

# SPECIALTY COFFEES FROM BRAZIL

Serra Coffees is a Brazilian company founded in 2016 by coffee farmers under the belief that sustainable and resilient food production systems contribute to a more equal world. With fair agriculture, we produce coffees respecting the natural environment and valuing the human being. We want to inspire your days with our coffees, whether you are at work or at home with your family, we always have a good choice that will surely surprise you.

## Specialty Line

The Specialty Line provides you an amazing experience. With high quality green coffee beans roasted to their greatest flavor potential, this line gives you single origin coffees above 80 points score according to the SCA protocol. Our rich soil and high elevation help to create a fruity beans with high sweetness and incredible complexity. We work with several types of arabica beans, cultivated by certified farms, dried with natural, semi-washed and washed process and own production. We want to give you the taste and aroma of the best coffee beans.

## Requinte Line

The Requinte line highlights the real features of the Brazilian coffee produced in high lands of Minas Gerais State. We take to our customers selected arabica beans carefully roasted for the espresso brewing. For you that prefer to grind your coffee just before the brewing or you that have a coffee business and want to provide outstanding coffees, the Requinte line is perfect. We work with traced beans and certified farms following management standards with fair work practices and respect for the natural environment.

## Origens Line

The Origens line combines high quality standard with affordable prices. We offer our customers the opportunity to enjoy a good Brazilian coffee roasted with the most modern roasting processes. The Origens Intenso is carefully prepared for those who prefer a strong, embellished drink where the flavor is enhanced. We select beans that can be roasted without losing the fundamental feature of the original fruit. The Origens Suave presents a light drink that emphasizes the acidity and the sweetness. Origens coffees only use 100% of arabica beans.

***The speed of modern life can't prevent ourselves in appreciating high quality coffee beans. Experience the excellence of the Serra Coffees product lines and have the taste and aroma of true Brazilian coffee.***
