**The best logistic
experience for
your projects.**

LAMAIGNERE
CARGO

Operating since 1908

Lamaignere's story goes back **more than 115 years**. From the beginning, it started as a family-run company focused on carrying out ship agency, stowage, and customs agency activities.

Today, Lamaignere continues with this tradition despite all the changes the sector has gone through.

LAMAIGNERE
CARGO

Lamaignere is a global freight forwarder for more than 115 years and has gained the trust of its customers in such key countries as Spain, Chile, Mexico, USA, Korea, Singapore, Vietnam, China, Uruguay or Brazil, to name a few.

The company offers integrated logistics solutions through its own experts and specialists who have extensive experience in providing services to the aerospace and solar energy industries, as well as to the various infrastructure supply sectors. Lamaignere services also develops custom-made solutions for customer-specific projects accommodating all transportation modes.

Our mission is to build strong relationships with all our stakeholders with a vision of becoming a consolidated and global company with a robust digital business strategy.

LAMAIGNERE
CARGO

Specialized industries

We have extensive knowledge and experience dealing with different and specialized industries. Accordingly, we understand that **different types of merchandise need varied treatment** and may have **specific requirements and demands** depending on the client and the context.

Aeronautics

Renewable energy

Infrastructure

Cosmetics and sanitary material

Chemicals and Laboratory

High value and art

More than 100 years of experience.

“We make
the difficult
easy”

We adapt to customer needs

The Lamaignere team located at the Seville Airport office understands that each load is unique and deserves a specialized approach. That is why we offer a wide range of transport services, adapted to the specific needs of each client. **From general cargo to the most delicate and valuable things**, we are prepared to handle everything with maximum efficiency and care.

More details of the service:

Specialty Cargo Handling: Our highly trained and experienced team is ready to handle any challenge that comes to us. From cosmetics to live animals, from high-value goods to dangerous cargo, we have the experience and resources to ensure safe and on-time delivery anywhere in the world.

Project Cargo: We specialise in bulky cargo projects, offering customised solutions with specific lashing expertise to ensure efficient operations tailored to your specific needs. From planning to execution, we handle every detail to ensure the success of your project.

AOG Service: Air cargo AOG service is crucial to minimise aircraft downtime and to ensure the safety and efficiency of air operations. It is considered a vital part of the supply chain in the aviation industry, ensuring that aircraft are ready to fly quickly and safely in case of any emergency.

Integrated transportation and logistics

Nothing is more important than speed and reliability.

Every minute aircraft are on the ground (AOG) means lost revenue. We understand that a well-tuned spare parts network is crucial to your success of your operators. Our network provides you with the global reach.

Control of your shipments

We monitor your urgent shipments 24 hours a day, seven days a week. This minimizes downtime, maximizes the time your aircraft and gives you the visibility you need.

Project management

Get optimized parts placement, inventory, and visibility so you can ensure that the right part is always available in the right quantity at the right location.

[View video of Charter Arabia Saudi](#)

Full container load (FCL)

The customer books a full container to transport their cargo. This provides greater security and control over the cargo during transport, optimising efficiency and reducing the risk of damage or loss.

Sea groupage cargo (LCL)

For those customers who do not have enough cargo to fill a container, LCL (Less than Container Load) is available to combine cargo with other customers' cargo in the same container to share costs and make shipping more affordable for smaller cargoes.

