Welcome to PC Clinic Ltd, Your Premier Digital Solutions Provider for the Caribbean. For over nineteen years, we have proudly delivered high-quality solutions to our valued clients in the

Government, Education, and Corporate sectors. Our clients have come to rely on us for our exceptional service and outstanding after-sales support. At PC Clinic Ltd, we go the extra mile to ensure "We guarantee customer satisfaction."

Solutions We Provide:

- ICT Services
- Networking Infrastructure
- Computer Hardware & Software Sales
- Next Business Day Support
- Anti-Virus & Security Protection
- Computer Accessories
- Conference Room Solutions & Smartboards
- Cloud Solutions
- Great Customer Service

Our Affiliations:

- Adobe Platinum Reseller (Caribbean.)
- Microsoft Education Partner
- Dell EMC Partner
- Authorized Resellers for:
Symantec, Poly, Fortinet, Synology, Solarwinds, Lenovo, Huawei, Minitab, APC, Sophos, Zebra, Trellix, HP, Pentera, Zebra, Samsung Digital Signage

Adobe

PDF and E-Signature Solutions

Create, edit, protect, and collaborate on PDFs then move faster with Adobe AI and streamlined review workflows.

Acrobat Pro

Acrobat Pro

The highly secure PDF and e-signature solution with advanced tools, plus admin features.

**Adobe
Acrobat Studio**

Acrobat Studio

Everything in Acrobat Pro plus PDF Spaces, Acrobat AI Assistant, Adobe Express Premium, and admin features.

Acrobat Sign

stand-alone e-signature solution with unlimited seats, robust integrations, industry-ready compliance and advanced features.

Adobe Creative Cloud

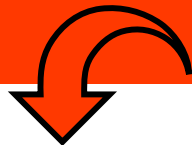

The ultimate creativity toolkit.

Work smarter and faster with the industry-standard tools pros depend on. Start with a single app or get 20+ creative apps with the Creative Cloud Pro plan.

Turn a sketch into a work of art. Make a film while you wait in line. Design a logo for your business or your life.

List of Creative Cloud Applications

- **Photoshop:** Image editing and compositing
- **Illustrator:** Vector graphics and illustration
- **InDesign:** Page design and layout for print and digital publishing
- **Premiere Pro:** Video production and editing
- **After Effects:** Motion graphics and visual effects
- **Lightroom:** Cloud-based photo service
- **Acrobat Pro:** PDF editing and security
- **Firefly:** Generative AI for creative tasks
- **Adobe Express:** Fast, template-based content creation
- **Audition:** Audio recording and mixing
- **Animate:** 2D animation and interactive content

- **Dreamweaver:** Website design and development
- **Adobe XD:** UI/UX design and prototyping
- **Fresco:** Digital painting and drawing
- **Bridge:** Centralized asset management
- **Media Encoder:** Video rendering and transcoding
- **InCopy:** Collaborative copyediting
- **Photoshop Express:** Quick photo editing on mobile
- **Fill & Sign:** Form filling and signing
- **Adobe Fonts:** Library for web and desktop
- **Behance:** Portfolio showcase
- **Adobe Stock:** Find the perfect image for your creative project

Productivity, and Cloud Solutions

Microsoft empowers organizations with a unified ecosystem of productivity tools, cloud services, security solutions, and device management capabilities. From Microsoft 365 to Azure and Teams.

Microsoft 365

Includes App like: Word, Excel, PowerPoint, Outlook, Exchange Online, OneDrive, SharePoint etc.

