

LOWER THE RISK OF SLIPS & FALLS!

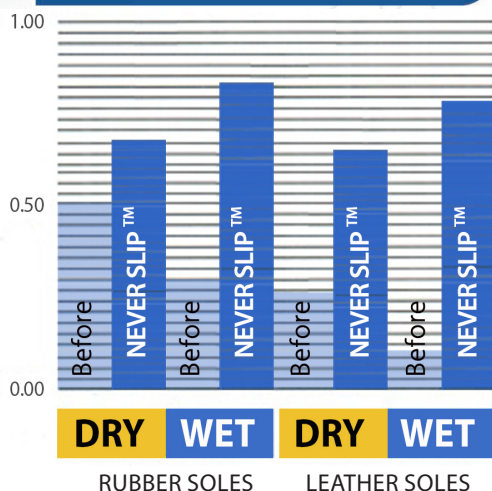

The safety results of your traction product installed at our business has dramatically improved since the application of your product. Thank you!

Carole Dumont,
Sudbury Hospital Services

- Slips, trips and falls make up the majority of general industry accidents.
- The National Safety Council (NSC) says that approximately 25,000 people are victims of slip and fall accidents every day.
- According to the U.S. Department of Labor's Occupational Safety & Health Administration (OSHA), slips, trips and falls account for 15 percent of all accidental deaths, and are second only to motor vehicles as a cause of fatalities.
- Every 8 seconds someone is a victim of a slip or a fall.
- Accidents cost businesses \$3.5 million dollars every hour, 365 days a year.
- The NSC estimates that workers' compensation and medical costs associated with employee slip-and-fall accidents are approximately \$70 billion per year.
- Customer slip-and-fall incidents are potentially far more costly.
- The average cost from slip and falls is \$22,800 per accident.
- The average worker's compensation claim is \$19,000.

TRACTION RESULTS

Slip Resistance

Never Slip exceeds the American Society of Testing Materials (ASTM) and Underwriters Laboratory (UL) of 0.50.

Before **Never Slip™**

After **Never Slip™**

PRODUCT BENEFITS

- Never Slip aims to reduce injuries from slip and fall accidents
- Never Slip is the most effective traction enhancement available
- 1 gallon treats up to 500 sq feet.
- Enhances the grip and traction on all flooring
- Up to 200% better grip on all dry and wet surfaces
- Never Slip increases safety on indoor / outdoor surfaces
- Creates millions of nano-technology spikes per square inch
- Quick & simple installation
- Affordable, safe, durable and non-flammable
- 98.7% water based product
- Lasts from 6 months up to 2 years depending on use
- Allows for lower liability and WSIS insurance rates

Our product interacts with the minerals in natural stone surfaces to create an increase in surface traction. Our product is carefully formulated to control this reaction so that the desired results are attained with no risk of appearance changes. After 15 to 45 minutes of treatment, you will have a much safer floor. No need to change your current cleaning regimen or make any changes in floor care. You are now safe!
