

Management Consulting Keys To Unlock Your Business Success®

About the company

There is a performance gap which separates average organizations from those which are confident in their contribution to Barbados' business activity, exports and growth.

The Government of Barbados has issued an earnest call for growth in the economy buttressed by a modern public sector, export-competitive sectors, renewable energy solutions and sustainable entrepreneurial activity. Indicative to this urge from Government is that firms (small, medium and large) are performing at their best—structurally, functionally, and financially. It also most certainly means the public sector, which drives a significant percentage of activity in the economy be the conduit for business facilitation.

Performance Pro Business Solutions (PPBS) is a proud 4-year old management consulting Barbadian company whose GOAL is transforming organization performance and whose MISSION is the development performance tools and solutions to enable companies to reach their maximum potential—whether public or private sector. With tools in hand companies can navigate their own success and contribute to the larger prosperity tool to support Barbados' long-term development.

If there is a performance gap; PPBS can assist!

About the consultant

OLIVIA CHASE is a business economist with a passion for linking micro-sustainability to the macro-development of small developing states. She is a mother, entrepreneur, Certified Management Consultant (CMC), postgraduate research student at the Cave Hill Campus and Managing Consultant of Performance Pro Business Solutions. She holds a graduate degree in Economic Development and International Trade (Merit: 2003) from the University of Reading in the United Kingdom and an undergraduate degree in Economics and Management (Upper Second Class Honours: 2000) from the University of the West Indies, Cave Hill Campus in Barbados.

Fuelling her professional and research experience are organisational development and performance management methodologies in Public Sector Performance Management, Strategic Planning, Building High Performance Organizations, Public Sector Programme Budgeting and Process Mapping. Her professional skills also extend to economic policy development and value-chain analysis (an area in which she is published).

In the area of professional development, she has recently completed, with distinction, a project management diploma with Cambridge International College, December 2018. She has also completed short courses in sustainable procurement, global management methodologies, and development financing. She will shortly embark on further professional certification in Six Sigma methodologies.

Olivia Chase, CMC, MSc.,
