## STORY OF A BUSINESS

Claudia and Carlos Cordero, brother and sister as well as business partners, got degrees in international business to then start looking for business opportunities. In their search in different industries, they found alpaca was a world-class fiber. Resistant and long-lasting, alpaca is heat-preserving but also capable of keeping you fresh when it gets warm. Encouraged by their findings, they created Peruvian Traditions, a firm specializing in alpaca garment making.

### Design & Collection Management

- Costing, Sampling & Production Lead Times
- Design & Collection Planning
- Spec Development

### Manufacturing Management

- Pre- Production Planning & Control
- WIP Reports
- Stock Management

### Qlty. Assurance & Qlty. Control

- Fabric & Garment Testing
- Qlty. Monitoring & Inspection

**Who made  
my clothes?**

We are part of the Fashion Revolution international movement. We believe that fashion can be made in a safe, clean and beautiful way, in which creativity, quality environment and people are valued equally.

## CUSTOM DESIGN SERVICE

The sky is the limit when creating your own and unique designs. You can do the creative pattern development yourself or you can explain your ideas to our designers.

- Prototype development: from 2 to 5 weeks, depending on the product design, yarn or fabric.
- Production: from 4 to 10 weeks, depending of quantity and designs.
