¡Un Momento Colombiano Más Cerca de Ti!
PRODUCTOS KALIINAS
2019 - 2020

KALIINAS, is a fashion accessories brand that combines the richness of the traditional Colombian artisanal techniques with the global trends of fashion. It's a young and joyful brand based in social standards.

The vision of its founders, is to produce and market fashion accessories of excellent quality, which can be desired in the world market and thus generate as much income as possible to the artisan communities and families. This work began in 2014, by training and making producer groups stronger in production techniques, design, trends, administrative and commercial processes.

Both entrepreneurs have made of KALIINAS a brand that shows to the world the beauty of the Colombian handcrafts. Nowadays, KALIINAS sells to customers in Asia, United States and Europe, and has hundreds of followers.

Its bestseller is the Wayuu traditional bag ("mochila"). However, they also offer other beautiful products as leather bags, beach bags, beach tunics, belts, espadrilles and hats, among others, that are handmade by Colombian artisans.
