# SCHRYVER LOGISTICS WORLDWIDE

# OUR HISTORY

From a small overseas forwarding agency in Hamburg, we've evolved into a global logistics leader now in our third generation of family ownership.

Our founder, Herbert Johannes Schryver, laid the groundwork with a focus on Latin America, offering services to Mexico as early as 1938.

Alongside our expansion in Latin America, we broadened our horizons to Asia, Africa, and Australia, and launched a specialized aviation division in 1994.

# CUSTOMS BROKERAGE

- As translators in trading topics, we communicate with agencies and government throughout your shipping process, to ensure that all of the proper procedures have been followed.
- Our Teams ensure that they stay on top of the various developments in this dynamic industry to provide the best quality service for our clients at all times.

# BUSINESS INTELLIGENCE

- IT & Connectivity
- With "LOGIC", our In-house IT start-up, we maintain our own Transport Management System (TMS).
- We provide upon request and necessity EDI and API connectivity to your software solution to integrate the processes and data flows.
- We constantly enhance our IT system by connecting it to customs, supplier, terminal, etc. IT systems.
