

# NEDIAR

TECHNOLOGY & INNOVATION

PRODUCTS AND SERVICES

- **Nediar is an aeronautical company prepared bring innovation into different projects, while offering safety, reliability and training through every stage of the process**

# About Us

# Business Units

1. Simulators  
and Trainers

2. Ground  
Support  
Equipment  
(GSE)

3. Special  
Tools

4. Consulting  
Service

5. Environment  
3D Simulation

A photograph of an airplane cabin. In the foreground, a flight attendant in a red uniform and white scarf is smiling while serving a passenger. She is holding a tray with a white napkin and a glass. The cabin is filled with passengers seated in rows. Overhead bins and entertainment screens are visible. The lighting is bright and warm.

## 1. Simulators and Trainers

---

# A320 Mock Up

*Our products are designed to significantly improve the response and efficiency of the different activities of cabin crew*

***A320 Series trainer: interiors***

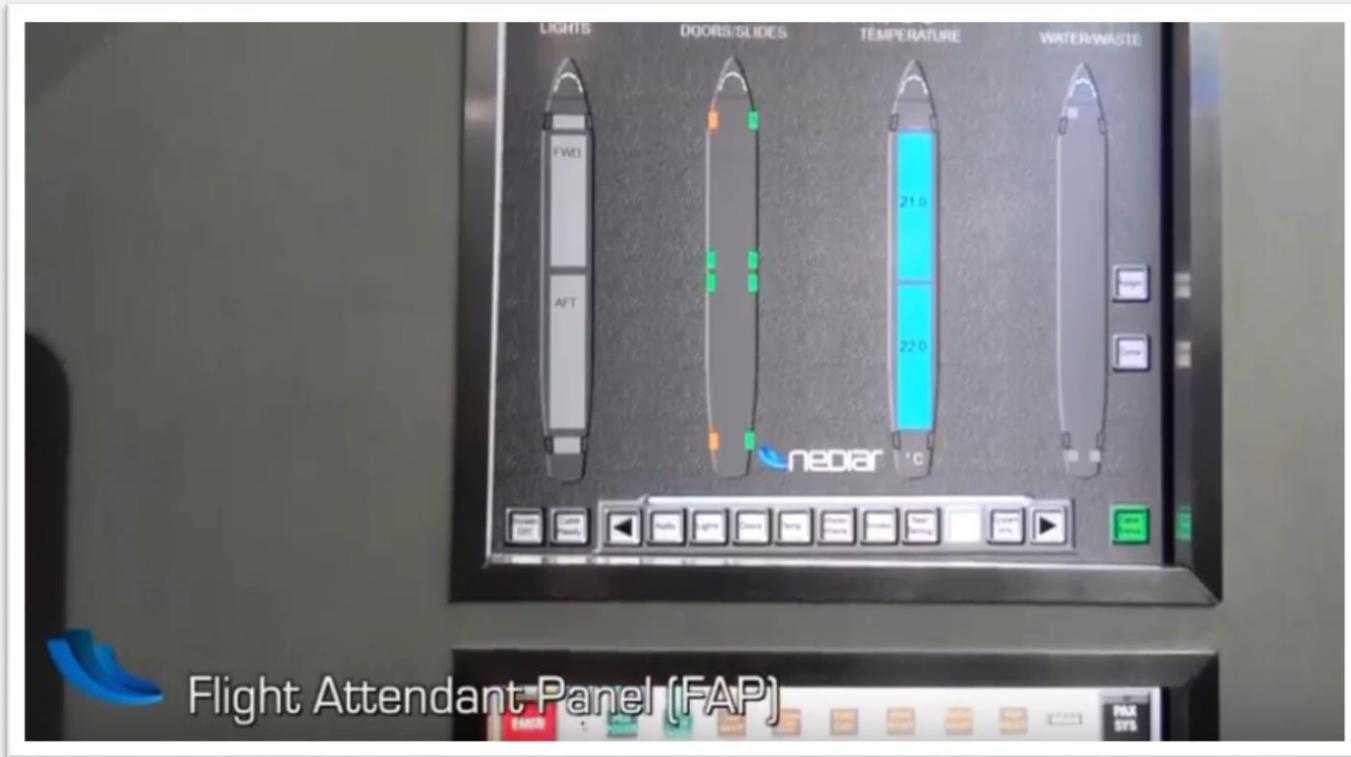

***A320 Series trainer: smoke simulation***

***Door access***

# Flight Attendant Panel (FAP)

# B787 Door trainer

# E190 Door trainer

# A320 Door trainer

# Slides / Rafts

## 2. Ground Support Equipment (GSE)

**nediar**

ENGINEERING SERVICES

# BENEFITS

- Reduction of accidents and work-related fatigue.
- Customized design in response to client's needs.
- Impact strength.
- Low weight and easy handling.
- Environmental impact reduction.
- Easy in situ assembling and disassembling.
- Resistance to UV and high temperatures.
- Safety and ergonomics according to OSHA standard

