Your needs

- ☐ Time to focus on company strategy and market positioning.
- ☐ Get reliable and flexible work force solution to manage peak seasons.
- ☐ Improve financial ratios.
- ☐ Ensure the highest level of productivity for corporation itself.
- ☐ Acquire more skills and specialists to get more projects.
- ☐ Hire experienced professionals.
- ☐ Optimize the operating costs in Engineering & Design.

ECOSI provides KPO solutions in the fields of engineering, architecture and drafting to AEC companies, at low cost while preserving **high quality** and **service standards**.

KPO (Knowledge Process Outsourcing)

It allows companies to keep on staff a valuable portion of its core functions, while contracting the services of well-trained and experienced professionals when the fluctuating demand grows or shrinks.

ENGINEERING DESIGN

Structural Engineering Design

Foundation – Structural Framing (Wood, Steel & Concrete)

Mechanical Engineering Design

Plumbing – HVAC – COMcheck - REScheck

Electrical Engineering Design

Lighting Design – Load Analysis – Wiring Diagrams

Civil Engineering Design

Roadway Design – Stormwater Design - Pipeline Design

Documentation assistance in Engineering

Company standards - Letter of Transmittal - Letter responses to city comments

Residential

Commercial

Industrial

ARCHITECTURAL SERVICES

We provide architectural design services for the industrial, commercial, institutional, and residential markets.