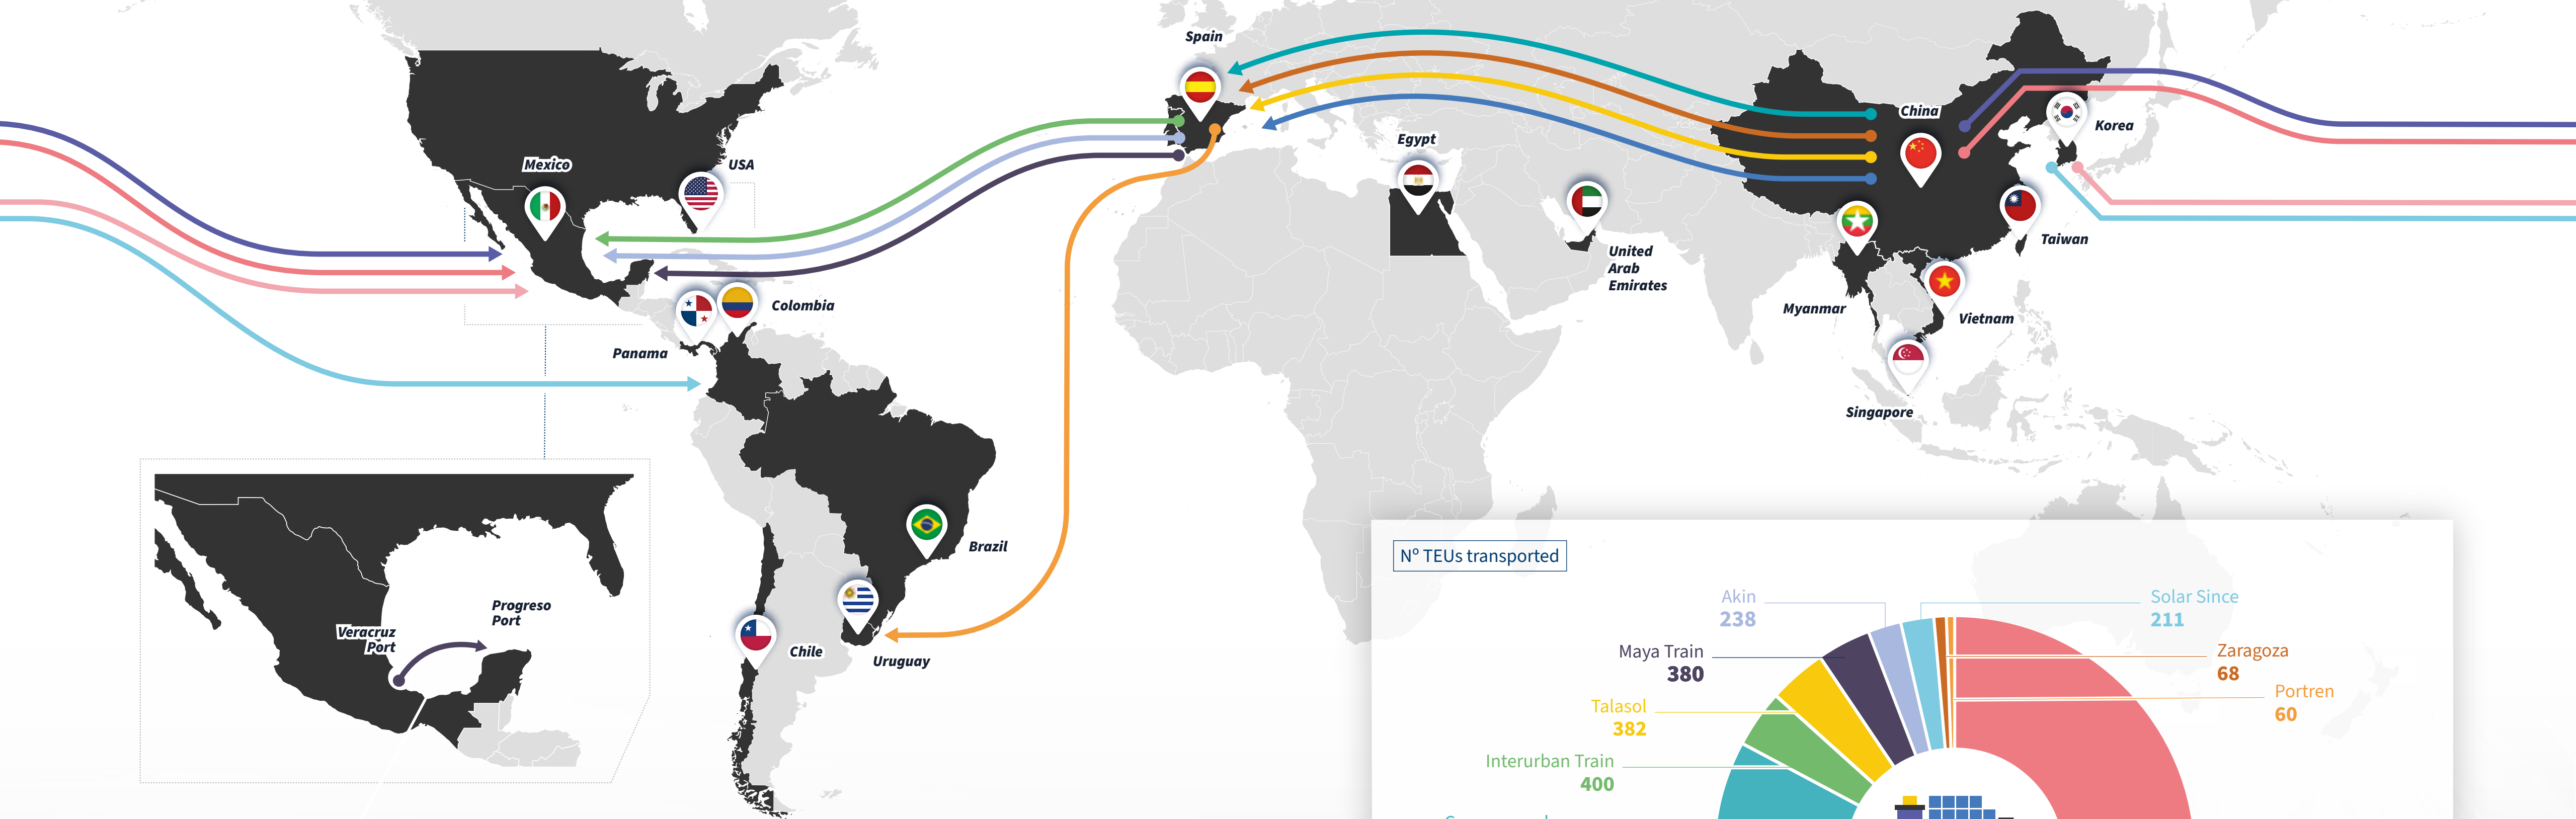

Bulky Goods Handling (Project Cargo)

For cargo that is too large or bulky to be transported in standard containers, we offer specialised services. This includes the planning and execution of project cargo, where specific equipment and methods are used to ensure the safe and efficient transport of oversized cargo.

Dedication in the process

We consider any project as a challenge and an opportunity to show to our clients the **flexibility and responsiveness** of our logistics and transportation services.

We have properly trained personnel and special machinery according to the handling of the oversized/project cargo operations.

We carry out the **lashing, stowage and preparation of all loads with maximum safety**, and always seeking maximum effectiveness and efficiency in operations.

Monitor your goods in Real Time

Generate reports with real data and receive instant alerts on the status of your goods.

Five Advantages of the Service:

- Information on the shipment's climatic environment.
- Provides hyper-accurate shipment location data.
- Impact sensors that can indicate damage.
- Monitoring of long-distance shipments.
- Incident information that serves as a basis for insurance claims.

TiveSolo 5g

Receive real-time reports and alerts from origin to destination. Every shipment is important and we understand the value of obtaining information throughout the transit process. The reports generated by this tool are beneficial for your business as they can be presented to your clients and the insurance company, demonstrating complete traceability, what occurs during the entire shipment, and identifying when an incident has happened.

customer service**

**Worldwide
connections**

Istmo de Tehuantepec project & Toluca-Mexico

A demanding operation that connected Spain and Mexico in the construction of a railway line in the Isthmus of Tehuantepec and Toluca located in Mexico.

Portrain project

A project with multiple origins and Uruguay as its destination, undertaking the transport of more than 140 wagons and workshop equipment.