Microsoft Teams

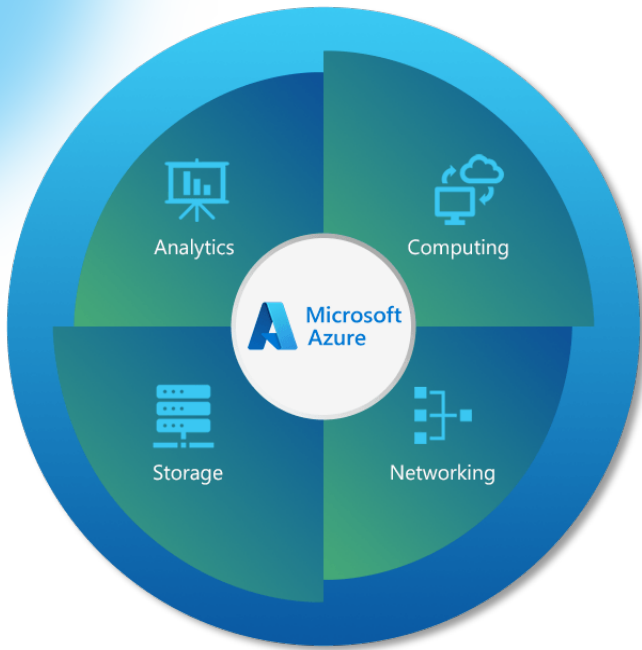

Capabilities:
Chat, meetings, and calling, Teams Rooms for conference spaces, file collaboration

Microsoft Security

Microsoft Defender for Endpoint
Defender for Office 365.
Defender for Identity.
Defender for Cloud Apps.

Microsoft Intune & Autopilot

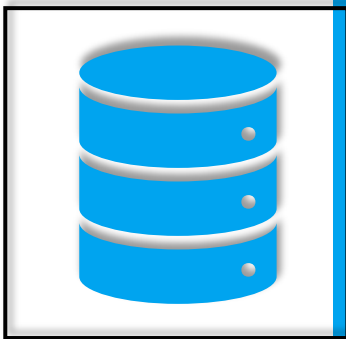

Zero-touch deployment.
Policy-based configuration.
App management.

Scalable Cloud Infrastructure for Modern Applications

Capabilities:

- Virtual machines & storage
- App hosting & databases
- Backup & disaster recovery
- AI, analytics, and automation
- Hybrid cloud with Azure Arc

Ideal for: SMEs, enterprises, and digital transformation projects.

Azure Services are Secure, Scalable, and Built for the Future

Analytics

- Gain real-time insights with Azure Synapse, Power BI, and Data Explorer.

Compute

- Run scalable workloads using VMs, containers, and serverless functions.

Storage

- Store data securely with Blob Storage, Files, and Disk Storage.

Networking

- Connect cloud resources with VNets, Load Balancers, and Firewalls.

Machine Learning

- Build, train, and deploy ML models using Azure Machine Learning with automated workflows and MLOps.

Cognitive Services

- Add vision, speech, language, and decision-making capabilities to your applications with pre-built AI APIs

AI Agents & Automation

- Automate workflows and enhance productivity with intelligent agents, copilots, and AI-powered business processes.

Dell Technology

Whether you're outfitting a small office, upgrading a branch location, or standardizing across multiple islands, Dell's new device lineup makes it easy to choose the right fit.

Security Driven Networking

Fortinet is a global leader in cybersecurity, delivering integrated, automated, and high-performance security solutions across the entire digital attack surface. With a unified platform powered by the Fortinet Security Fabric.

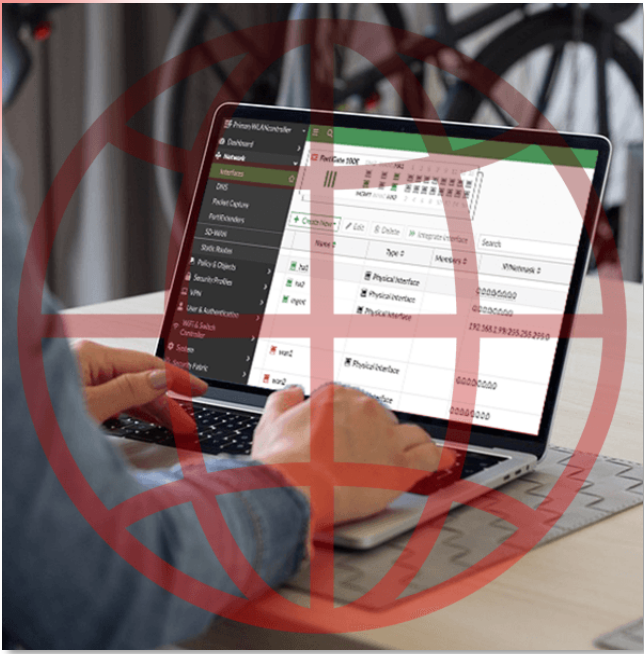

FortiGate (NGFW)
Industry-leading firewalls delivering high-performance threat protection

FortiGate Secure SD-WAN
Integrated SD-WAN with advanced security and application-aware routing

