Condiciones para España:

Los tarifas de transporte para el territorio nacional serán calculadas en función de la cantidad de unidades solicitadas (volumen m3), así como del código postal de destino. Se ruega solicitar cotización de cada operación y que el precio reflejado en esta tabla, sirva de orientación para evitar equívocos.

The unit price has been calculated on the current conditions of supply, so the customs, insurance and transport costs haven't been calculated at the time of the offer because that variations in current international trade conditions may change said terms.

TRS INTERMEDIA GROUP SL, is a company authorized by the Spanish Agency for Medicines and Health Products with the number BR-046-ES for compliance with the Manual of Good Practices in Distribution (GDP), ensuring quality and traceability in the chain distribution between laboratories and pharmaceutical distributors
