

PHLOX Networks

About Us

PHLOX Networks is your perfect IT companion. We integrate structures, devices and networks for real estate developments, both residential and commercial.

Our Mission

Our mission is to empower businesses and homeowners associations with reliable, cost-effective, and secure technology solutions to enhance the safety and convenience for residents and businesses. We aim to boost connectivity, streamline operations, and foster stronger, more efficient security and communication channels for our clients.

Tailoring Technology

We offer innovative solutions in communications for our clients, from virtual VoIP PBXs, IVRs, Integration, Contact Center infrastructure, among others.
