HAITIAN EXCELLENCE

Soul of the Caribbean, Haiti's mountainous land unveils a vibrant country blending perfectly the richness of its culture with the pride of its people.

OUR HERITAGE

In the shadows of centuries-old sugarcane plantations, guided by the creativity of its inhabitants, the Caribbean became home to a wide variety of rums from which Haiti's unmatched character still stands out.

OUR PROCESS

Distilled, aged and bottled in a top-notch environment in Noailles –19 kilometers outside Haiti's capital, Port-au-Prince – our rums' unforgettable notes and aromas find their origins in small sugarcane fields where the buzzing of nature happily intersperses with the murmuring of farmers.

Our lead distiller, owner of the company and longtime rum connoisseur, is involved in the entire process and is dedicated to create premium products embodying our rum heritage throughout the Caribbean and the world.
