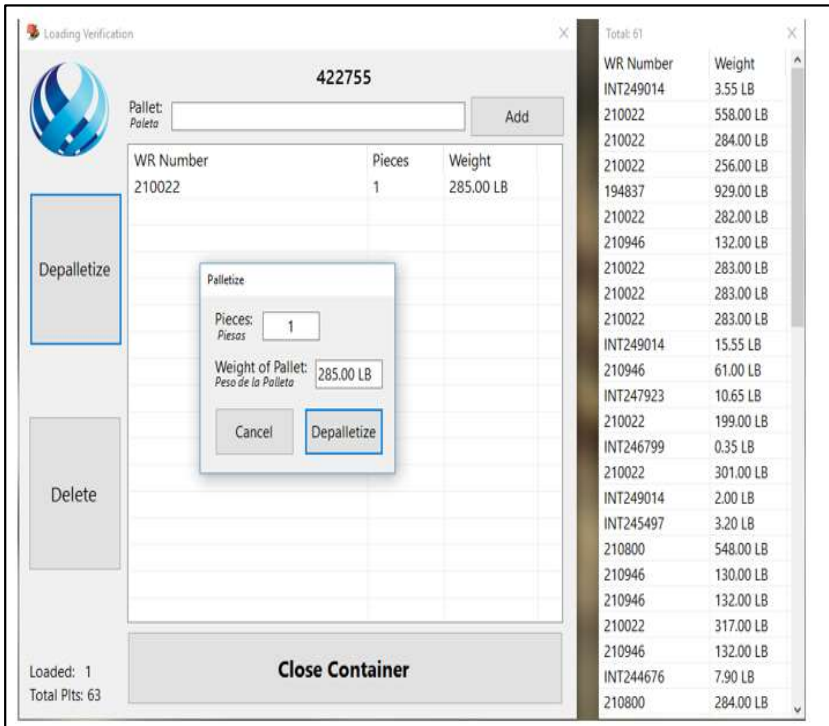

If by any chance an employee scans a pallet that does not belong to the shipment, the loader will be prompted with an error. This will avoid pallets from other customer being loaded in the wrong container.

ERROR MESSAGE DUPLICATED

The loader will be prompted with the following error if he scans the same pallet twice.

Loading details can be found in the CUCHUFLI > Warehouse > Loading Verification > Shipment Number (Click Here To Open File)
Please send for container to be picked up as soon as possible!
Note: Some items were NOT loaded! Note from supervisor: Job Test

Our IT Team develops customized Web Portals for you and your customers.

Because we have our servers in the Cloud, we can archive a 99.8% availability and visibility of your data while maintaining high standard security.

EDI capable

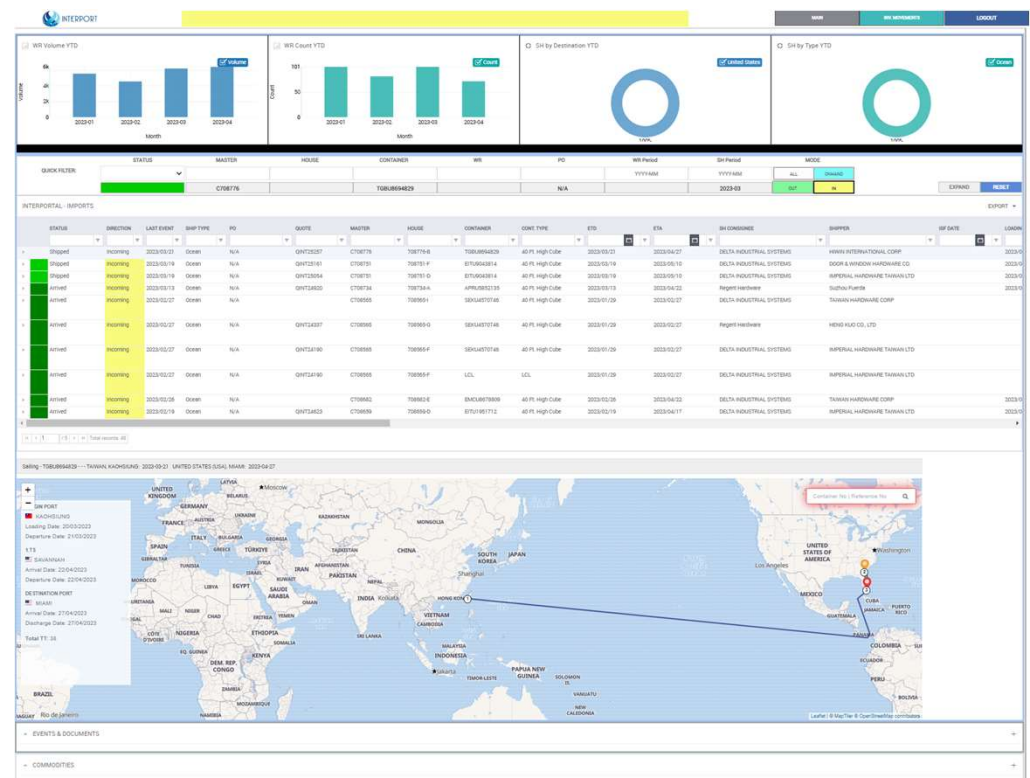

Our Enterprise Resource Planning (ERP) provides an interface for the exchange of all documents, alerts, notifications, status, instructions, all electronically.

