# In Justavo,

We believe in the value of natural, tasteful, and sustainable products.

**Natural and tasteful products should be at the reach of everyone.**

With today's globalization and technology, natural products can be available around the globe and it is our purpose to close the gap between responsible producers and conscious consumers.

**Our products are as real as our name: Justavo (Just Avocado).**

We do not sacrifice taste or nutritional value to achieve unnatural shelf lives on our products; we use technology, innovation, and strict standards to get as much as what nature is willing to offer us.

Frozen Avocado Pulp

Justavo is fresh,  
creamy, and  
super healthy

Our pulp is made exclusively from Hass avocados, that are hand scooped by local workers from La Ceja-Colombia, and is carefully processed with the latest technology to guarantee its freshness, innocuity, and shelf life without the need of any additives.

**Enjoy without regrets!**

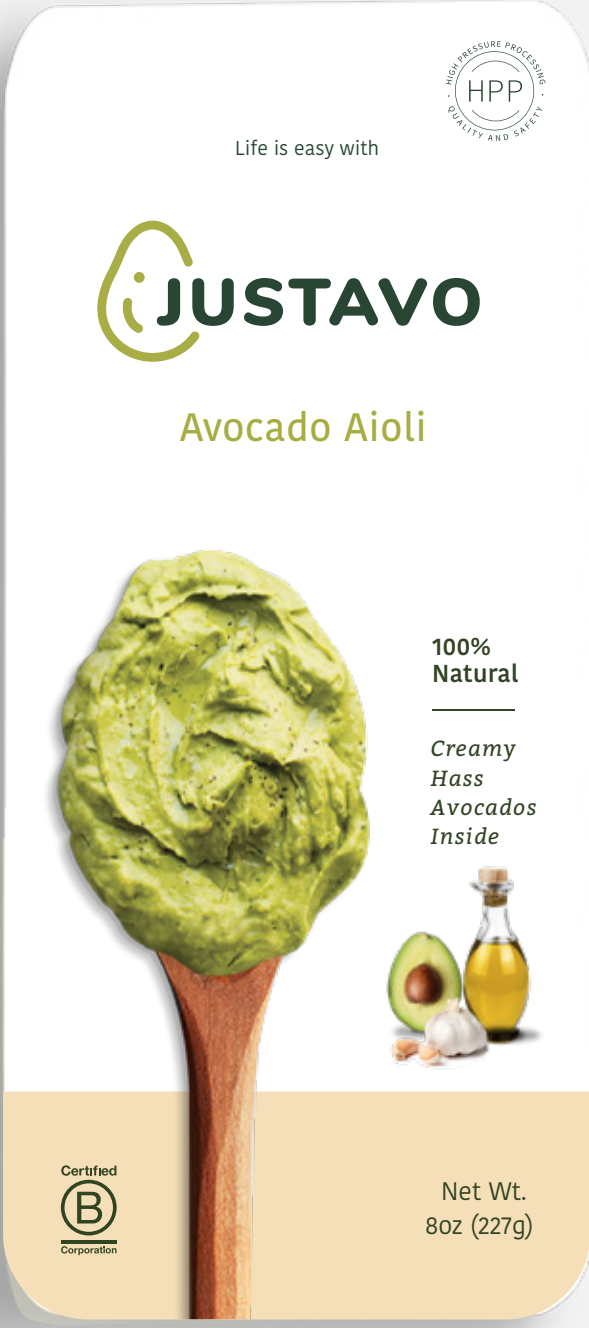

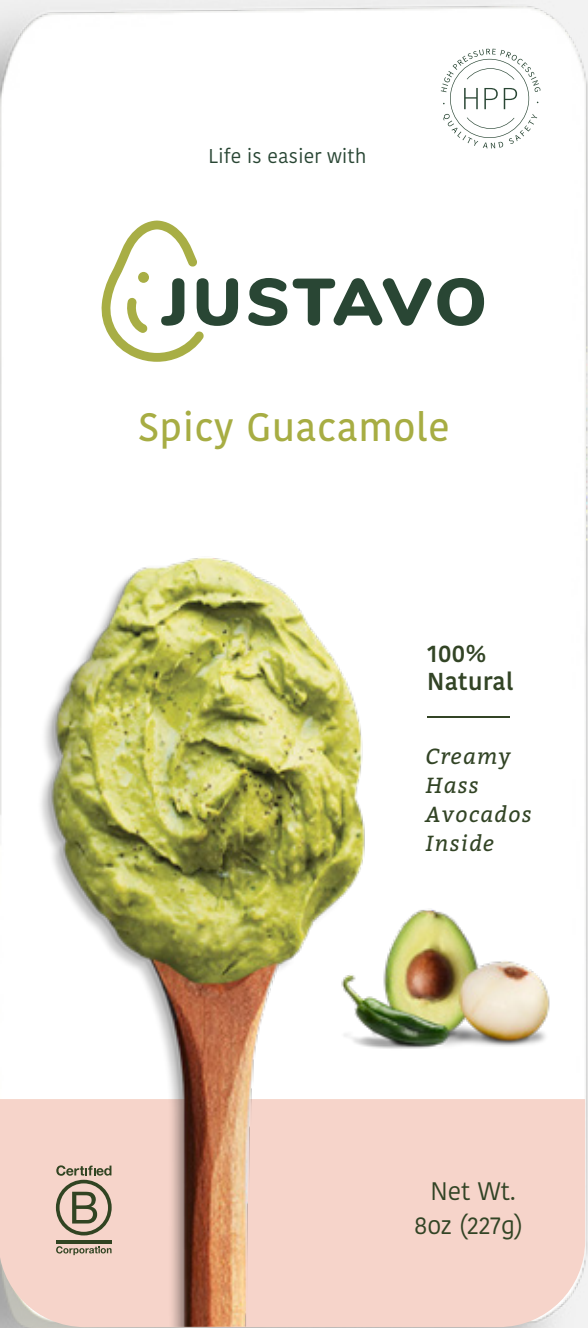

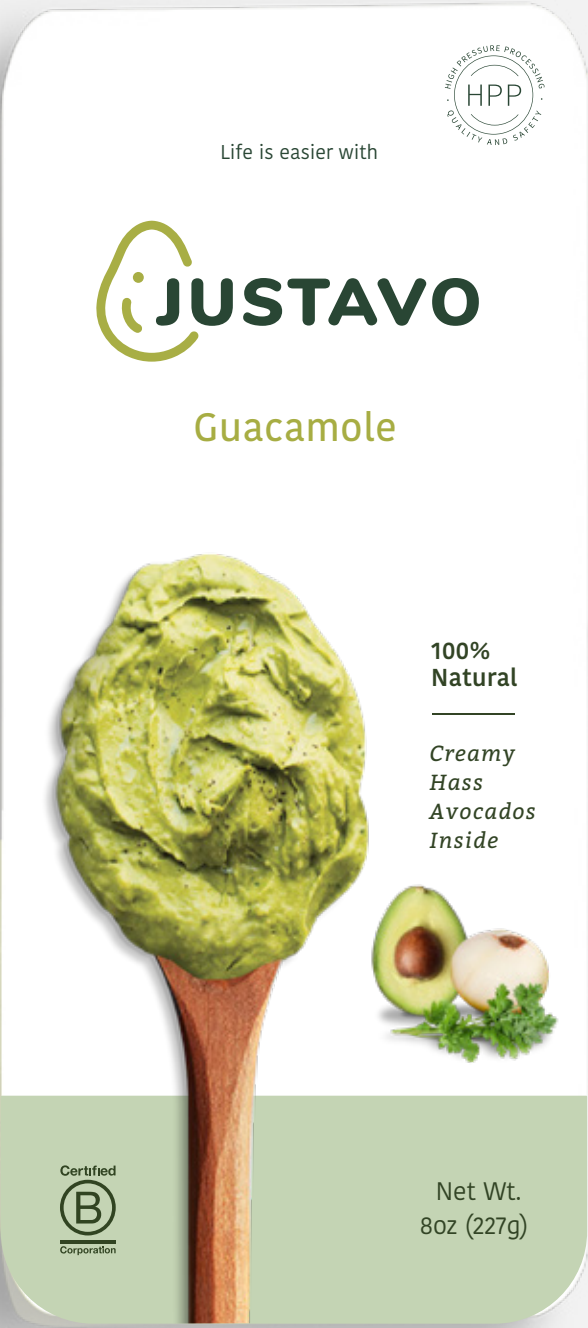

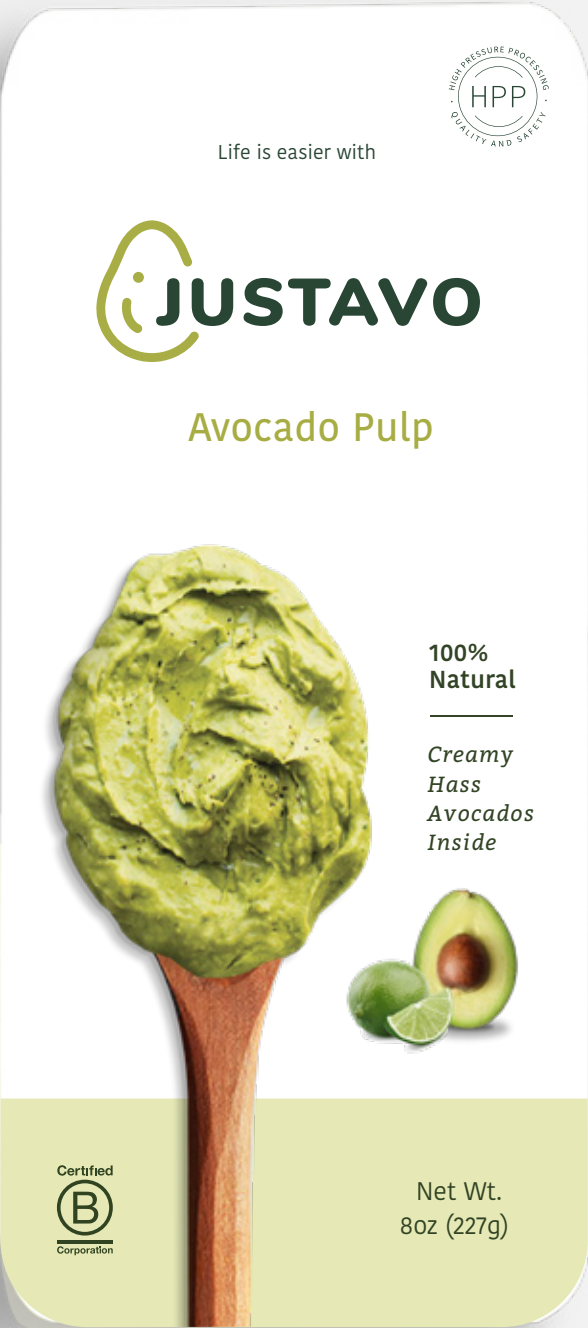

life is easier  
with Justavo
