POSSIBLE PRODUCTS STRUCTURE...

FOOD & BEVERAGE - Snacks

- Many options with different barrier properties & can be tailor made as per customer requirements:
- Different Print Options – Glossy, Matt Finish & Combination of Glossy & Matt Finish.

2 Ply Structures:

Extrusion Lamination Based OPP / Met OPP or Met CPP for High Barrier Properties

Solvent free Adhesive Lamination Based OPP / Met OPP or Met CPP

Solvent free Adhesive Lamination Based PET / Met PE

Solvent free Adhesive Lamination Based PET / PE or CPP for Transparent Films

3 Ply Structures:

Solvent free Adhesive Lamination based PET or OPP / Met PET / PE for Good Barrier Properties & Puncture Resistance

Extrusion Lamination + Adhesive lamination based PET or OPP / Met PET / PE for High Barrier Properties & Puncture Resistance

POSSIBLE PRODUCTS STRUCTURE...

Biscuits & Cakes

Solvent free adhesives & extrusion lamination based many options with different barrier properties to customer requirements:

- Different Print Options – Glossy, Matt Finish & Combination of Glossy & Matt Finish
- Extrusion Lamination Based OPP / Met OPP or Met CPP for High Barrier Properties
- Solvent free Adhesive Lamination Based OPP / Met OPP or Met CPP
- Solvent free Adhesive Lamination Based PET / Met PE

POSSIBLE PRODUCTS STRUCTURE...

Confectionery

Solvent free adhesives & extrusion lamination based many options with different barrier properties to customer requirements:

- Different Print Options – Glossy, Matt Finish & Combination of Glossy & Matt Finish
- Mono Layer Surface Printed Twist Grade Met PET for Candies.
- Mono Layer Surface Printed Met PET With Registered Cold Seal
- Solvent free Adhesive Lamination Based OPP / Met OPP or Met CPP
- Solvent free Adhesive Lamination Based PET / Met PE
- Pouches with Standup, Zipper & Shaped Configurations with easy tear options.

PRINCE FLEXIPACK LLC

POSSIBLE PRODUCTS STRUCTURE...

Frozen Foods

Solvent free adhesive based many options with different barrier properties to customer requirements:

- High Barrier 2 Ply Structures With BOPA (BON) / PE For Freezer Applications
- Normal 2 Ply Structure With PET / PE.
- Anti Fog PET / CPP Structures.
- Pouches with Standup, Zipper & Shaped Configurations with easy tear options.

POSSIBLE PRODUCTS STRUCTURE...

Cereals & Condiments

Solvent free adhesives & extrusion lamination based many options with different barrier properties to customer requirements:

- Normal 2 Ply Structure With PET / PE for Cost Effectiveness.
- 3 Ply Structure With PET or OPP / Met PET / PE for Good Barrier Properties & Puncture Resistance
- Extrusion Lamination + Adhesive lamination based PET or OPP / Met PET / PE for High Barrier Properties & Puncture Resistance For Ketchup & Jams.
- Easy Tear Pouches With Various Configurations – Standup, Standup + Zipper, etc.
- Spouted Pouches Made By Fully Automatic Machine From TOTANI – Japan for Ketchup & Jam.

POSSIBLE PRODUCTS STRUCTURE...

Pet Foods

Solvent free adhesives & extrusion lamination based many options with different barrier properties to customer requirements:

- Normal 2 Ply Structure With PET / PE.
- 3 Ply Structure With PET or OPP / Met PET / PE for Good Barrier Properties & Puncture Resistance
- Easy Tear Pouches With Various Configurations – Standup, Standup + Zipper, etc.

PRINCE FLEXIPACK LLC

POSSIBLE PRODUCTS STRUCTURE...

Beverages

Many options with different barrier properties & can be tailor made as per customer requirements:

- Different Print Options – Glossy, Matt Finish & Combination of Glossy & Matt Finish
- Wrap Around Labels With Surface or Reverse Printed OPP
- PET G or PVC Based Shrink Sleeves in Roll Form or in Pieces.
- Solvent free Adhesive Lamination based PET or OPP / Met PET / PE for Barrier Properties for Tea & Coffee Packaging
- Extrusion Lamination + Adhesive lamination based PET or OPP / Met PET / PE for High Barrier Properties for Tea & Coffee Packaging.