EDI links to any ERP system supporting smooth electronic transfer of information in order to:

- 1 Reduce expenses
- 2 Increase Speed. Information is moved faster
- 3 Eliminate paper documents.
Eliminate labor-intensive tasks. i.e. data entry
- 4 Gain a greater accuracy of information
Obtain better tracking.

- Traceability of all operations
- Detailed record of the entire supply chain, from the placement of the purchase order to the delivery to the final customer and/or warehouse.
- Documents related to each shipment.

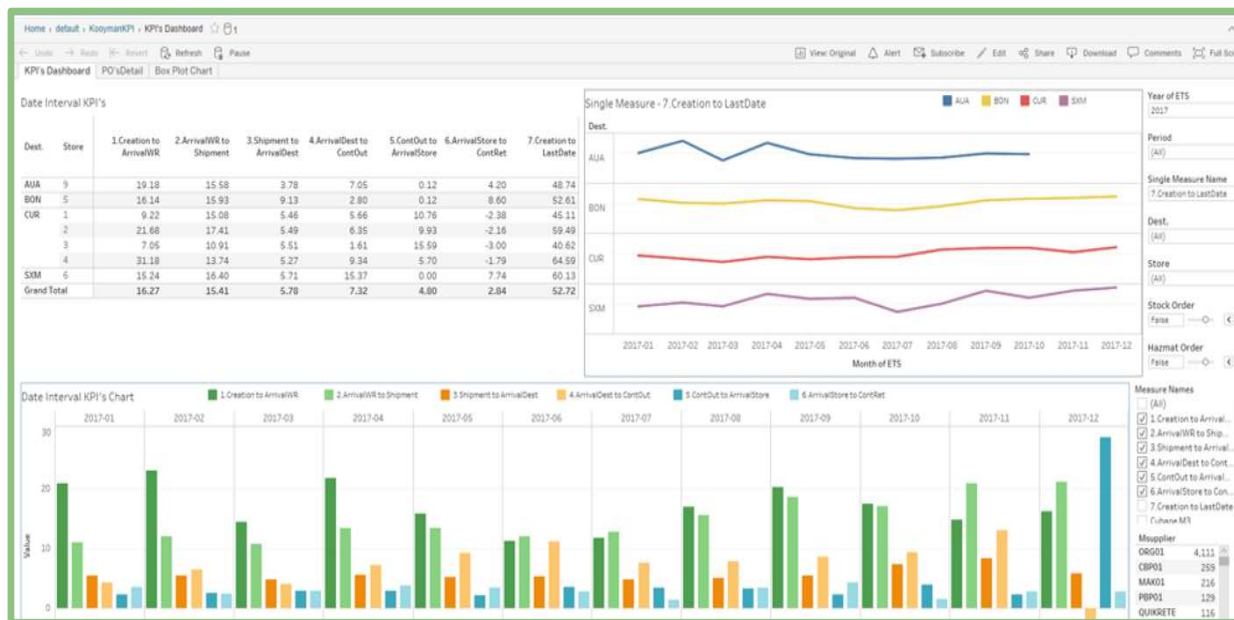

- Photographs of the cargo received and dispatched.
- Load status, with date record at the time of change of status.
- Among the reports supported in the tool we can mention: OnHand Inventory, Supply Chain.

