

About Us

- Nueztra is a commercial brand by which a variety of products such as dry fruits and nuts are supplied and distributed to the bakery and pastry industries. Our main product consists of pecan nuts and we deliver them through three incorporated companies located in Mexico.
- As producers, we assure 100% quality in each and every one of our products, by operating through the entire supply chain including packaging and distribution.
- Nueztra has the facilities and capacity to produce, package and distribute around 200 tons of pecan nuts per year.

Competitive Advantages

- **Producer Price:** We produce our own products and have long-term contracts with other top suppliers across the country to guarantee year-round supply to our clients and offer first hand prices.
- **Seasonal Products:** At Nueztra we deliver seasonal products offering better quality and freshness.
- **Coverage:** We also offer anual contracts that include fixed prices to supply our clients who are interested on keeping their raw materials prices low.
- **Quality Control:** All products from our portfolio are constantly summited through microbiological analyses to guarantee proper sanitation.
- **Technification:** We include technical processes through the development of all our products, including electronic detection to separate the pecans from their shell.