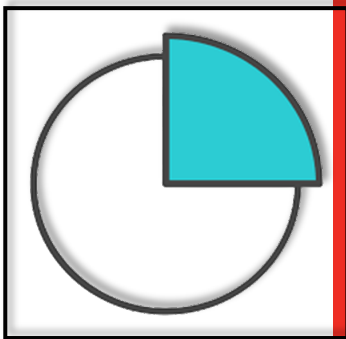

FortiAP Secure,
high-performance Wi-Fi with centralized management

FORTINET®

What Fortinet Helps Your Business Achieve

- Strengthen cybersecurity posture with unified, AI-powered threat protection
- Secure hybrid workforces across offices, homes, and mobile environments
- Simplify security operations with centralized visibility and automation

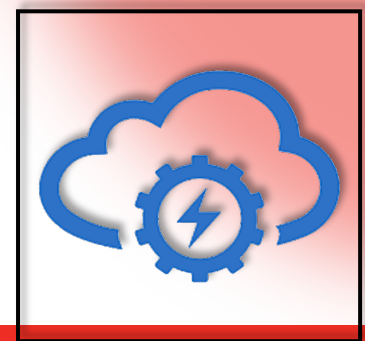

FortiAnalyzer
Centralized analytics, reporting, and threat intelligence

FortiClient
Endpoint Protection
Advanced endpoint security with EDR, VPN, and ZTNA capabilities

FortiEDR
Real-time detection, protection, and automated response for endpoint threats

FortiCWP
Visibility, compliance, and protection for multi-cloud environments

PENTERA

Automated Security Validation

For Real-World Cyber Resilience, Pentera is the global leader in Automated Security Validation, enabling organizations to continuously test their cybersecurity posture using real-world attack techniques

**PENTERA
CORE**

Pentera Core
End-to-end automated penetration testing across internal networks, endpoints

**PENTERA
SURFACE**

Pentera Surface
Continuous attack surface mapping and identification, spot potential attacker entry points

**PENTERA
CLOUD**

Pentera Cloud
Validates misconfigurations, privilege escalation paths, and exploitable weaknesses

by Schneider Electric

APC

APC by Schneider Electric delivers reliable, efficient, and scalable power protection solutions designed to keep businesses running during outages, surges, and electrical instability. With models tailored for home offices, SMBs, server rooms, and enterprise environments.

APC Easy UPS
Easy UPS provides entry-level, cost-effective power backup and surge protection for essential equipment.

APC Back-UPS
Back-UPS delivers dependable battery backup and surge protection for computers, modems, routers, and home office equipment.

APC Smart-UPS
Smart-UPS is the industry standard for protecting servers, storage, and networking equipment

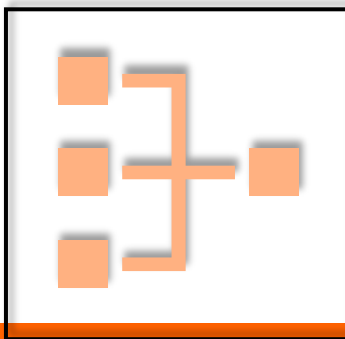

Monitoring & Observability

SolarWinds Observability is a cloud-native, full-stack monitoring and analytics platform designed to give organizations complete visibility across applications, infrastructure, networks, and digital experiences.

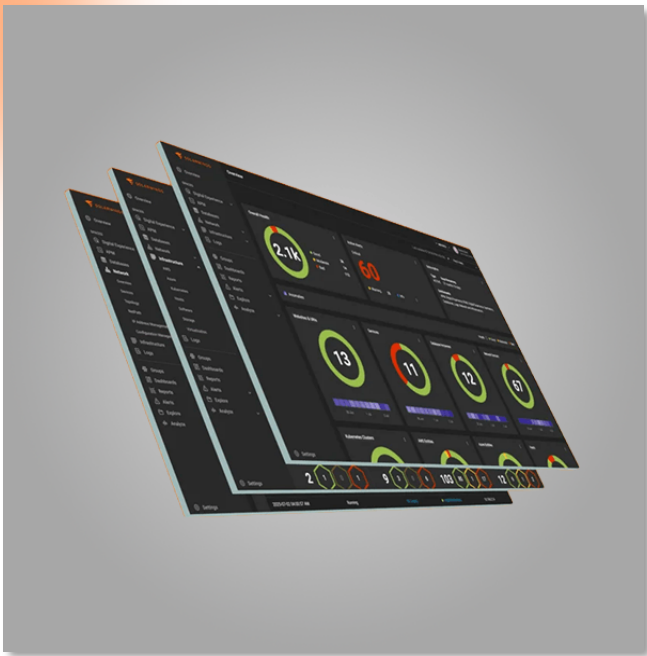

Observability SaaS
SaaS-delivered observability to simplify management of cloud-native and hybrid IT environments