POSSIBLE PRODUCTS STRUCTURE...

Edible Oils

Solvent free adhesive based many options with different barrier properties to customer requirements:

- High Barrier 2 Ply Structures With BOPA (BON) / PE With Reverse Printing
- Surface Printed 5 or 7 Layer Coextruded Barrier Films
- Spouted Pouches Made By Fully Automatic Machine From TOTANI – Japan.

POSSIBLE PRODUCTS STRUCTURE...

FMCG

Personal Care & Cosmetics

- High Performance Laminates For Aggressive Products Like Hair Dye
- PET G or PVC Based Shrink Sleeves in Roll Form or in Pieces.
- Lidding Films For Thermoforming Applications.
- Spouted Pouches Made By Fully Automatic Machine From TOTANI – Japan.

POSSIBLE PRODUCTS STRUCTURE...

Home Care

- Detergent Powder Packaging With 2 Ply PET / PE or High Barrier 3 Ply PET / Met PET / PE options.
- High Barrier Pouches For Liquid Detergents
- Spouted Pouches Made By Fully Automatic Machine From TOTANI – Japan.

INDUSTRIAL GOODS

Lubricants

- High Performance Laminates For Lube Oil
- Standup Pouches For Lube Oil & Grease
- Spouted Pouches Made By Fully Automatic Machine From TOTANI – Japan.

POSSIBLE PRODUCTS STRUCTURE...

PHARMECEUTICALS

- PAPER / FOIL Laminates For Hygroscopic Powder Like ORS
- PET G or PVC Based Shrink Sleeves in Roll Form or in Pieces.
- 3 Ply Structure With PET or OPP / Met PET or AL FOIL / PE for Various Free Flowing Powders.

AGRICULTURE PRODUCTS

- PAPER / PE Laminates For Retail Packs of Seeds.
- 3 Ply Structure With PET / Met PET / PE For Rice Bags.
- Easy Tear Pouches With 3 Side Sealed, Standup & Standup With Zipper Configurations

POSSIBLE PRODUCTS STRUCTURE...

PACKAGING TYPES

- 1. LAMINATED FILMS IN ROLL FORM**
- 2. PREMADE POUCHES**
- 3. SHRINK SLEEVES**

LAMINATED FILMS IN ROLL FORM

- Phoenix Flexibles provides printed & laminated flexible packaging material in roll form, suitable for vertical form fill seal machines, flow wrap machines, & other automatic machines.
- The material can be engineered with various structures depending upon requirement of barrier properties, mechanical strength, type of packaging machine, etc.

POSSIBLE PRODUCTS STRUCTURE...

PREMADE POUCHES

- Phoenix Flexible offers printed pouches with various structures & shapes to suit customers specific requirement. An ultra modern pouching set up with laser scoring & fully automatic spouting machines ensure leak proof sealing & spouting for various viscous & challenging products.
- The structure can be engineered with various options depending upon requirement of barrier properties, mechanical strength, finish, etc.
- Pouches can be offered with various structures as mentioned below:
 - 2 Ply Laminated Pouches With PET / PE Structures.
 - 3 Ply Laminated Pouches With PET / Met PET / PE Structures.
 - High Barrier BOPA (BON) / PE or PET / Al. FOIL / PE Structures.

POSSIBLE PRODUCTS STRUCTURE...

Pouches can be supplied with various options listed below:

Quad Seal Pouches:

- Four panels from single web
- High barrier
- Self-standing
- Excellent look & graphics

Zipper Pouches:

- Ultrasonic Welded
- Wrinkle free zipper sealing
- PE or PP based zipper
- Many Pouch Style Options

Spouted Pouches:

- Various spout options with different orifice
- Centre or Angled spout welding
- Fully Automatic & leak proof spout sealing
- PE or PP based spout options.

Grab & Go Pouches:

- High Transparency
- Wrinkle free zipper sealing
- Various Size & Shapes.

Shaped Pouches:

- Clean Shape Cutting
- Can be with Stand-up or Spouts.
- Custom Designed.
- Excellent look & graphics
