Company Brief Introduction

NBS is a professional manufacturer located in Huizhou City, near Shenzhen. It is a company deeply focused on all aspects of new energy and vehicle power storage systems, including design, research, development, manufacturing and sales.

Products include Cylindrical, Prismatic, Polymer batteries in Lithium Iron Phosphate and NCM Series. We are committed to providing High performance, High Quality, High cost effective product solutions with comprehensive life cycle service. Our lithium batteries are widely used in applications of marine, RV, Golf Cart, Energy storage system, telecom base station, forklift, floor scrubber and cranking.

As a new energy and high-tech corporation, NBS is increasing its investments on R&D, providing better technical solutions to meet increasing demands from customers and contributing green energy for better environment and convenience.

CERTIFICATE DISPLAY

NBS LiFePO4 Batteries Better for your golf carts

What you may be concerned about the golf carts batteries?

? What kind of battery should i put in my golf cart?

💬 We highly recommend the lifepo4 batteries for golf carts

THE ADVANTAGES OF LIFEPO4 BATTERY

LONG CYCLE LIFE

Up to 4000 cycles

LIGHT WEIGHT

Around 70% lighter
than lead acid batteries

ULTRA SAFE

High stability and safety

LOW SELF DISCHARGE

Self discharge
<3% per month

GOOD TEMP. PERFORMANCE

-20-65°C
-4-149°F

FREE MAINTENANCE

No daily maintenance
save work and cost

? Can it support high discharge current?good for climbing hills?

💬 Yes, built-in customized BMS. Support high discharge current
150A/200A/250A/300A optional, much powerful for your golf carts

? how can i monitor my golf cart batteries?

💬 By Bluetooth monitoring
Lithmate neutral Bluetooth APP or customized your own brand APP

? We are golf carts leasing companies, can we track the
carts via monitoring the batteries?

💬 Yes! GPS function highly recommended!

? How to charge my golf carts batteries?

💬 We can provide chargers specially designed for golf cart batteries

NBS LiFePO4 Batteries
Better for your golf carts

- ✓ 10 YEARS

BATTERY DESIGN LIFE
- ✓ >4000

CYCLES
- ✓ ZERO

MAINTENANCE
- ✓ GPS
- Bluetooth
- ✓ 5 YRS

WARRANTY

- 36V/48V/72V System
 - Heating Function Optional
 - Customized BMS Solutions
 - High current 150A/200A/250A/300A
 - Customized internal/external display
- Drive Longer!

HIGH EFFICIENTY

22A output current, high-efficiency performance for electricity savings and shorter charge time.

SAFE PERFORMANCE

Input low-voltage & over-voltage protection,temperature protection

HIGH RELIABILITY

IP66 Protection Level
Aluminum Casting Shell

Output short circuit/reverse polarity protection

Output over-current/over-voltage protection
Automatic shutdown when fully charged

LiFePO4 Battery Specification for Golf Carts(OEM/ODM Acceptable!)

Model	Nominal Voltage	Nominal Capacity	Energy (KWH)	Dimension (L*W*H)	Weight KG(lbs)	Cycle Life	Mileage Per Full Charging	Standard Charge	Standard Discharge	Max Discharge	Quick Charge	Standard Charge	Self Discharge Per Month	Casing Material	IP Rating

Lithium Battery Technology

Energy Storage Systems Solar Power Supply

The benefits to install energy storage system

1. Enhancing energy security
2. Make the most of power
3. Environmentally friendly
4. Reduce electricity bills, long term benefit

Why Choose NBS Energy Storage Battery

1. Safety Guaranteed
2. Long Cycle Life
3. High Compatibility with most PV inverters
4. Modular Design, Flexible to extend the capacity
5. All-in One Solution
6. Easy Installation and Operate

All in One Solution for Residential Energy Storage System

LiFePO4 Batteries For RV

- ✓ 10 Years Battery Design Life
- ✓ 5 Years Warranty
- ✦ Bluetooth Monitoring
- ✓ Heated Function Optional

- **Extremely Long cycle life**
The battey capacity is over 80% after 1C charge and discharge under 100% DOD condition for 3,500 cycles.
- **Lighter in weight**
Only 25% of the weight of an equivalent lead-acid battery.
- **Modular**
Easy to be extended in parallel or in series for higher capacity or higher voltage.
- **Ultra safe**
Built in intelligent BMS, protection from over charge, over discharge,over heated ,short circuit,etc.
- **Free Maintenance**
Zero Maintenance, Save cost in long term
- **Eco-friendly**
Environment friendly, reduce the polution.

LiFePO4 Battery for Aerial Work Platforms

- ✔ **Built in Intelligent BMS**
Ultra Safe with BMS Protection, Safer Performance
- ✔ **Bluetooth**
Bluetooth Function Optional, Mobile APP Control
- ✔ **SOC Display**
Battery Real-time SOC
- ✔ **Heating System Optional**
With Heating Function, can work at Freezing Temperture

Lithium Battery Technology Perfectly Design for Dropping in Replacement Lead Acid Batteries Better Choice for Aerial Work Platforms

- **Longer Cycle LiFe**
Over 4000 Cycles, Longer Cycle LiFe than Lead Acid Batteries
- **5 Years Warranty**
After-Sales Gurranteed, Free Technical Support
Provide 5 Years Warranty
- **More Powerful**
Full Capacity, Lighter weight, Heavier Power
Strong, Durable, Powerful for Aerial Work
- **Free Maintenance**
Zero Maintenance, No Daily Maintenance
Work, Saving Cost in Long term

ABOUT US

- 1.16Years+lithium battery experience
- 2.All from China Top 3 Companies like BYD,CATL,HUAWEI
- 3.Your professional,strong,trusted partners in Motive Power Battery solutions,energy storage solutions and lithium iron phosphate replacing lead acid batteries
- 4.More than 100 Patents in BMS,Module,PCB Struture,etc.

- 1) Rich R&D Experience
- 2) Advanced Lithium Battery Solutions
- 3) Automatic Production
- 4) Complete QC and Testing System
- 5) Pass ISO9001

We have ability and confidence to help you achieve your idea of the battery solutions!

PRODUCT CASE

COMPANY ADVANTAGE

 Over 16 years industry experience	 Professional R&D and Sales Team	 OEM & ODM Acceptable
 Reliable Product Quality	 Fast Lead Time	 Aftet-sales Service Guarantee

Choose Lithmate,We Provide You A Satisfying Solution

WE LOOK FORWARD TO HEARING FROM **YOU!**