Network Performance Monitor
Proactively detect, diagnose, and resolve network performance issues across hybrid IT environments

NetFlow Traffic Analyzer
Automate network configuration, compliance, and change management across multi-vendor environments

What SolarWinds Observability Helps Your Business Achieve

- Gain end-to-end visibility across applications, servers, networks, and cloud services
- Detect and resolve performance issues before they impact users
- Reduce downtime with proactive, AI-driven insights

Virtualization Manager
Optimize and troubleshoot your virtual environment with powerful visibility and predictive insights

Access Rights Manager: Manage and audit access rights across your IT infrastructure.

Security Event Manager: Improve your security posture and quickly demonstrate compliance with an easy-to-use, affordable SIEM tool.

Storage Resource Monitor: Storage resource management and reporting for health, performance, and capacity of multi-vendor storage.

Network Configuration Manager: Automate network configuration, compliance, and change management across multi-vendor environments.

Server & Application Monitor: Comprehensive monitoring for servers and applications across hybrid and cloud environments.

IP Address Manager: Simplify IP address, DHCP, and DNS management with centralized visibility and control.

Patch Manager: Patch management software designed to quickly address software vulnerabilities.

HP Products

HP delivers a comprehensive portfolio of business-class devices and printing solutions designed to support modern work environments. With a strong focus on security, sustainability, and productivity.

Laptops

Pavilion, OmniBook, EliteBook, Omen

Desktops

All-In-One, Pavilion, ProDesk, Elite, EliteDesk, EliteStudio, Pro, Thin Client, Workstation, OmniDesk, Omen, Victus

Printers & Scanners

Inkjet, Officejet, LaserJet, DesignJet, ScanJet

Inks and Toners

Video & Voice Solutions

Poly delivers enterprise-grade voice and video solutions designed to make collaboration feel natural, inclusive, and effortless whether teams are in the office, at home, or on the move.

Networking, Cloud, and Collaboration

Huawei delivers a comprehensive portfolio of ICT solutions designed to help organizations modernize their networks, strengthen connectivity, and accelerate digital transformation.

Smartboards
IdeaHub K3 and IdeaHub Board 3 are next-generation intelligent collaboration devices

Access Points
AirEngine Wi-Fi 6/7 Next-generation wireless access points delivering ultra-fast, stable connectivity

Switches
Campus Switches, Core Layer Switches, Data Center Switches

Data Center

Huawei delivers end-to-end data center technologies designed to help organizations build high-performance, energy-efficient, and scalable IT environments. From compute and storage to networking and modular data center infrastructure.

Cloud Data Center
Elastic, agile, stable, sustainable, secure, and reliable services enable digital transformation

PRODUCTS
All-Flash Storage, Data Center Network, Optical Transmission, Huawei Cloud Stack, Datacenter Virtualization

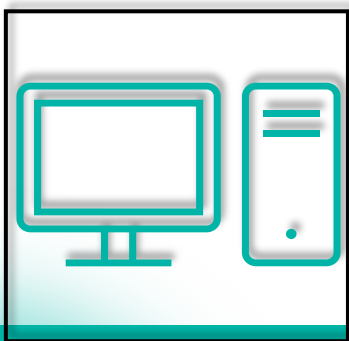

Edge Data Center
Simple, Efficient, Lightweight, and Highly Reliable, Enabling Digital Transformation of Small- and Medium-sized Enterprises

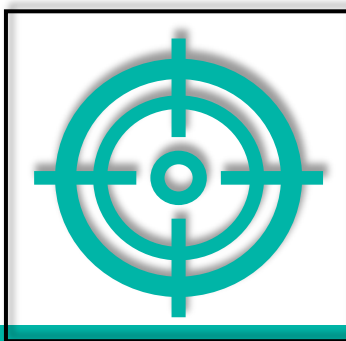

Trellix

Adaptive XDR and Endpoint Security

Trellix is a global cybersecurity leader delivering Extended Detection and Response (XDR) and advanced endpoint protection designed to help organizations build a living, learning defense.