***Our products are an excellent support for aircraft maintenance tasks***

# Washing Equipment: Engine CFM 56

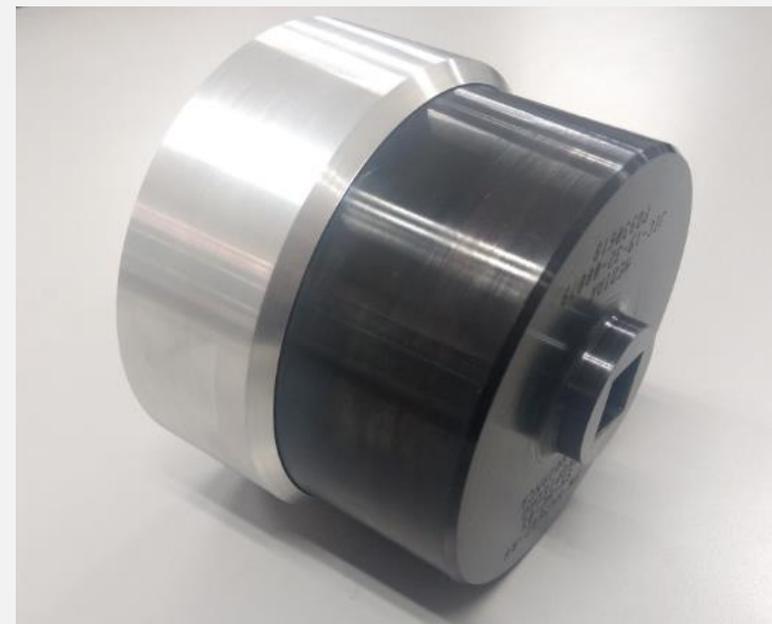

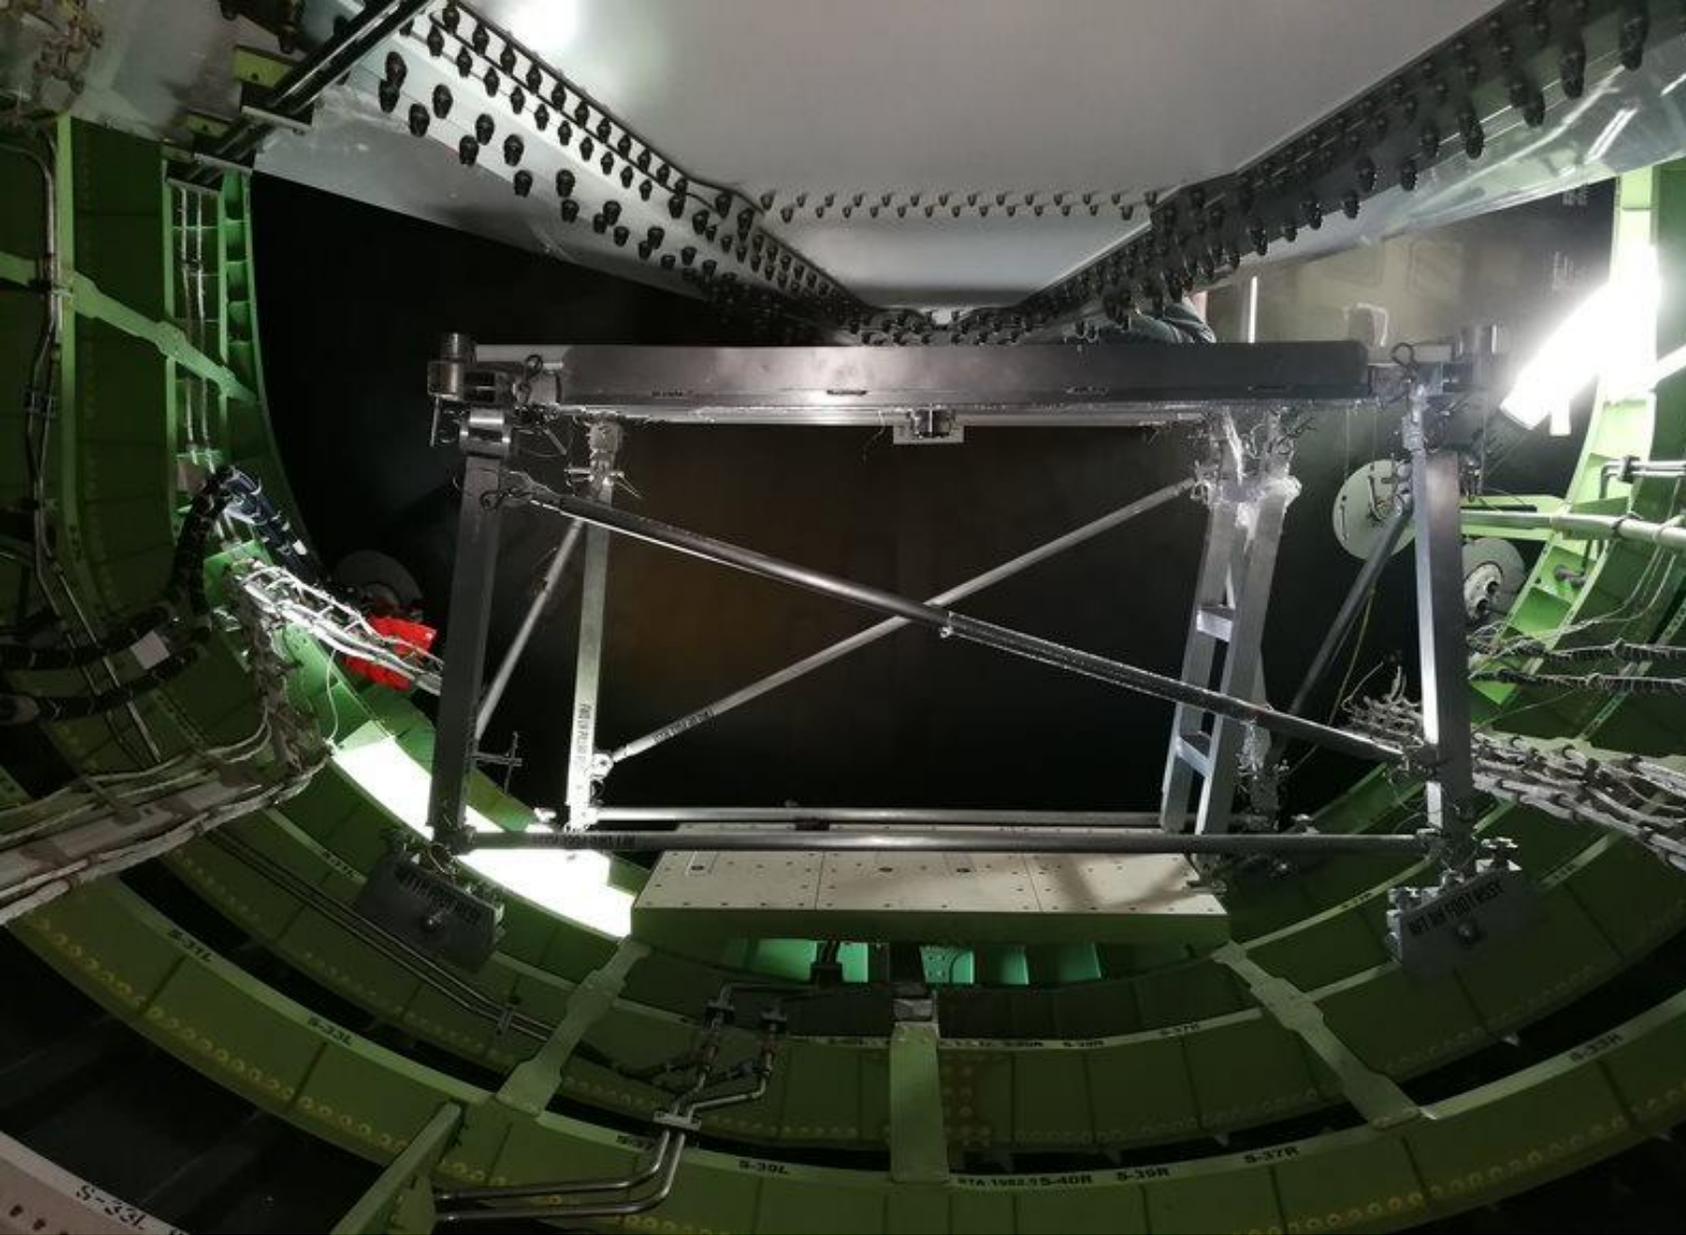

## 5. Special Tools

*We design and manufacture highly reliable tools, with specialized materials and traceable history according to the needs of our customers*

# Research and development: USB Charger

- Designed to provide electrical charge to external navigation devices. It's located in the control panel of aircraft

## 4. Consulting Service

---

# Nediar Consulting

Our management consulting services focus on our clients

We relies on a specialized team to help you find the propper solution for our clients needs

# We provide services for:

Airlines

Business and  
General Aviation

bright skirt

Aerospace manufacturers  
and suppliers

Specialty projects

bright skirt

# Our system – Nedar Acquisitions

Operations  
and need  
analysis

Specialized  
teams

Intelligent  
consulting

**Convenience, efficiency,  
safety and costs savings**

## 5. Environment 3D Simulation

# Virtual Training

Different simulated environments can be built to help the virtual training of work teams

# Augmented Reality

*We combine real and computer-based scenes and images to deliver a unified but enhanced view of the world.*
