

DISTRIBUTION, PORTFOLIO, AND SERVICES

ABOUT US

We began our logistics business as freight brokers throughout the country, giving rise to a direct association with truckers, to eventually directly dispatch their fleets, and thus build a business where we have a national network of more than 2,000 of our own trucks.

PRESIDENT'S PROFILE

SANTIAGO RENDON

Having studied both logistics and business management, his knowledge and motivation has been an important factor for the expansion of Jericho Group.

MISSION AND VISION

MISSION

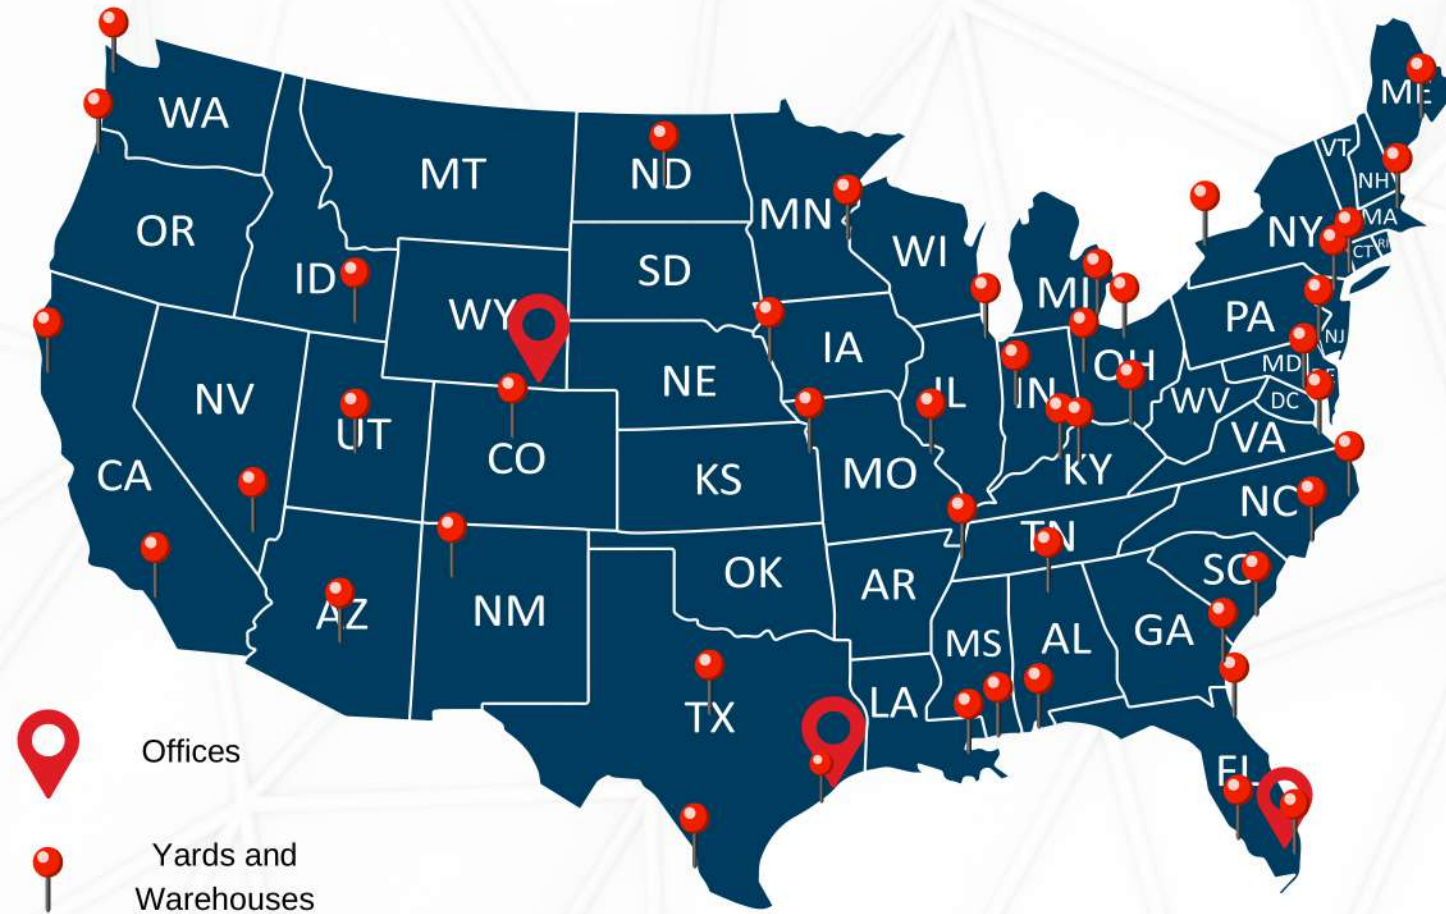

Our mission is to redefine logistics through unparalleled customer service and relentless innovation. We are committed to providing excellence in all aspects of our services, putting our clients at the forefront of everything we do.

VISION

Our vision is to be a global leader in supply chain solutions, driving growth, setting new standards in customer service, and pioneering innovative solutions that redefine the logistics industry.

