KEY RING THAT SAVES TIME

LA BHAI ENTERPRISES (P) LTD. To eliminate the increasing confusion of keys in our own company, we have discovered this simple method. Which looks like a great gift. This item has been kept folding so that the consumer can easily open it and write the identification of the key as per his need and put it in the ring.

Security and strength:-

1. Despite being folding, it is water proof. If a child washes it with water or gets wet in the rain or accidentally falls into a bucket full of water, water will not enter the ring. Because its structure is such that even after falling in water, the ring is capable of protecting the paper sitting inside it.
2. In terms of strength, it will neither break nor crack if children throw it on the courtyard. The color will not fade even in strong sunlight.

To write:-

The rings are marked at three places on the cover runner. Where you can open it easily with a finger gesture. After opening the key ring, you can gently put the writing paper (photo, name, address, phone number) on its screen and by joining both the parts of the open ring (ring) and pressing it with light pressure, this "keyring frame" is formed. It will fit with the voice. In this way the user can change the photo, name, address in this ring whenever he wants.

Clear confusion:-

We often keep and forget the keys which are less used and when we get them after four-six months, we do not remember that the key is somewhere else. This ring completely clears up many such small confusions with keys, hence there is no need for a person to put any stress on his mind.

More chances of getting the key back if it is lost:-

Phone number and any phrase can also be inserted in the ring like – The person receiving the key is requested to please make a missed call once.

Place of use:-

Every house, whether small or big. In hotels, factories and companies, showrooms and markets, on travels and transports, in post offices and banks, in police stations and military camps, in schools and colleges, in hospitals and cinema theatres. This ring will remove confusion in the keys of every temple-mosque, every government office and every small and big vehicle.

Write in use:-

Names of rooms or numbers of rooms.

Dear Sir,

Please find below quality rating scored by your company against supplies made in Sep-2020,

VENDOR	NAME	RATING (%)	GRADE
666335	I A BHAI ENTERPRISES PVT LTD	82.51	B

This quality rating is below our acceptable limit and note that future business cannot be assured if we do not see significant improvement in your product quality being supplied to us in this quarter. This rating is only based upon usage decision awarded at the time of incoming inspection. It does not include line rejections and the rating may vary on inclusion of the same. You need to send us corrective action plan being taken for improving product quality within next three working days.

If no improvement is seen in the consecutive two quarters we will be forced to close our business with your company.

Each receipt is assigned usage decision (UD) code based on the quality of incoming material as follows:

Incoming Usage Decision (UD)	Marks obtained per supply
Accepted	100
Accepted under deviation	75
Accepted after segregation	60
Accepted after rework by us	40
Accepted after rework by Vendor	40
Rejected	1

VQR is calculated by the total usage score to total nos. of lots received.

Feedbacks for individual rejected lots are already informed to you through rejection note for taking corrective action from time to time.

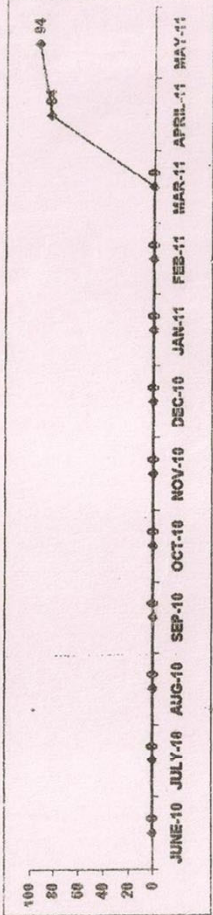

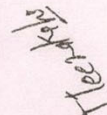

Please ensure that quality of components supplied must be as per our approved drawings & specification.

Looking forward for a fruitful long term business association with you.

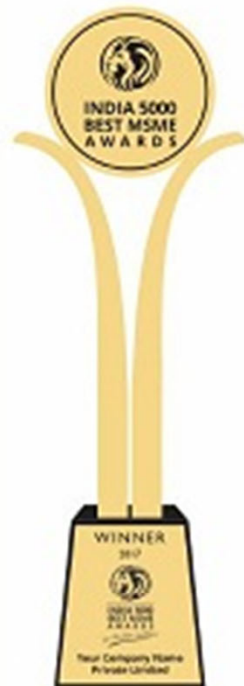

With Regards,
Abhishek Mishra