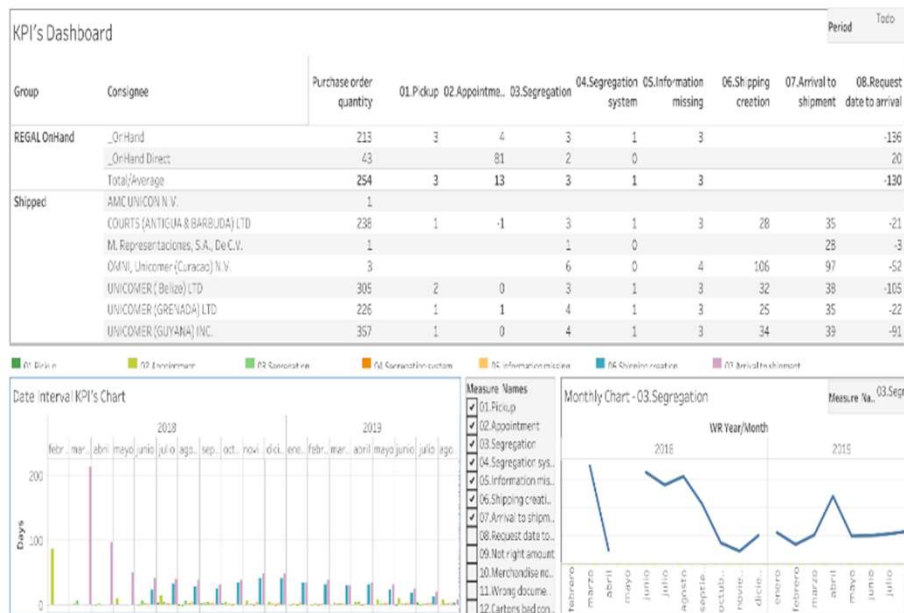

Key performance indicators

Best BI experience, increase revenue and stickiness, make more of your resources, Scale flexibly and securely.

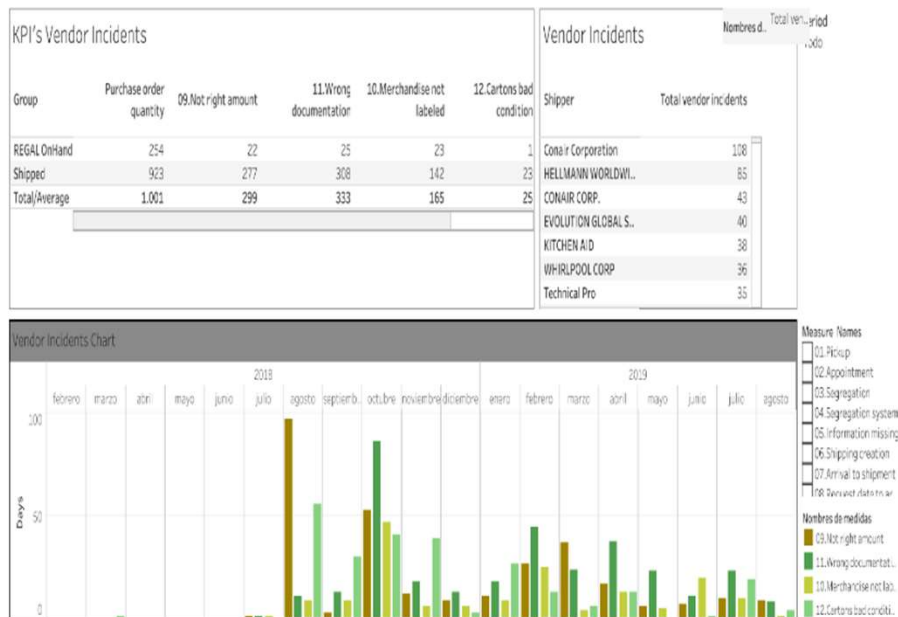

Management Indicators – KPI's provide the supply chain with quantitative measurement in terms of business process performance, as well as the volume of the operation to support in the projection of the operation and compliance with the agreements established.

KPI's for performance

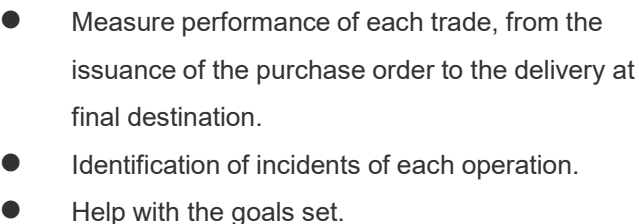

- Measure supply chain processes.
- Definition of targets based on established service agreements
- Quick identification of opportunities for improvement.
- Comparatives from years and months before.

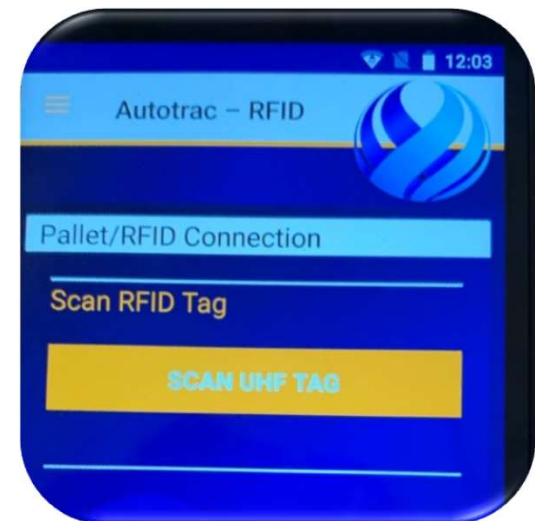

KPI's by supplier performance

- Measure incidents in the delivery of the cargo by the supplier: incorrect documentation, bad cartons, erroneous labels.
- Quick identification of opportunities for improvement.
- Comparatives from years and months before.

- Wireless Scanning
- Unique tracking
- Real-time updates
- Integration with other systems

"Because of the customer, We exist."
