# ¿WHO ARE WE?

Ecuadorian company formed by young entrepreneurs in 2016.

We manufacture and distribute quality products from micro-farmers from Ecuador with all required safety certifications, USDA Organic and EC-BIO-141 Ecuador Agriculture.

Product types ranging from grains to packaged finished goods.

Ecuador is one of the key suppliers of Super-food products in the world.

# MISSION

To produce products that preserve the environment and avoid the use of chemical substances such as hazardous pesticides.

# VISSION

To introduce a new standard for healthy nutrition around the world.

# CORPORATE RESPONSABILITY PILLARS

## Equality

We support woman's development and place them in leadership roles within their communities

## Associativity

Resources, skills and talents are shared to accomplish mutually beneficial goals

## Social Responsability

## Sustainability

We encourage the growth and development of local production capabilities

## Social projects

It's essential to help farmers get prepared for the escalating demand for quinoa in global markets
