

### **PIEDRA DE AGUA AND HACIENDA UZHUPUD:**

Couples look for romantic destinations for their special celebrations, whether it is a honeymoon, anniversary or a wedding, they know that a great experience leaves more than just memories.

Some couples search for special offers, but also for those details that make a honeymoon something special that is related to experience a sensational romantic celebration in some amazing destination as a big colonial city. In this case we decided to choose the city of Cuenca for its great hospitality. There are couples looking for landscapes, architecture, culture, spas and relaxation. Others look for gastronomic destinations, so in our opinion; the city of Cuenca frames perfectly all these attractions that make it a unique destination.

We start the tour in the center of the city; an old and modern air begins to gather between the incredible architecture of churches and modern restaurants. Its friendly staff is bilingual so that promotes communication between the guide and the foreigners. If the choice is to rest and relax, there is a visit to Piedra de Agua Spa, located a few minutes away from downtown, this beautiful place offers treatments for the body as an alternative activity. It is ideal for romantic getaways, as it offers exclusive services such as: red mud and blue mud pools and natural baths that are included in this special package, as well as a glass of wine and fruits decorated for the occasion, giving a romantic touch.

Once at the host hotel, couples start to plan what to do in Cuenca, so they usually start with the visit to the long street, where the night lights up with bars, karaoke and clubs for all ages. As tourists expect, there is a lot of fun around. The next day there is another visit to the amazing Uzhupud Hacienda that is 200 years old. It is surrounded by mountains near El Cajas National Park. This hacienda offers full wedding packages because it has a beautiful chapel inside and a convention center. The restaurant offers special dishes that delight the most demanding customers.

The trip to the city of Cuenca is one of the best experiences for couples.
