# Company Overview

Grower, trader, exporter, and distributor of fruit and vegetables based on human beings through conscious and responsible consumption, sustainable development, fair trade, organic farming, and biodynamic nutrition

## Business description

- Interrupción\* was founded in 2001 in Argentina and in the United States by Diego Gonzalez Carvajal (President & CEO), Rafael Goldberg (CEO North America), and Leandro Martelletti (Director)
- The company produces, exports, sales and distributes directly to retailers fruit and vegetables based on human beings through conscious and responsible consumption, sustainable development, fair trade, organic farming, and biodynamic nutrition
- Interrupción\* farms its own lands and partner with local growers in Argentina, Chile, Peru, Costa Rica, Mexico, the United States, and Europe
- The company seeks to partner with small and medium-sized producers and cooperative groups, helping them enhance each stage of the organic production process as well as certifications and audits
- Interrupción\* employs ≈320 employees and generated ≈US\$ 33 mm in revenues in 2016

# Social & Environmental Impact

Interrupción\* works directly with producers throughout Latin America and the United States to grow with the highest levels of food-safety and elevated social and environmental processes verified by trusted third parties

## • New agriculture in the Americas

### Innovation

- Focus on social and environmental impact
- Invest in workers and human capital
- Engage holistic organic processes
- Employ fair terms and trading practices
- Invest in capacity and elevated certifications
- Research and development in biodynamic practices that improve nutrition and taste

### Differentiation

- Maintain the highest social and environmental standards in the industry
- Create products with purpose and positive impact
- Communicate human values and inspire with true stories

## • Knowledge creation and transfer

- Interrupcion\* operates model farms and distribution hubs in Argentina, Chile, Peru and California where it conducts research and development and implement practices that enhance the taste, nutritional quality, and social and environmental impact of its products
- The Company then apply the best practices to associated farming operations

### ASSOCIATED FARMER SERVICES

- Financing
- Agricultural techniques capacity building
- Quality assurance
- Organic farming and fair trade labor technical support
- Biodynamic preparations (bio-fertilizers)
- Farming costs savings through inputs sharing
- Supply chain logistics management and direct export
- Fair trade premium management for positive impact in education, health, and housing for rural communities involved

# Trademark

**TASTE ME\*:** Enjoy the flavors of fresh, nutritious produce grown the way mother nature intended. **DO GOOD\*:** Make a difference in the lives of families, communities, and our environment

- Tell stories through diverse channels

**TASTE ME\*:** Enjoy the flavors of fresh, nutritious produce grown the way mother nature intended

- Hand-selected fruits and vegetables come to you directly from family farms and cooperatives throughout South America, Central America, and the United States

**DO GOOD\*:** Make a difference in the lives of families, communities, and our environment

- Guarantee fair wages and safe, dignified working conditions for farm workers
- Minimize or eliminate the use of harmful chemicals
- Safeguard land and water resources for future harvests and future generations
- Create positive community impacts: every Taste Me, Do Good™ product sold generates a social premium that goes directly back to communities to invest in much needed health, education, and other urgent community projects

## Internet / Viral

Interrupcion\* can support marketing efforts on Facebook, Instagram, Twitter, YouTube, and other social media and online platforms to interact with and engage grocery shoppers

## In-store signage

Interrupcion\* provides store signage and can customize displays / signs to complement existing initiatives and highlight certain parts of the Taste Me, Do Good™ story

## Product Packaging

Taste Me, Do Good™ product packages work to tell the story. Every item comes with information designed to get the attention of shoppers and educate them during and after the time of purchase

## Print Ad Content

Interrupcion\* provides producer stories, community project information, social & environmental facts and impact stories creating a special opportunities for weekly print ads

### Taste Me\*

The best tasting fruits come from farming naturally. Delicious and crunchy, apples are great antioxidants which work as strong disease-fighting compounds, and their nutrients help to detoxify the body, hence the old saying, "an apple a day keeps the doctor away". Apples also have B-complex vitamins such as riboflavin, thiamin, and pyridoxine, which help the metabolism. Enjoy!

### Do Good\*

Our products guarantee a positive impact on the environment and for the families and communities involved in farming and production. Workers in the Rio Negro Valley of Argentina benefit from growing these apples and through fair trading practices have extra funds to invest in the health of their schools, local medical clinics, and other community projects and priorities.

### Taste Me

The best tasting fruits come from farming naturally. Bananas are a great source of potassium, a mineral that is essential for heart health and blood pressure control. Also bananas are a good fiber source, one medium-sized banana contains about 3 grams of fiber.

### Do good

Our products guarantee a positive impact on the environment and for the families and communities involved in farming and production. Workers in Peru benefit from growing these bananas, and through fair trading practices have extra funds to invest in the health of their schools, local medical clinics, and other community projects.

12 x 6 oz

12 x 11 oz

8 x 18 oz

### Taste Me

The best tasting fruits come from farming naturally. Blueberries are among the most nutrient dense berries. A 1 cup serving (148 grams) of blueberries contains: Fiber: 4 grams, Vitamin C: 24% of the RDA, Vitamin K: 36% of the RDA and Manganese: 25% of the RDA. Also blueberries are believed to contain powerful antioxidants that help protect cells against free radical damage, unstable molecules that can damage cellular structures and contribute to aging and diseases like cancer.

### Do good

Our products guarantee a positive impact on the environment and for the families and communities involved in farming and production. Workers benefit from growing these blueberries, and through fair trading practices have extra funds to invest in the health of their schools, local medical clinics, and other community projects and priorities.
