

Offer your loan program at any retailer's point of sale with zero POS integration.

Offer Financing at any POS

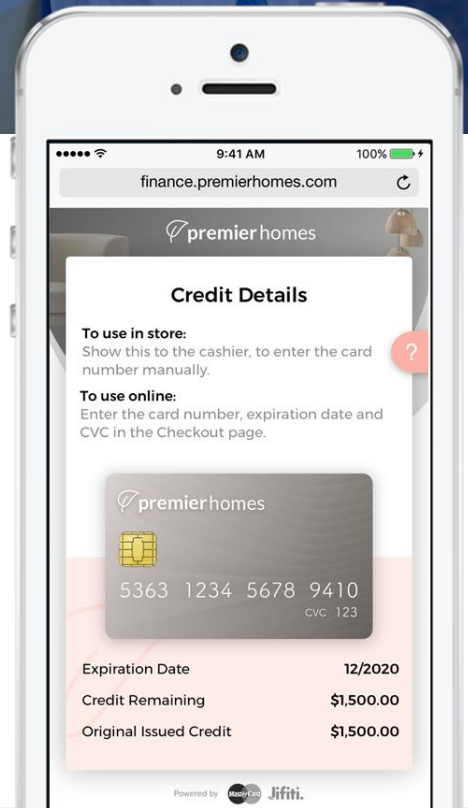

Jifiti's turn-key finance platform enables you to utilize your existing loan program and instantly transform it into a cutting-edge digital POS program that can be offered by any merchant at their point of sale.

The program includes:

- A hosted, white labeled, and fully customized application form for the shopper to apply on their own mobile device or tablet.
- A seamless disbursement of the funds mechanism via the platform's virtual PVL card on the Card network.

Scale your lending business

The built-in merchant onboarding platform allows you to acquire, onboard and manage hundreds of new merchants each month. The self service flow allows you to deploy your loan program in their stores within days.

One integration. Endless retailers.

One-time integration between your systems and Jifiti's platform

Consumer applies for financing on your platform

Once approved, **Jifiti issues a digital prepaid card** that can be used only at that retailer

Consumer uses the digital pre-paid card to **check out in the store**, just like they would with any card
