QUALITY POLICY

Procesadora Bayano S.A. is a company dedicated to the production of quality steam dried fishmeal and fish oil. Our family of over 150 employees is committed to this goal, guaranteeing the premium nature of our products with extraordinary quality management, environmental and social responsibility, occupational health and safety management, strict traceability, and careful monitoring of the sustainability of our resource.

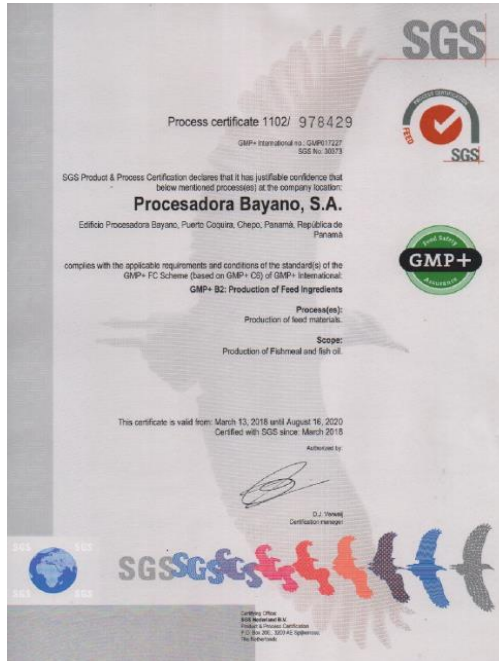

PROCESADORA BAYANO S.A.

CERTIFICATIONS

GLOBAL STANDARD OF RESPONSIBLE SUPPLY. IFFO RS

We guarantee our fishmeal and fish oil comes from responsible and authorized fisheries, in accordance with good manufacturing practices and in compliance with legal requirements.

PROCESADORA BAYANO is certified in the IFFO RS improvement program.

GMP+ B2

We produce fishmeal and fish oil intended for animal consumption in accordance with the high levels of quality and safety required by our customers in the European community.

PROCESADORA BAYANO S.A.

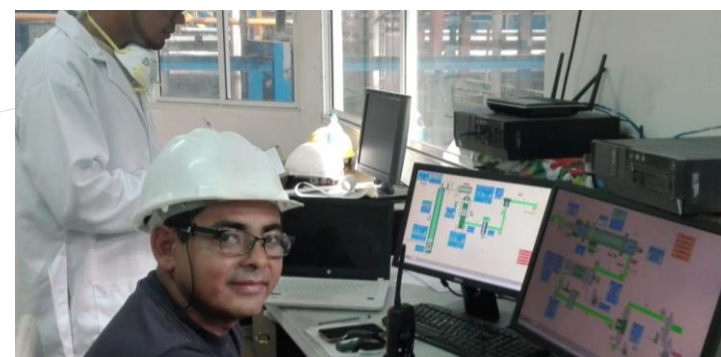

PROCESSING PLANT

Our modern plant incorporates the latest plant process automation technology and machinery to ensure consistent levels of quality.

By having HAARSLEV design and build our plant, we ensure we have only the best equipment and the most efficient process.

Our processing line includes the latest generation steam dryer, which through a slow drying process, guarantees the conservation of nutrients in our products and excellent digestibility.

PRODUCTS

FISHMEAL

We produce excellent quality fishmeal with high levels of digestibility and nutritional characteristics with a range of protein levels to accommodate our customers.

Our fishmeal and fish oil products have the IFFO RS IP certification guaranteeing that the food and nutritional value come from sustainable sea sources.

Our fishmeal and fish oil are produced with the highest standards meeting the needs of our most demanding clients and markets such as aquaculture, food for pets, and farm animals.

FISHOIL

Our fish oil is ideal for different industries, we offer an EPA + DHA minimum of 20%, ideal for the development of very important, unique and enriched nutritional supplements.

We also produce excellent quality fish oil with high nutritional value, ideal for aquaculture and the pet food industry since it guarantees an optimum growth for the species that consume it.

FLEET

Our fleet is composed of four well equipped Seiners with refrigeration systems to assure quality of our product. This allows our vessels to return with raw material that retains its freshness and leads to fishmeal and fish oil of the highest nutritional value.

HUMAN TALENT

Our large PROBASA family consists of over 150 workers committed to the organizational objectives aligned to our values and oriented to leadership, innovation, and social and environmental responsibility. They are the strength and heart of our company. We are committed to their personal and professional development through constant training and qualification programs.

We have a staff of high-level foreign professionals who have trained excellent Panamanian technical operators, this compact team achieves great results of efficiency and effectiveness in the process of making fishmeal and fish oil.