DISTRIBUTION AND LOCATIONS

We are proud to be one of the few companies that has at least 2 trucks in all sea and rail ports in the country, including temporary storage yards and warehouses to carry out crossdocks, transloads, and other similar operations.

STRATEGICALLY LOCATED IN COLOMBIA

Appreciating the success of the commercial collaboration with several Colombian companies, our company decided to extend its operations to Colombia to provide a personalized and trustworthy service for exporting or importing clients in the country.

With 5 years of experience in the country, we have increased our logistics team in strategic regions to be closer to the country's large exporting and importing companies.

SERVICES PORTFOLIO

1

DOMESTIC TRANSPORT

We have more than 1,200 trucks of different types, such as dry vans, reefers, flatbeds, and box trucks of all sizes to meet any need.

2

INTERMODAL TRANSPORT

With a network of 800 trucks in all national ports and with OOG, Hazmat, and Tanker capacity, there will not be any load that we cannot handle.

3

WAREHOUSE

Our vast warehouse network, covering a total area of 36 million sq ft throughout the country, guarantees the fluidity of your operation without fear of delivery delays.

4

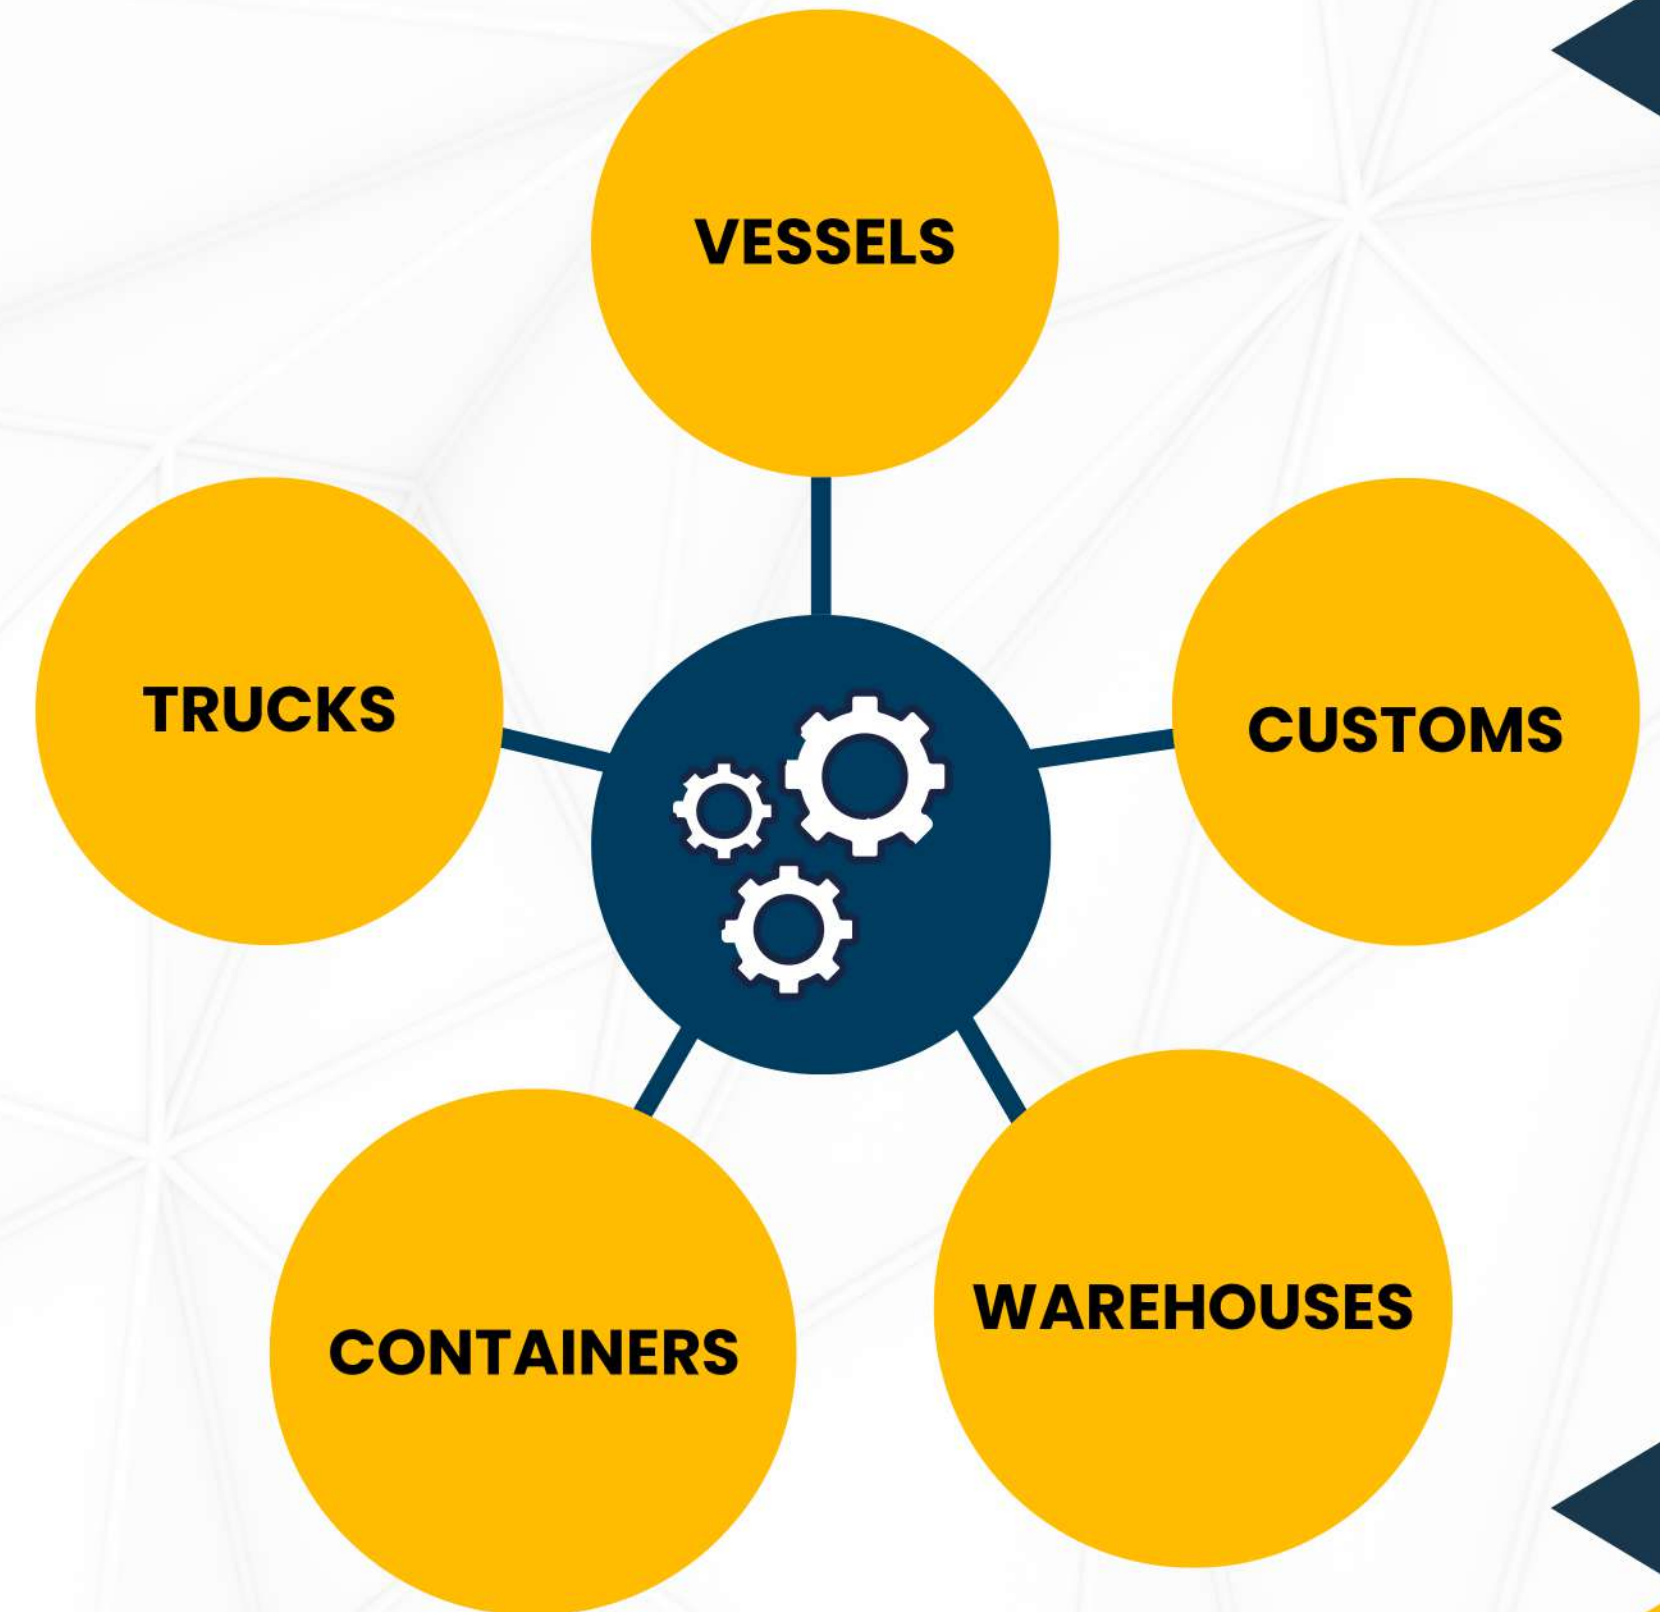

NVOCC

With our Freight Forwarder license we can make any international movement in any country to or from the United States.

UNIFICATION FOR A DDP / EXW PLAN

Considering the limited public knowledge of the companies involved in cargo transportation, our services provide the guarantee of a unified and complete company that directly acquires updates from their origin.

In this way, your clients can have an exceptional DDP (Deliver Duty Paid) service if they are an exporter or EXW (Ex-Works) if they are an importer.