Tren Maya project

A major project on a monumental scale carried out by the Mexican government, in which Lamaignere has been a logistics provider for several years, coordinating the transport of more than 450,000 tonnes of ballast stones.

Land transport logistics operator

Land shipping continues to be one of today's most demanded transport modes. Thanks to our network of partners, Lamaignere guarantees the prompt collection and delivery of shipments anywhere in the European Union, America, and Asia. We have the means available to complete the task effectively.

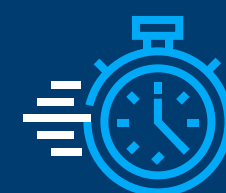

FTL: Full Truck Load

LTL: Less Than Truckload

Land groupage service

Dedicated service

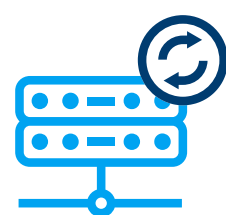

As a holder of the **AEO certification since 2012**, we are one of the **first companies** to obtain this certification **in Spain**. The AEO certification gives us great pride as it communicates to our interest groups our reliability as an agent that **complies with all customs regulations**.

Lamaignere, as an **authorized economic operator**, offers the following 4 advantages:

Advice from a
specialized
customs team

Updating of databases
to facilitate
international operations

Processing of all
types of documents

Customs office

We know how essential it is for importers and exporters to have their foreign trade operations supported by AEO-certified logistics operators.

**Fewer physical and
documentary controls**

**Priority in
Customs controls**

**Possibility of controls
outside the premise**

MORE PROJECTS

LAMAIGNERE
CARGO

L		Lessening the need for printing. By digitizing our documents we are able to reduce the amount of paper used.
A		Acquiring electric or hydrogen-operated trucks to reflect our commitment to move merchandise in an eco-friendly manner. All merchandise will be transported using these 100% Lamaignere owned vehicles.
M		Maintaining a healthy environment by planting trees.
A		Adopting a policy of using recycled paper for printing documents when inevitable.
I		Illuminating our offices through the use of LED LIGHTS only.
G		Gathering electrically-operated machines for use in our warehouses.
N		No to using material that does not contain recycled plastics!
E		Extending the life of our computers by recycling them.
R		Reducing garbage in our forests by participating in forest cleaning campaigns.
E		Eliminating plastic waste from our rivers and ports: Lamaignere allocates part of the profit generated from its maritime shipping business to cleaning the seas by removing tons of plastic in collaboration with a company dedicated to this task.

Born out of the need to contribute to social causes, the Lamaignere group, a private group with **more than 110 years of experience** in the freight forwarding sector, went a step further in the social front by creating the Lamaignere Foundation in 2017 to show the solidarity face of logistics.

Training programs for students and companies

At the Lamaignere Foundation, we train students and companies to broaden their knowledge of technical and practical aspects of the logistics sector, as well as to make sound decisions in their business operations.

Practicum programs for students

The internship programs we offer in the Lamaignere Group of companies aim to bring students closer to work reality by giving them practical experience, both nationally and internationally, that complements the training obtained during their academic studies and puts the knowledge acquired into practice.

Social works program

At the Lamaignere Foundation, we have an unwavering social commitment to help with causes that overcome barriers to access to resources and education, as well as those that assist underprivileged and vulnerable groups most in need of support.

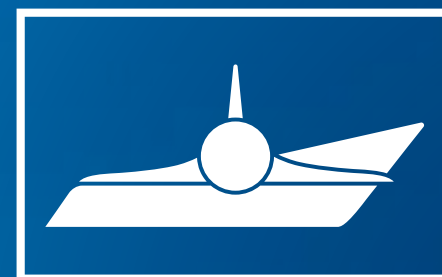

Job placement program

The Lamaignere Foundation has a job placement program for young people trained in the field. Through this program, companies can select candidates with the appropriate profile most aligned with their needs.

International cooperation program

Thanks to Lamaignere's extensive network of international offices, the foundation can build alliances that allow it to undertake social action projects that involve multiple countries.
