Sustainability

In each attitude, a shared future

We believe in the benefits of management model that is ethically, socially and environmentally responsible. For that reason we share a responsible attitude of sustainable growth, respecting the well-being of future generations, implementing standards of eco-efficiency and contributing to the development of the community that surrounds us.

The Mota-Engil Group

An international and diversified vision for the future

The Mota-Engil Group has a business record marked by a culture of entrepreneurship and innovation in a constant search for new horizons.

Mota-Engil is a multinational Group founded in 1946, focused on construction and infrastructure management in the sectors of Engineering and Construction, Environment and Services, Transport Concessions, Energy and Mining.

A leader in Portugal and with a consolidated position in the top, 30 largest european construction companies, Mota-Engil is established in 28 countries, in 3 distinct geographical areas – Europe, Africa and Latin America, maintaining the same standards of strict compliance, quality and capacity for execution in each market that allowed Mota-Engil to assert itself internationally.

With holdings in approximately 280 companies, Mota-Engil assumes a position in the market according with a unique and integrated strategic vision for the Mota-Engil of the future: a more international, innovative and competitive Group on a global scale.

In the civil construction sector, our challenge is the most qualified market, in detriment of more general work, being an objective to try to distinguish from the competition by searching for jobs that require greater technical expertise.

The building is a prominent segment of our activity with more than 70 years of know-how and experience. This business area is increasingly the engine of the international activity of the various companies associated with the business areas of the Mota-Engil Group, revealing a fundamental bet to generate capital gains and portfolio for the company. Prepared to respond to the many challenges in the construction, maintenance and management of buildings, Mota-Engil is responsible for the implementation of various construction projects. The presence and relevance of this Mota-Engil projects allows the populations of the places where these projects are executed to have a higher quality of life.
