

What we do!

RWL has been successful in reducing local companies' waste and environmental footprint.

We also provide the following services in order to maximize recycling at communities, businesses and schools:-

- 1) Waste assessment/audit
- 2) Waste reduction and cost control advisory
- 3) Programme development and management

Here are the following recyclables accepted by RWL:

Our Mission

To promote the increase of all recyclable wastes generated by raising awareness among key stakeholders such as communities, businesses and schools by providing the engagement tools & resources necessary in order to achieve higher environmental recovery.
