

QUIENES SOMOS.

We are a family-owned company that has dedicated more than a decade to growing, drying, processing and exporting top-quality D'Ente and President prunes. Our product portfolio is also complemented by other dried products such as raisins, walnuts and other derivatives of our processes such as prune puree. Industrial and trading activities are done in our own facilities located in San Rafael, Mendoza Province, Argentina. Our human capital and high-tech equipment in addition to an important Integrated Growers Network allow us to provide our clients with a stable supply of top quality Tenderized Pitted and Unpitted Prunes as well as Natural Condition and Industrial Use Prunes. Grower's integration carries important advantages for clients regarding the tracked raw material provision security with high quality and uniformity standards due to the application of good agricultural practices shared by all integrated growers. Owing to this successful process of grower's integration, the company has become in one of the main exporters from Argentina.

GOOD WORK – GOOD RESULTS.

Customers from more than 40 countries actively participate in our commercial development, jointly building a relationship of cooperation. The benefits of acquiring Pietrelli Fruit products are based on the safety of a certified quality product, efficiency in logistics processes and extensive knowledge of the needs of different markets. Satisfaction of each client is not a coincidence, the experience of over 15 years, training our team, investing in processes and technologies and listening to the client, their requirements and needs to provide the most appropriate solutions.

COMMERCIAL EXPANSION

Pietrelli Fruit is now also present in Chile. We have added a processing plant, in Rosario, near Rancagua, with the latest technology for processing of prunes.

OUR PRODUCTS

We specialize in the production and processing of **PRUNES**, pitted and unpitted, natural condition, industrial use, Elliot and organic prunes, as well as the new preservative-free **PRUNE PUREE** with aseptic packaging.