Endpoint Security
One agent for attack surface reduction, protection, detection, forensics, and remediation across your hybrid environment

Threat Intelligence
Empower your efforts with mission-critical insights on the ever-evolving threat landscape

Data Security
Protect the data that matters.

Trellix

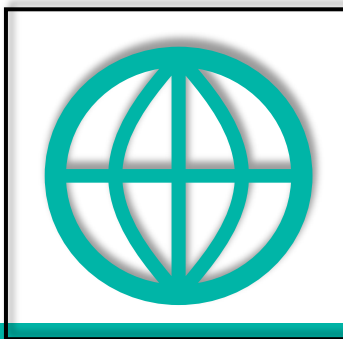

What Trellix Helps Your Business Achieve

- Strengthen security posture with unified XDR visibility
- Detect and respond to threats across endpoints, networks, cloud, and email
- Protect remote and hybrid workforces with advanced endpoint security

Email Security

Collaborate confidently with adaptive, automated security for email and collaboration tools

Network Detection and Response

Eliminate network security blind spots with Trellix NDR

Security Operations

Integrated, AI-powered SecOps to accelerate investigation and response

LenovoTM

Smarter Technology

Lenovo is a global leader in business computing, delivering reliable, secure, and high-performance devices and infrastructure solutions for organizations of all sizes. With a portfolio spanning laptops, desktops, workstations and servers.

SOPHOS

Take Control of Every Threat

Sophos is a global cybersecurity leader delivering advanced protection across endpoints, networks, email, cloud workloads, and identities. With a unified cloud platform.

Sophos Endpoint & Server Protection
Next-Gen Defense
Against Malware,
Ransomware, and
Exploits

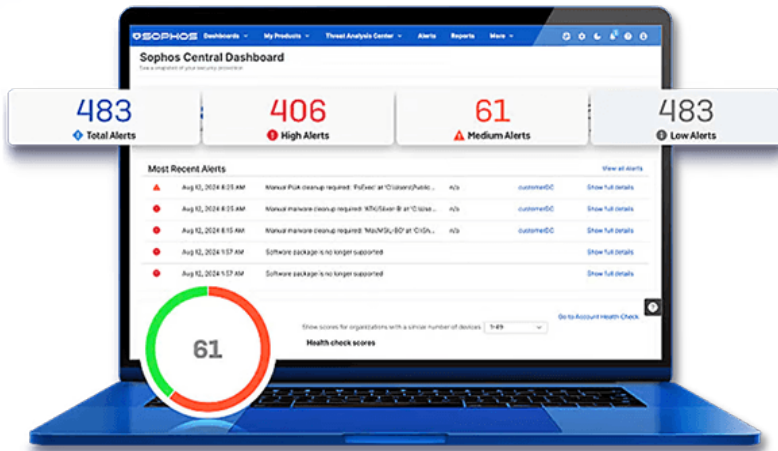

**Sophos Managed
Detection &
Response**
24/7 Threat Hunting
and Response by
Expert Analysts

Sophos Firewall
High-Performance
Network Security with
Deep Visibility

SOPHOS

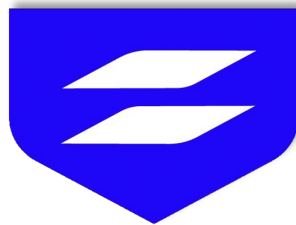

What Sophos Helps Your Business Achieve

- Strengthen endpoint and server protection with next-gen defenses
- Detect and stop advanced threats with 24/7 MDR
- Secure networks with high-performance firewalls and Zero Trust access

Sophos Email Security

Protection Against Phishing, Malware, and Business Email Compromise

Sophos Cloud Security

Visibility and Protection for Cloud Workloads and Identities

Sophos Central

Sophos Central provides a single cloud dashboard for managing endpoints, firewalls, email, mobile devices, and cloud workloads.

Real-Time Data Capture

A leader in frontline technology, delivering rugged mobile computers, barcode scanners, printers, RFID solutions, and intelligent software that give organizations real-time visibility into their people, assets, and workflows.
