CONVENTIONAL Energy Drinks.
Short-lived effect. Crash.

ROOSTER complements
global wellness trends by providing:

**PERFORMANCE
ENHANCING PRODUCTS
THAT ARE NATURAL,
CONVENIENT,
AND EFFECTIVE**

Why Rooster Natural Booster?

Conventional energy drinks are packed with all kinds of artificial ingredients and synthetic caffeine that increase our performance for a short time but saturate our bodies with ingredients we cannot naturally process and cause us to “crash” after a few hours.

The only active ingredient in ROOSTER is caffeine naturally derived from coffee that boosts your energy with no side effects no harm to your health, and no “crash”.

Designed to enhance your physical and mental performance

ROOSTER is a 10oz natural energy drink, contains 210mg of natural caffeine (same amount of caffeine as 4 cups of coffee) and provides a 4-hour energy boost. It comes in green apple, watermelon, coconut, and cherry flavors.
