

Partnership Proposal: JudyKups Trading

Introduction

JudyKups Trading is a dynamic micro trading company specializing in the agriculture sector, focusing on the food and cosmetics industries. We also offer consulting services in the alternative energy and mining production sectors. Our company is poised for growth, and we are actively seeking partnerships with well-established food supply companies to help us meet the increasing demand from our potential customers. This demand requires us to achieve exportation status through a qualifying partner company.

Partnership Proposal

We propose a partnership with your esteemed company, leveraging your expertise and capacity to help us fulfill our existing customer needs. Our clients are eager to purchase our food products, but our current capacity limits our ability to meet the demand. By partnering with us, we can ensure a consistent supply chain that meets the expectations of our buyers.

Minimum Order Requirements

Our clients require that the minimum order for each commodity be between **30,000 and 100,000 metric tons**. This scale of operation necessitates a partnership with a company that can demonstrate a proven track record in managing large supply orders.

Current Requirements

Below is a table outlining our current requirements for potential supply orders. We kindly request that your company provides evidence of previous supply activities and the capacity to fill the gap we have identified.