Schematic Design Development

Design Development

Construction Document Development

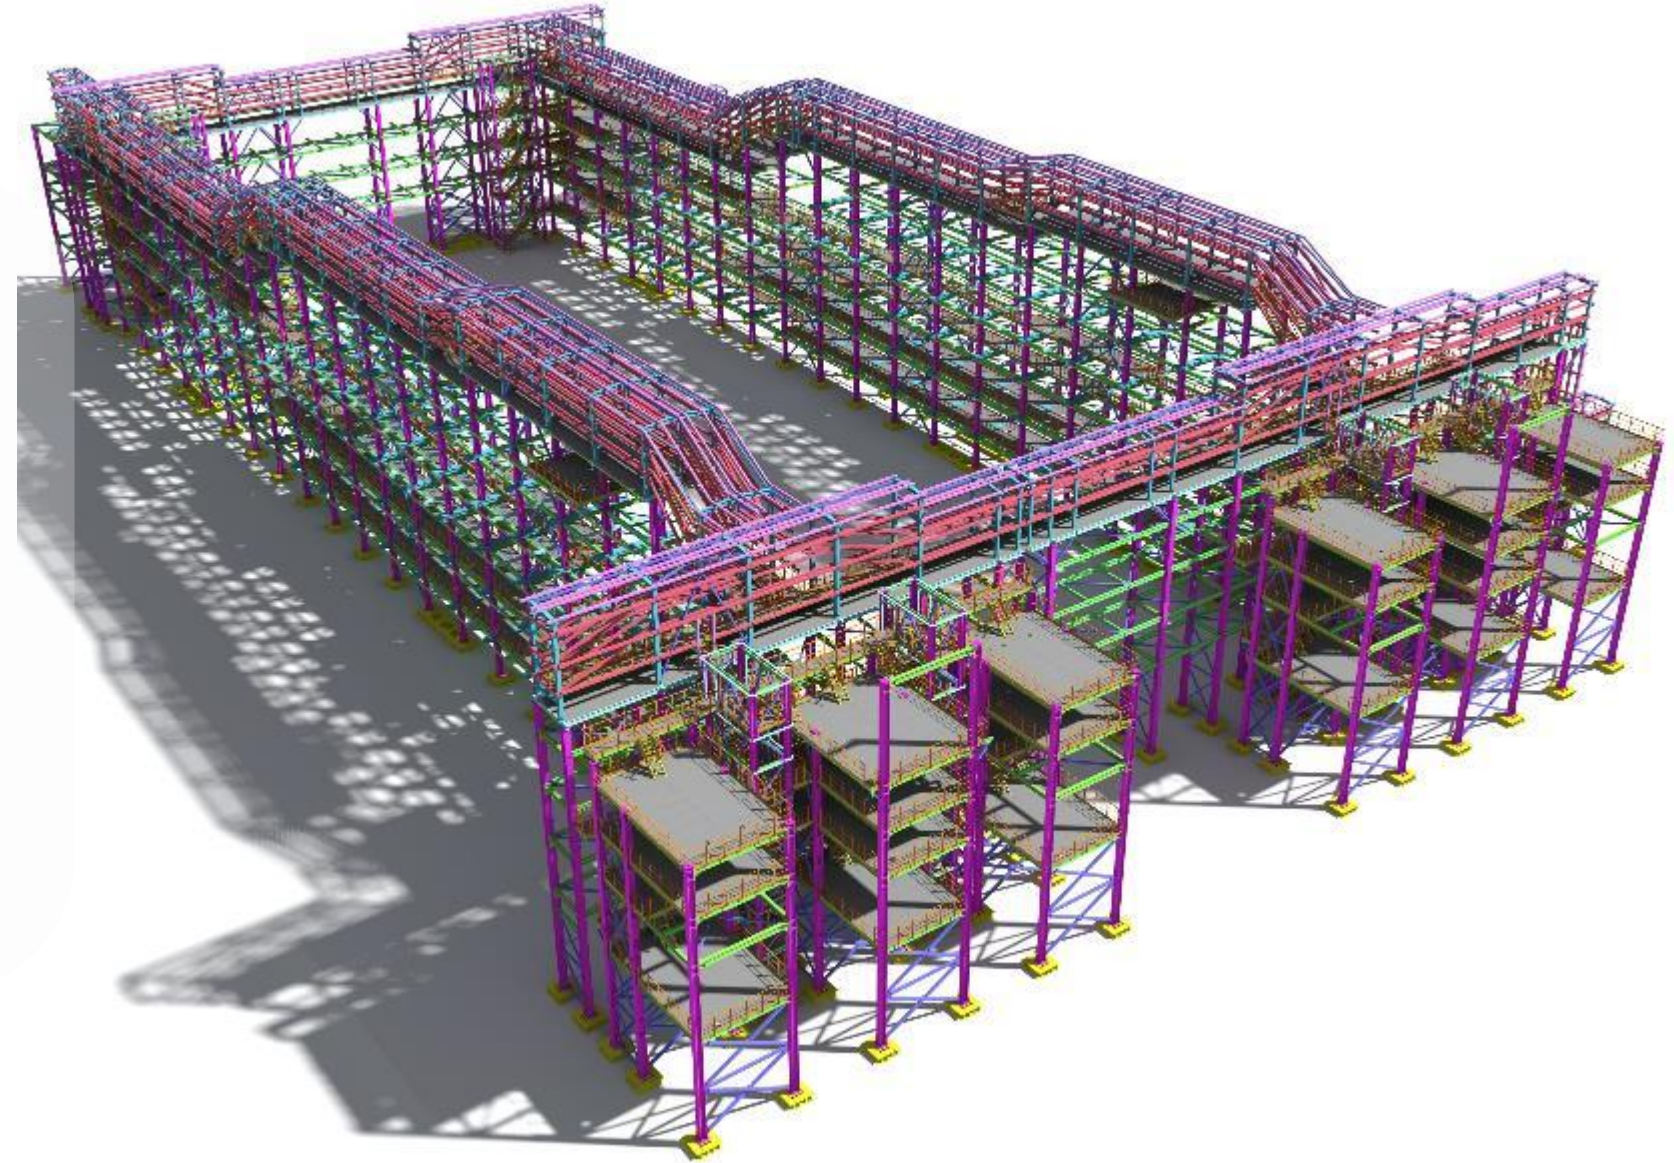

Architectural Renderings

Architecture and interior renovations

BIM and VDC SERVICES

Our team has been trained to create parametric models using an array of technology to proactively mitigate the project risks, expedite coordination and provide better understanding to our clients.

The data contained in these models will help us coordinate and manage interferences, changes, and decisions during the project's life cycle.

DRAFTING AND DETAILING SERVICES

Our drafting and rebar detailing services include a range of services such as rebar concrete shop drawings, bar bending schedules, and rebar placement drawing.

ECOSI provides Rebar services using the latest Rebar detailing software: aSa Rebar. It allow the generation of construction standards according to your business.

SUSTAINABLE DESIGN AND CERTIFICATION

ECOSI provides consulting services to lead the implementation of sustainable strategies to achieve LEED certification of new and existing buildings.

An economic, social and environmental design generates added value and ensures a better quality of life.

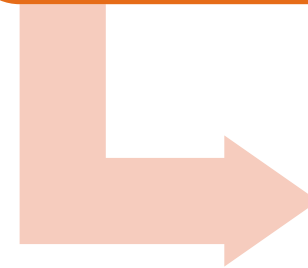

Contact
Us

- Via email.
- Via phone.
- Via Social Media.

Our
Proposal

- Physical facilities.
- Software.
- Human resources.
- Payment method.

Execution

- Project Management.
- Real-time interaction through phone calls and email during the day. No time difference.

Project
Completion

- Project delivery via email or a shared folder or following your requirements.
- Project report.

Feedback

- Markups or redlines to optimize your standards.
- Company standards Checklist.

The process

Keep projects under control. Whether you need an experienced team or a professional to develop your project, or a combination of both; ECOSI can develop a KPO contract that meets your needs.

Our value proposition

- ✓ Cost savings: lower wages and minor investments.
- ✓ Gain access to resources (hardware/software) not available internally.
- ✓ Availability of highly qualified and experienced architects and engineers.
- ✓ Excellent connectivity and virtual communication infrastructure.
- ✓ Best service for less investment of capital and management time.
- ✓ No time zone difference for projects in the Americas.
- ✓ Flexible contracts easy to execute (per hour, per project).
- ✓ Real-time interaction in English and Spanish.
