SECRETS VAULT

GDPR

Digital Inheritance

Combine total privacy with the easier access

Manage the **information you want to leave to your beneficiaries** when the time comes in a **simple**, **secure** and **private way**. Only you and your designated beneficiaries can access the information under pre-defined conditions, **using an image of your choice**.

Key Benefits

Simplest access using images. **Forget about passwords** and devices

Manage **what, who** and under **what conditions** data is accessible

Top-tier security powered by advanced **quantum-resistant** cryptography.

Total **privacy** by design. Only you and your beneficiaries have access

How it works

1. The user accesses the platform with any web browser
2. The user provides the digital contents to be left (documents, video, audio, pictures...)
3. To protect the information, the user selects an image of his choice

4. The user defines access conditions and invites her beneficiaries
5. The user shares the image with the beneficiaries via any channel
6. When conditions are met, the beneficiaries will be notified and granted access to the contents
