

**AGROSELLER**

## **AGROSELLER GROUP**

We are bolivian producers, manufacturers and traders of superfoods in bulk and processed products made of our own raw material. We work as the exclusive marketing part of our associated independent producers and agroindustrial companies, but we also count with specialized processing companies that are part of AGROSELLER holding:

### **ORGANIC FARM**

Company in charge of aimed planting according to our clients requirements.

### **FLOUR TECHNOLOGY**

Company specialized in the production of flour and lyophilized powder.

### **SUPER OILS**

Company specialized in the production of vegetable oil.

### **ENERGY & POWER**

Company that develops and promotes clean energy.

As a commercializing company, we offer the main advantage of counting with special agreements made with our independent producer partners, assuring them a fair price for their products and having us competitive prices for our offers.

As a legally established company in Bolivia, we assume all the corresponding responsibilities for the purchasing process, and we also guarantee our services. We count with all the parts of the logistic chain, so our clients get their products in the most efficient way possible.

All our products match high quality standards in Organic and Conventional grains, flours and oils.

We count with CERES and several other certificates according to the products.

We also trade finished products for retail with private label.

**Our main interest is to facilitate the acquisition process for our clients, reason why we are very flexible with the terms of our services.**
