

# PAPER CUPS

**apolo**<sup>®</sup>  
EMBALAGENS

## EXPERIENCE AND QUALITY IN THE MONUFACTURE OF PAPER CUPS

### ISO 9001 CERTIFICATION

The company's quality management is monitored by the ISO 9001 international standard. It means that its entire manufacturing process is subjected to rigorous control processes, giving total reliability to its products. **Apolo Packaging** will soon have other ISO system certifications, seeking to maintain leadership in its segment.

### ANVISA CERTIFICATION

**Apolo Packaging** has an important document issued by ANVISA, granted after rigorous and regular inspections at its facilities - ANNEX 10. This is a Certificate of Conformity regarding hygiene, organization, care and jealousy in the handling of containers destined for consumer foods immediate. Know more and demand this seal.

### FSC CERTIFICATION®

**Apolo** uses in its packaging certified raw material when requested by the customer. FSC attests that the papers and cards used come from certified forests, in accordance with strict environmental criteria defined by the Forest Stewardship Council. This practice ensures sustainability, preserves the environment and respects workers in the sector.

### BISPHENOL FREE PACKING - A

Learn more, and demand this award. It is a toxin commonly found in many types of coatings, including food packaging films. It has the potential to cause severe damage to health. The packaging of **Apolo Packaging** is free of this substance, through the exclusive use of certified raw material and inspected by sector control bodies.

## TRAJECTORY OF 47 YEARS

Gráfica Clichetec was founded on April 4, 1972 with the purpose of manufacturing clichés for the typographic printing system. It was the Clichetec technique of producing CLICH. Five years later it became conventional graphics, already operating off set machines. In the 1990s he moved to graphic publishing and produced hundreds of books, newspapers and magazines. At that time the carton packaging segment was implanted, and it evolved to this exclusive niche market. Currently its graphic park is one of the most modern in the country. Since the cliché is practically extinct, it is difficult to spell in the online world and unknown to the new generations, Clichetec is now migrating to a new name - Apolo Embalagens. This is your definitive name from 2018.

## PHYSICAL STRUCTURE 6800 m<sup>2</sup>

Conceived and executed to produce carton packs for food, medicines, cosmetics and others, the factory floor of Apolo Packaging, with 6,843m<sup>2</sup>, has flow and internal processes that guarantee the hygiene, quality and functional safety of its products. State-of-the-art machinery, technical upgrades, internal and external certifications, worker training, raw materials, supplies and best quality consumables are strict protocols used in the day-to-day operations of the factory. They thus attest to the quality and safety of the packages, which are worked from conception (creation of the art) until dispatch in hygienic vacuum sealed bales.
